“The ethos of the Villar Bajwa Practice is to help our patients and athletes fulfill their physical potential. At Spire Cambridge Lea Hospital I work with a team of colleagues, across disciplines, who share the same passion and what’s even better, they do it with a smile!”

Mr Ali Bajwa, Consultant Orthopaedic Surgeon at Spire Cambridge Lea Hospital

About Spire Cambridge Lea Hospital

At Spire Healthcare we are committed to delivering excellent individual care and customer service to all our patients, from the time they first get in touch with us until after their treatment is complete. Our dedicated and highly trained people aim to consistently achieve excellent results, in a safe and secure environment. For us it’s more than just treating patients, it’s about looking after people, and the safety of our patients and colleagues is our number one priority.

It’s our people that really set us apart

We know that you insist on the highest standards of care for the patients who put their trust in you, and you can be sure that our team will continue that care. For us it’s more than just treating patients, it’s about giving patients, their family and friends the most positive experience we possibly can in our hospital.

Our consultants

Every consultant working at Spire Cambridge Lea Hospital is on the specialist register of the General Medical Council and has met our practising privileges criteria. We know continuity of care is important. Once a patient has chosen their consultant, we will make sure that they are looked after by the same consultant, from the first appointment and throughout all treatment and follow-up care.

Our nursing staff

All our nurses are highly qualified and dedicated to caring for patients in a professional manner. For ultimate reassurance, we have a fully trained clinical team equipped to deal with medical emergencies 24 hours a day.

All the facilities you’d expect and more

- Our 63 private rooms are set in pleasant surroundings and all have Freeview television, free wifi access and personal nurse call system

In addition to our private rooms, we offer:

- 19 consulting rooms
- Five operating theatres
- A JAG accredited endoscopy suite
- Three outpatient procedure rooms
- Multiple outpatient testing and treatment rooms
- On-site CSSD – decontamination and sterilisation department
- Pharmacy
- Quality assurance
- CPA accredited pathology service
- CQC registered

Emergency admissions

Call **01223 266 900** and ask for the nurse in charge. The hospital **does not** have an accident and emergency facility.

How to refer your patients

At Spire Cambridge Lea Hospital we are committed to delivering excellent individual care and customer service to all our patients, from the time they first get in touch with us until after their treatment is complete. Our dedicated and highly trained people aim to consistently deliver excellent patient care, in a safe and secure environment. We work to ensure every patient is treated as if they were our own vulnerable relative.

Self-funding patients

Self-funding patients are able to be seen by a consultant without a GP referral, although a letter is often preferred. We can provide a tailored fixed price inclusive care package* with no hidden extras on a range of diagnostic tests, treatments and surgical procedures. For more information, please call our Self-pay team on **01223 266 929**.

- 1 Use Spire Connect to upload the referral letter. Call **07702 894 701** if you have any queries.
- 2 Our team will contact your patient to discuss consultants, dates, times and pricing.
- 3 We'll update you on your patients' progress.

Patients with private medical insurance

A referral letter is generally required from you before any insured patient can be seen by a consultant. Patients can call our bookings team on **01223 266 990** to arrange a convenient appointment.

- 1 Use Spire Connect to refer your patient. All patients using private insurance will need a referral letter.
- 2 Our team will contact your patient to discuss consultants, times and dates.
- 3 Your patient needs to contact their insurer to make sure they are covered for their appointment to see their chosen consultant.
- 4 We'll update you on your patients' progress.

Spire Cambridge Lea Hospital provides elective surgical services on behalf of the NHS, including orthopaedics and general surgery. Full details of the services provided can be found on, and referrals must be made via, the NHS eReferral system (<https://www.ebs.ncrs.nhs.uk/>).

Referral letters

Referral letters can be:

- Submitted online at <https://spireconnect.spirehealthcare.com>

Self-pay patient information

For help in arranging self-funded consultations and treatment, including guide prices for investigations and surgery, please ask patients to contact our self-pay team on:

Phone: **01223 266 929**

Email: **cambridgehospselpay@spirehealthcare.com**

Our fixed price packages* offer the following benefits:

- No waiting lists
- Fast access to leading consultants
- Treatment dates to suit the patient
- Personalised support and care

Typical treatments that can be self-funded:

- Back pain treatment
- Cataract surgery
- Cosmetic surgery
- CT, MRI and ultrasound scans
- Endoscopy procedures
- Hernia repair
- Knee, hip, or shoulder surgery
- Varicose vein treatment

*Please see a copy of Spire Healthcare's patient terms and conditions for full details. Prices vary per treatment and are dependent on each patient's individual circumstances and needs.

No referral criteria thresholds

Referral into the NHS isn't always possible. At Spire Cambridge Lea Hospital we don't have referral thresholds – so your patient can quickly access consultant appointments and diagnostic facilities including MRI and CT scans.

Online referral guide

Spire Connect enables practice staff to log in and send secure, instant online referrals to Spire Healthcare hospitals. The system is designed to be as simple and efficient as possible, while protecting all confidential information within secure servers. It's our people that really set us apart.

Visit <https://spireconnect.spirehealthcare.com> or click on Spire Connect from the GP information and resources tab on our website.

Registration

When you access Spire Connect for the first time you will be required to register a few personal details to allow you access to the site and grant you permission to make referrals.

The GP information and resources area will also contain information from Spire Healthcare specifically for GPs including news on our forthcoming free education events.

Making a referral

To make a referral click on the 'Make an online referral' link and complete all relevant details.

NHS referrals

You may refer patients to Spire Cambridge Lea Hospital under the NHS choice regulations. To see what NHS services are provided and to make a referral, please use the NHS eReferral service (<https://www.ebs.ncrs.nhs.uk/>).

Imaging and other referral types

You can make referrals for radiological investigations by selecting 'Radiology' under the specialty list. To make a referral for physiotherapy, podiatry, dietetics, psychology etc, select one of these from under 'Allied Health Professionals' in the specialty list.

Attaching patient notes

It is possible to attach patient notes to the form, however the ease of this will depend on your own patient record software. Take a look at the options available in your software to see if records can be 'exported' or 'saved as' to your desktop. Then from there you can attach them to this form. You will need to save the notes in a common format such as a text or word document (.rtf, .pdf, .doc, .txt), a spreadsheet (.xls or .csv) or an image format (eg .bmp, .jpg). Then click the 'send referral' button at the bottom of the page to submit the referral.

How secure are Spire online referrals?

Spire Healthcare have taken great care to ensure that our online referral system is very secure. The online referral form has been designed with security in mind, and complies with NHS guidelines. Safeguarding confidential patient information is our priority and so we have built a system that does not send any of this information by email.

We believe we have created a robust and effective online referral system that will serve both patients and GPs well.

For more information on Spire Connect, contact us on **07702 894 701** or at gpeducation.cambridge@spirehealthcare.com

GP education

We provide a range of educational sessions including virtual classrooms, conferences and workshops.

In addition we can bring consultants to your practice for an education session. You can choose the topic and date and we'll bring a hamper lunch prepared by our on-site chefs. GP registrars, practice nurses and any medical students are welcome too.

How to find out about our events

Call our Primary Care Relationship Specialist on **07702 894 701**

Email us at gpeducation.cambridge@spirehealthcare.com

Here are some examples of topics we can offer. Please note, this is not an exhausted list. If there is a topic that you would like to learn more about, please get in touch.

- Breast health update for medical professionals
- ECG interpretations in general practice: perils and pitfalls
- Skin cancers – diagnosis and management in primary care
- Novel therapies for nasal and sinus disease
- Is it IBS or IBD, how do I manage and treat?
- A guide to common anorectal problems
- Pelvic floor dysfunction and childbirth
- Primary care management of common eye problems
- Most shoulder complaints don't require surgery, only a surgical assessment
- Pre-operative templating for a successful hip replacement
- Knee update: from sports injuries to modern knee replacement
- Sports medicine
- Recovery from COVID in athletes – the doctor's challenges
- What's new in inflammatory arthritis?
- Common head pain and management
- Slipped disks, diagnosis, treatment and management
- Renal colic: why, when and how to treat/prevent?

GP support

Spire Cambridge Lea's onsite teams offer prompt and friendly assistance for GPs and primary care professionals to help you in looking after your patients.

Primary Care Team

Our Primary Care Managers are responsible for liaising with GP practices and other primary care professionals. Their role is to familiarise you with our services and consultants and to make it as easy as possible for your patients to be seen and treated at Spire Cambridge Lea Hospital.

The team can be contacted on:

Phone: **07702 894 701**

Email: gpeducation.cambridge@spirehealthcare.com

Self-pay Team

Our self-pay team are here to help with arranging self-pay consultations and treatment, including guide prices for investigations and surgery.

One-off private treatment at a fixed price*

- Available for in-patient and day-case procedures, subject to patient pre-assessment.
- Normally includes all consultant and hospital fees, out-patient physiotherapy and one follow up appointment.
- Treatment of complications*

Patients can contact the team on:

Phone: **01223 266 929**

Email: cambridgehospselpay@spirehealthcare.com

*Spire Healthcare patient terms and conditions apply.

Directory listings

Dr Susan Ozer

Attention deficit hyperactivity disorder (ADHD), autism spectrum disorders, developmental delay.

NHS trust base: East and North Herts NHS Foundation Trust

Dr Paul Worth

Diagnosis and treatment of Parkinson's and movement disorders such as ataxia, dystonia, progressive supranuclear palsy, multiple systems atrophy.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Dr Stephen Wroe

Head, brain and spinal cord disease and injury, neurological consequences of trauma, brain death, cerebral haemorrhage and stroke, peripheral nerve injuries, chronic fatigue syndrome, myalgic encephalomyelitis (ME), post-viral fatigue, dizziness and loss of consciousness, memory impairment, epilepsy, neurorehabilitation, head injury, headache and migraine, speech and language disorders, muscular dystrophy, multiple sclerosis, whiplash injuries, automatism (neuropsychology).

NHS trust base: University College London Hospitals NHS Foundation Trust

Neurophysiology

Dr Andrew Michell

Tingly or numb fingers, sciatica or other nerve root symptoms, weakness suspected to be caused by nerve or muscle problems, diagnose rare diseases of the nerves and muscles, neuromuscular service using EMG and nerve conduction studies.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Neurosurgery

Mr Dan Brown

General neurosurgery, spinal, cerebrovascular including AVMs and aneurysms, all aspects of degenerative spinal disease including disc prolapse and spinal stenosis, degenerative compressive myelopathy, sciatica, lumbar and cervical disc prolapse.

NHS trust base: Cambridge University Hospital NHS Foundation Trust

Mr Richard Mannion

Spinal problems and brain tumours, including tumours of the skull base and pituitary gland, spinal disease including infection, tumours, trauma and degenerative / wear and tear conditions, minimally invasive spinal surgery, trigeminal neuralgia.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Robert Morris

Degenerate spine and disc problems, surgery for brain tumours, Parkinson's disease and epilepsy, carpal tunnel syndrome surgery, neck pain, lumbar and cervical disc prolapse, lumbar canal stenosis, functional and neuro-oncology surgery.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Rikin Trivedi

General neurosurgery, spinal, cerebrovascular and skull base surgery, minimally invasive surgery techniques, spinal trauma, infection and tumours, and all aspects of degenerative spinal disease including disc prolapse and spinal stenosis.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Ophthalmology

Mr Philip Alexander

Cataract removal surgery, diabetic eye disease, epiretinal membrane, floater, macular hole, laser eye treatment (YAG laser capsulotomy), macular hole, retinal detachment, refractive lens exchange surgery, vitreomacular traction, vitreous haemorrhage.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Miss Louise Allen

General adult ophthalmology; all specialist paediatric ophthalmology, including: ocular genetics, congenital cataract surgery, lid lesions, squint surgery and amblyopia (lazy eye).

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Prof Rupert Bourne

Cataract removal surgery, advanced glaucoma diagnostics and treatment, glaucoma filtration surgery (trabeculectomy), aqueous stent insertion (Preserflo microshunt and Baerveldt tubes) and minimally invasive glaucoma surgery for reduction of eye pressure in glaucoma, laser eye treatment (YAG laser capsulotomy, YAG laser peripheral iridotomy, SLT laser), and lens refractive surgery.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Dr Erika Damato

Medical ophthalmology: uveitis, scleritis, orbital inflammation, inflammatory eye disease, thyroid eye disease.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust / Moorfields Eye Hospital NHS Foundation Trust

Mr Stylianos Georgoulas

Cataract removal surgery, dry eye syndrome, eyelid cyst surgery, glaucoma treatment, glaucoma filtration surgery, insertion of aqueous stent in the anterior chamber (Baerveldt or Ahmed), laser eye treatment (YAG laser capsulotomy), lens refractive surgery, refractive lens exchange surgery, SLT laser, trabeculectomy, YAG laser capsulotomy, YAG laser peripheral iridotomy.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Miss Brinda Muthusamy

Cataract removal surgery, eyelid cyst surgery, laser eye treatment (YAG laser capsulotomy), adult strabismus (squint) surgery, adjustable squint surgery, temporal artery biopsy, neuro-ophthalmology.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Douglas Newman

Cataract removal surgery, age-related macular degeneration treatment, vitreoretinal surgery (including detachment and macular surgery), medical retina disorders including diabetic retinopathy.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Jong Ong

Cataract removal surgery, age-related macular degeneration treatment, laser eye treatment (YAG laser capsulotomy), mole, cyst, wart and skin tag removal, refractive lens exchange surgery, vitreo-retinal surgery.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Madhavan Rajan

Cataract removal surgery, multifocal and toric intraocular lens implantation, refractive lens exchange surgery, laser eye treatment (YAG laser capsulotomy), corneal crosslinking for keratoconus, corneal transplantation, dry eye management / blepharitis, corneal disorders / keratitis.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Cornelius René

Ophthalmic plastic surgery (benign and malignant eyelid lesions, ectropion, entropion, ptosis, eyelid reconstruction, cosmetic eyelid surgery), lacrimal surgery (watery eyes, blocked tear ducts), management of orbital pathology (orbital inflammation, orbital tumours, management of thyroid eye disease, eye socket surgery, orbital fractures), blepharitis, dry eyes, blepharospasm.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Miss Humma Shahid

Cataract removal surgery, eyelid cyst surgery, emergency eye problems, glaucoma, trabeculectomy, treatment of dry eyes and blepharitis.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Martin Snead

Vitreous and retinal surgery, ocular trauma, diabetic retinopathy, stickler syndrome, cataract, macular surgery, macular hole repair, epiretinal membrane surgery for repair of complications of previous cataract surgery.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Christopher Stephenson

Cataract removal surgery, refractive lens exchange surgery, laser eye treatment (YAG laser capsulotomy), dry eye syndrome, corneal transplantation, keratoconus management, dry eye management / blepharitis / keratitis.

NHS trust base: North West Anglia NHS Foundation Trust

Mr Liam Sullivan

Cataract surgery, YAG laser capsulotomy after cataract surgery, management of retinal and macular diseases, intravitreal injections and laser for retinal diseases including age related macular degeneration, diabetic eye disease and retinal vein occlusions.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Simon Woodruff

Cataract, oculoplastic, ptosis, entropion / ectropion, periocular tumours, reconstructive surgery, thyroid eye disease management, surgical rehabilitation, socket surgery, orbital, lacrimal (external, endoscopic, endonasal), cosmetic eyelid, botulinum toxin, fillers.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Oral and maxillofacial

Mr Malcolm Cameron

Maxillofacial surgery, oral surgery, wisdom teeth, mouth cancer, facial trauma, orofacial cancer, jaw deformity, salivary gland conditions, jaw cysts.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Mark Thompson

Oral surgery, wisdom teeth, mouth cancer, facial trauma, head and neck, orofacial cancer, jaw deformity, salivary gland conditions, jaw cysts, facial surgery.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Orthopaedics

Mr Ali Bajwa

Robotic arm assisted surgery, hip arthroscopy, hip replacement surgery, knee arthroscopy surgery, knee ligament surgery, knee replacement, sports injury – ligaments and tendons, stemcells.

Mr Michael Barrett

Achilles tendon disorders, ankle arthritis, injury of the ankle ligaments, bunion surgery, lesser toe deformities, heel pain, plantar fasciitis, venous thromboembolism, arthritis of the big toe, ingrowing toenail, joint pain treatment, joint manipulation treatment.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Andrew Carrothers

Robotic arm assisted surgery, knee arthroscopy surgery, hip replacement surgery, knee replacement, joint manipulation treatment, joint pain treatment (joint injections), regenerative therapies – PRP and N-stride injections, lower limb sporting injuries, pelvis and acetabulum fractures.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Jai Chitnavis

Knee arthroscopy surgery, knee replacement, knee ligament surgery, ligament reconstruction, sports injuries.

Mr Mariusz Chomicki

Paediatric orthopaedics: Gait problems, neonatal screening for musculoskeletal disorders, leg alignment, flat feet, foot surgery, hip dysplasia, Perthes disease, SUFE, knee injuries, knee arthroscopy, fractures, guided growth, correction of alignment, fractures, injuries. Foot and ankle: Ingrowing toenail, lesser toes deformities, forefoot pain, bunion surgery, flat foot reconstruction, foot corrective surgery, ligament repair, ankle arthritis, ankle fusion, heel pain, plantar fasciitis, image guided injections, achilles tendon disorders, achilles tendon surgery.

NHS trust base: North West Anglia NHS Foundation Trust
Cambridge University Hospital NHS Foundation Trust

Mr Daud Chou

Robotic arm assisted surgery, hip and knee surgery, joint manipulation treatment, joint pain treatment (joint injections), lower limb sports injuries, lower limb disorders and reconstruction, pelvic and acetabular surgery, revision hip replacement surgery, revision knee replacement surgery.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr John Crawford

Back surgery (spinal surgery), degenerative disease of lumbar spine and cervical spine, scoliosis, spinal deformity, spinal infection and spinal fusion, tumours.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Amitabh Dwyer

Shoulder and elbow surgery, upper limb trauma, frozen shoulder, rotator cuff repair, proximal biceps tenodesis, shoulder stabilisation, reverse total shoulder replacement, carpal tunnel, trigger finger, tennis and golfer's elbow.

NHS trust base: North West Anglia NHS Foundation Trust

Mr Dennis Edwards

Knee and hip surgery, knee replacement, revision surgery, knee arthroscopy surgery, knee ligament surgery, chondral defects and ligamentous reconstructions in addition to meniscal repair, regeneration and transplantation.

Mr Chris Gooding

Robotic arm assisted surgery, hip and knee replacement surgery, joint manipulation treatment, joint pain treatment (joint injections), knee arthroscopy surgery, metastases to the lower limbs.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Spire

Cambridge Lea Hospital

Make referrals easy with Spire Connect

Spire Connect serves GPs, practice staff and all other healthcare professionals.

Send referrals securely and instantly using our dedicated referral portal today.

With Spire Connect you can:

- Make secure online referrals for a broad range of treatments and services
- Save time and paper
- Refer patients who have health insurance or who want to pay for themselves
- Receive email confirmations once your referral is submitted and processed
- Access send information at any time
- Find direct contact information for your local Spire Healthcare hospital

Register to find out more

Search 'Spire Connect'

Looking after you.

Mr Douglas Hay

Back surgery, degenerative disease of lumbar spine and cervical spine, scoliosis, spinal deformity, spinal surgery, spinal infection and spinal fusion.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr James Hopkinson-Woolley

Trigger finger release, carpal tunnel syndrome surgery, Dupuytren's contracture, ganglion removal surgery, hand, wrist and scaphoid fracture surgery, ulnar nerve compression (cubital tunnel syndrome); de Quervain's disease, arthritis of the hand and wrist, lumps and bumps in the fingers, hand and wrist, repetitive strain injury.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Philip Johnston

Trigger finger release, carpal tunnel syndrome surgery, Dupuytren's contracture, ganglion removal surgery, wrist (distal radius) and scaphoid fracture treatment, scaphoid non-union surgery, wrist reconstruction for arthritis, peripheral nerve entrapment release (cubital tunnel, radial tunnel), thumb base arthritis treatment.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Niel Kang

Elbow surgery, shoulder arthroscopy, rotator cuff repair, shoulder replacement surgery.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Graham Keene

Robotic arm assisted surgery, hip and knee joint primary replacement surgery, hip resurfacing surgery, hip joint replacement revision surgery, arthroscopic knee surgery and adult trauma care.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Vikas Khanduja

Hip arthroscopy, young adult hip, hip replacement, knee arthroscopy, knee replacement, ACL or PCL reconstruction, sports injuries, trauma surgery.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Matija Krkovic

Soft tissue injuries, knee surgery, deformity correction, treatment of infections and deformities.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Prof Stephen McDonnell

Robotic arm assisted surgery, hip replacement surgery, knee arthroscopy surgery, knee ligament surgery, knee replacement, ACL reconstruction, meniscal repair surgery.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Joel Melton

Robotic arm assisted surgery, knee surgery, sports injuries, arthroscopy, ACL / PCL reconstruction.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Arman Memarzadeh

Specialist knee surgery: Sports injuries, arthroplasty / joint replacement, partial and total knee replacement, osteotomy / realignment, arthroscopy, ACL reconstruction, ligament reconstruction, cartilage regeneration, meniscectomy or meniscal repair for meniscus tear, patella stabilisation, trauma surgery, robotic assisted arm surgery.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr P Julian Owen

Hip surgery including hip replacement, knee surgery including replacement and arthroscopy.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Arpit Patel

Hip surgery, knee surgery, knee ligament surgery, sports injuries.

NHS trust base: North West Anglia NHS Foundation Trust

Mr Daniel Rajan

Foot and ankle, achilles tendon disorders, ankle fusion, ankle replacement, bunion removal and treatment, hindfoot and midfoot reconstruction, ingrown toenail surgery, joint injections, ligament reconstructions, reconstruction of chronic neglected tendon ruptures, tendon transfers, treatment of lesser toe disorders.

Mr Jaikirty (Jai) Rawal

Robotic arm assisted surgery, hip and knee surgery, knee arthroscopy surgery, knee replacement, lower limb sports injuries, lower limb disorders and reconstruction.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Andrew (Fred) Robinson

Foot and ankle, achilles tendon reconstruction and repair, ankle replacement and fusion, bunion removal and treatment, flat foot correction, sport injuries, both arthroscopic and open.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Alope Singhania

Hip and knee replacement surgery, knee arthroscopy surgery, lower limb sports injuries, meniscal repair and chondral defect surgery, joint pain treatment (joint injections), joint manipulation treatment.

Mr Graham Tytherleigh-Strong

Shoulder arthroscopy, shoulder replacement surgery, shoulder instability and arthritis, rotator cuff repair, sports injury.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Lee Van Rensburg

Joint replacements of both the shoulder and elbow, rotator cuff repair, shoulder arthroscopy.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Alastair Vince

Robotic arm assisted surgery, hip and knee replacement surgery, joint pain treatment (joint injections), knee arthroscopy surgery.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Andrzej Wojcik

Treatment of spinal deformities in adolescents and adults, idiopathic and post-traumatic, treatment of degenerative condition of the spine: microsurgery of the disc, stabilisation fusion and techniques.

NHS trust base: North West Anglia NHS Foundation Trust

P

Paediatric

Dr Gautam Ambegaonkar

Paediatric neuromuscular disorders, headaches, tic disorders and tourette's, movement disorders, epilepsy, CNS demyelinating and developmental disorders.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Dr Rajiv Goonetilleke

Abdominal pain, asthma, cough, constipation, urine tract infections, children with growth problems, short stature, pubertal problems, early puberty, delayed puberty, thyroid problems, diabetes, endocrinology.

NHS trust base: North West Anglia NHS Foundation Trust

Dr Ankit Mathur

Investigation and management of neurodevelopmental disorders, developmental delay, autism, ADHD.

NHS trust base: West Suffolk Community Services

Dr Susan Ozer

ADHD, autism spectrum disorders, developmental delay.

NHS trust base: East and North Herts NHS Foundation Trust

Pain management

Dr Mark Abrahams

Chronic pain, facet joint injections, intramuscular and joint injections with x-ray control, trigger point injections, botulinum toxin injection for back pain, epidural injections, headache treatment, neuralgia (nerve pain) treatment, rhizolysis, CRPS, pelvic pain, fibromyalgia.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Dr Paul Rolfe

Chronic pain management, botulinum toxin injection for back pain, epidural injections, facet joint injections, headache treatment, injection treatment for chronic migraines, neuralgia (nerve pain) treatment, rhizolysis, musculo-skeletal pain, abdominal pain, pelvic pain (men and women), joint pain, CRPS, fibromyalgia.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Dr Bharti Seth

Management of chronic pain conditions including low back pain, neck pain, whiplash injury, facial pain, headache including injection management for neuralgias associated with headaches, Botulinum toxin injections for migraine, complex regional pain syndrome, neuropathic pain, radiofrequency and pulsed radiofrequency treatment, SI joint pain, trigger point injections, pelvic pain, fibromyalgia.

NHS trust base: The Queen Elizabeth Hospital King's Lynn NHS Foundation Trust

Dr Rokas Tamosauskas

Chronic spinal and neuropathic pain management, low back pain, chronic sciatica, chronic neck, shoulder and arm pain, pain in thoracic spine, discogenic pain, peripheral neuropathic pain, CRPS-1 (reflex sympathetic dystrophy).

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Dr Evan Weeks

Chronic pain management, the treatment of spine pain (cervical, thoracic, lumbar and sacrum) using epidural injections, facet joint injections (medial branch blocks), pulsed radiofrequency (PRF), radiofrequency denervation, the treatment of headache or chronic migraines, neuropathic pain, neuralgia (nerve pain) treatment, musculoskeletal pain, abdominal pain, pelvic pain (men and women), joint pain (shoulder, hip, knee), CRPS, fibromyalgia and persistent post-surgical pain (PPSP).

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Plastic surgery

Mr Ahid Abood

Eyelid surgery or eyebag removal, lymphadenectomy surgery, mole, cyst, wart and skin tag removal, tummy tuck, scar revision, sentinel lymph node biopsy, skin cancer, pinnaplasty, otoplasty, liposuction, breast augmentation, breast reduction and uplift.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Tariq Ahmad

Breast enlargement, mole, cyst, wart and skin tag removal, ear pinning, breast reduction, breast uplift, nose reshaping, liposuction, facelift, labial reduction surgery.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Amer Durrani

Mole, cyst, wart and skin tag removal, sentinel lymph node biopsy and lymph node removal, treatment for malignant skin cancer, breast reconstruction following mastectomy, scar revision, aesthetic surgery of the breast and face, reconstructive microsurgery following trauma or cancer.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Ian Grant

Breast enlargement, arm reduction and arm lift, breast implant removal, breast reduction, breast uplift, carpal tunnel syndrome surgery, Dupuytren's contracture, ganglion removal surgery, male breast reduction surgery, mole, cyst, wart and skin tag removal, scar revision, thigh and buttock lift, trigger finger release, tummy tuck, cosmetic facial surgery, benign skin lesion surgery.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Per Hall

Dermatological surgery, facial surgery, paediatric surgery, reconstructive surgery, skin cancer, cosmetic breast surgery, breast surgery, non-surgical cosmetic treatment, cosmetic surgery, cosmetic plastic surgery, management of facial deformity including cleft lip and palate, cosmetic rhinoplasty.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Michael Irwin

Cosmetic breast surgery including augmentation, reduction, mastopexy / breast lift, lipofilling / fat transfer, breast reconstruction (DIEP, latissimus dorsi, implant and ADM) developmental breast problems including Poland's syndrome, asymmetrical breast deformities and gynecomastia, upper and lower eyelid surgery, face / neck lift, prominent ears, tummy tuck, liposuction, labia reduction surgery, mole and skin lesion excision including skin cancers (basal cell carcinoma / squamous cell carcinomas / malignant melanomas) and skin grafts.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Richard Price

Cosmetic surgery: body, breasts, ears, eyes, face, non-surgical procedures and anti-wrinkle treatments and fillers, skin cancer treatment, mole, cyst, wart and skin tag removal.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Alex Reid

Plastic surgery, hand surgery.

NHS trust base: Cambridge University Hospital NHS Foundation Trust

R

Radiology

Dr Helen Addley

Radiologist.

Dr Sanjay Agrawal

Radiologist.

Dr Judith Babar

Radiologist.

Dr Tristan Barrett

Radiologist.

Dr Philip Bearcroft

Radiologist.

Dr Nicholas Carroll

Radiologist.

Dr Justin Cross

Radiologist (Neuroradiologist).

Prof Tilak Das

Radiologist.

Dr Katja De Paepe

Radiologist.

Dr Susan Freeman

Radiologist.

Dr Emma Gerety

Radiologist.

Dr Deepa Gopalan

Radiologist.

Radiologist

Dr James Tanner

Radiologist.

Dr Andrew Winterbottom

Radiologist.

Rheumatology

Mr Gavin Clunie

Autoimmune disease, inflammatory arthritis, joint, tendon and bursa injections, osteoporosis assessment, metabolic bone disease.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Dr Deepak Jadon

Ankylosing spondylitis, back pain (acute and chronic), fibromyalgia, gout, lupus, osteoarthritis, psoriatic arthritis, rheumatoid arthritis, Sjogren's syndrome, unexplained joint or musculoskeletal pain.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Dr Anoop Kuttikat

Ankylosing spondylitis / axial spondyloarthritis, arthritis, crystal arthritis – gout, connective tissue disease-lupus (SLE), early inflammatory, pseudogout, polymyalgia rheumatica (PMR), rheumatoid arthritis, psoriatic arthritis, Sjogren's, scleroderma, temporal arteritis (giant cell arteritis).

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Dr Anshuman Malaviya

Connective tissue disease, inflammatory rheumatic disorders, metabolic bone diseases, rheumatoid arthritis, soft tissue rheumatism.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Dr David O'Reilly

Back pain, sciatica, ankylosing spondylitis, neck pain, shoulder pain, joint pain, joint injections, golfers elbow, heel pain, muscle and soft tissue pain, soft tissue injections, hip pain / trochanteric bursitis, tendon problems, carpal tunnel syndrome, polymyalgia, giant cell arthritis, reactive arthritis.

NHS trust base: West Suffolk NHS Foundation Trust

Dr Jonathan Rees

Ankylosing spondylitis, gout, back pain, osteoarthritis, bone health, osteoporosis, psoriatic arthritis, rheumatoid arthritis, sports medicine, sports injury.

Dr Nicholas Shenker

Inflammatory and degenerative arthritis, neck and back pain, soft tissue problems, complex regional pain syndromes (CRPS / reflex sympathetic dystrophy), fibromyalgia, connective tissue diseases.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Prof Cathy Speed

Regional musculo-skeletal pain, shoulder injuries, back pain, sports injuries, exercise prescription, chronic pain, elderly musculo-skeletal problems, arthritis, bone health, complex pain and hypomobility, shock wave therapy, nutrition for musculoskeletal health.

S

Sport medicine

Dr Clodagh Dugdale

Musculoskeletal medicine – particularly the shoulder, rehabilitation of chronic and overuse injuries, autologous blood and PRP, joint and soft tissue injections, diagnostic ultrasound, ultrasound guided steroid, long term tendinopathies.

Dr Jonathan Rees

Sports and exercise medicine, sports injury, ankylosing spondylitis, gout, osteoarthritis, bone health, osteoporosis, psoriatic arthritis, rheumatoid arthritis, back pain.

Prof Cathy Speed

Regional musculo-skeletal pain, shoulder injuries, back pain, sports injuries, exercise prescription, chronic pain, elderly musculo-skeletal problems, arthritis, bone health, complex pain and hypomobility, shock wave therapy, nutrition for musculoskeletal health.

U

Urology

Mr Tevita Aho

Laser prostate surgery for BPH: HOLEP, Urolift, Rezum, laser stone surgery, laparoscopic renal surgery (nephrectomy and pyeloplasty), general urological procedures.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr James Armitage

General urology, haematuria, laser prostate surgery, endourology, laser stone surgery, laparoscopic renal surgery (nephrectomy and pyeloplasty), urological pathology, benign prostate diseases and urinary tract infection.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Miss Suzanne Biers

Circumcision, bladder investigations (cystoscopy), hydrocele surgery, prostate surgery and laser prostate surgery, stress urinary incontinence (SUI), testicular implants, urodynamics, vasectomy, uroLift.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mrs Alexandra Colquhoun

General urology, urologic oncology, bladder cancer diagnosis and management.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Evangelos Gkoukousis

Circumcision, hydrocele surgery, prostate surgery and laser prostate surgery (green light), surgery of scrotum, testicular and scrotal pain, urinary tract infections, urodynamics, vasectomy.

NHS trust base: North West Anglia NHS Foundation Trust

Mr Antony Riddick

General urology, benign prostatic hyperplasia and laser prostate surgery (green light), renal cancer, vasectomy, prostate cancer, haematuria.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Nikesh Thiruchelvam

General urology, female and male incontinence, bladder and ureteric reconstruction, male urethral reconstruction for stricture disease, urodynamics, urolift, vasectomy reversal.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Mr Oliver Wiseman

Kidney stone surgery (including shock wave lithotripsy, ureteroscopy and PCNL), haematuria, urinary tract infection, prostate disorders, general urology, microsurgical vasectomy reversal, male infertility.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

V

Vascular surgery

Mr Michael Gaunt

Minimally invasive varicose vein surgery, endovenous laser therapy (EVLT) and VNUS Closure™ for varicose veins, ultrasound-guided varicose vein foam sclerotherapy, micro-sclerotherapy for thread veins, VeinWave thermocoagulation for facial and skin veins, hernia repair, hyperhidrosis (injection therapy), arterial disease, monitoring of carotid artery disease, monitoring of aortic aneurysms, lymphoedema, leg swelling, lumps and bumps.

Mr Manj Gohel

Vascular, endovenous interventions for varicose veins, endovascular surgery, deep venous disease, thread veins.

NHS trust base: Cambridge University Hospitals NHS Foundation Trust

Dr Stephen Wroe	Neurology	14

Are your patients with medical insurance using it?

Approximately 10% of UK population have a private medical insurance policy – but not everyone uses it*. If everyone who was eligible got treated using their cover, just imagine the impact this would have on NHS waiting lists.

We always encourage patients to tell their GP if they have PMI. Why not ask them too?

*Healthcare Cover UK Market Report (Fifteenth Edition), Laing Buisson

Looking after you.

At Spire Cambridge Lea Hospital, we provide comprehensive diagnostic services and treatments in a comfortable and relaxed private hospital environment. You can get fast access to consultants who are experts in their field and can provide you with personalised treatments, all in a safe environment.
