Hospital switchboard: 01277 232 525

At Spire Healthcare, we provide the highest standards of care, from the time your patients first get in touch with us until after their treatment is complete. Our dedicated and highly trained people consistently achieve excellent results. For us it's more than just treating patients, it's about looking after people.

How to refer your patients

Call 01277 266 766
Fax 01277 214 213
Online www.spirehealthcare.com/gpconnect

Insured patients

- Private medical insurance companies require patients to have a letter of referral to a consultant (it does not have to be addressed to a named consultant).
- We will ask for insurance policy details at the time of booking the appointment so that we can obtain pre-authorisation for investigations and any treatment.

Self-funding patients

- Although a GP referral letter is always helpful, most consultants are happy to see self-funding patients without a written referral for an initial appointment.
- We provide a guaranteed fixed price with no hidden extras on a range of diagnostic tests, treatments and surgical procedures. Please ask patients to call **01277 266 761** for a guide price for treatment.

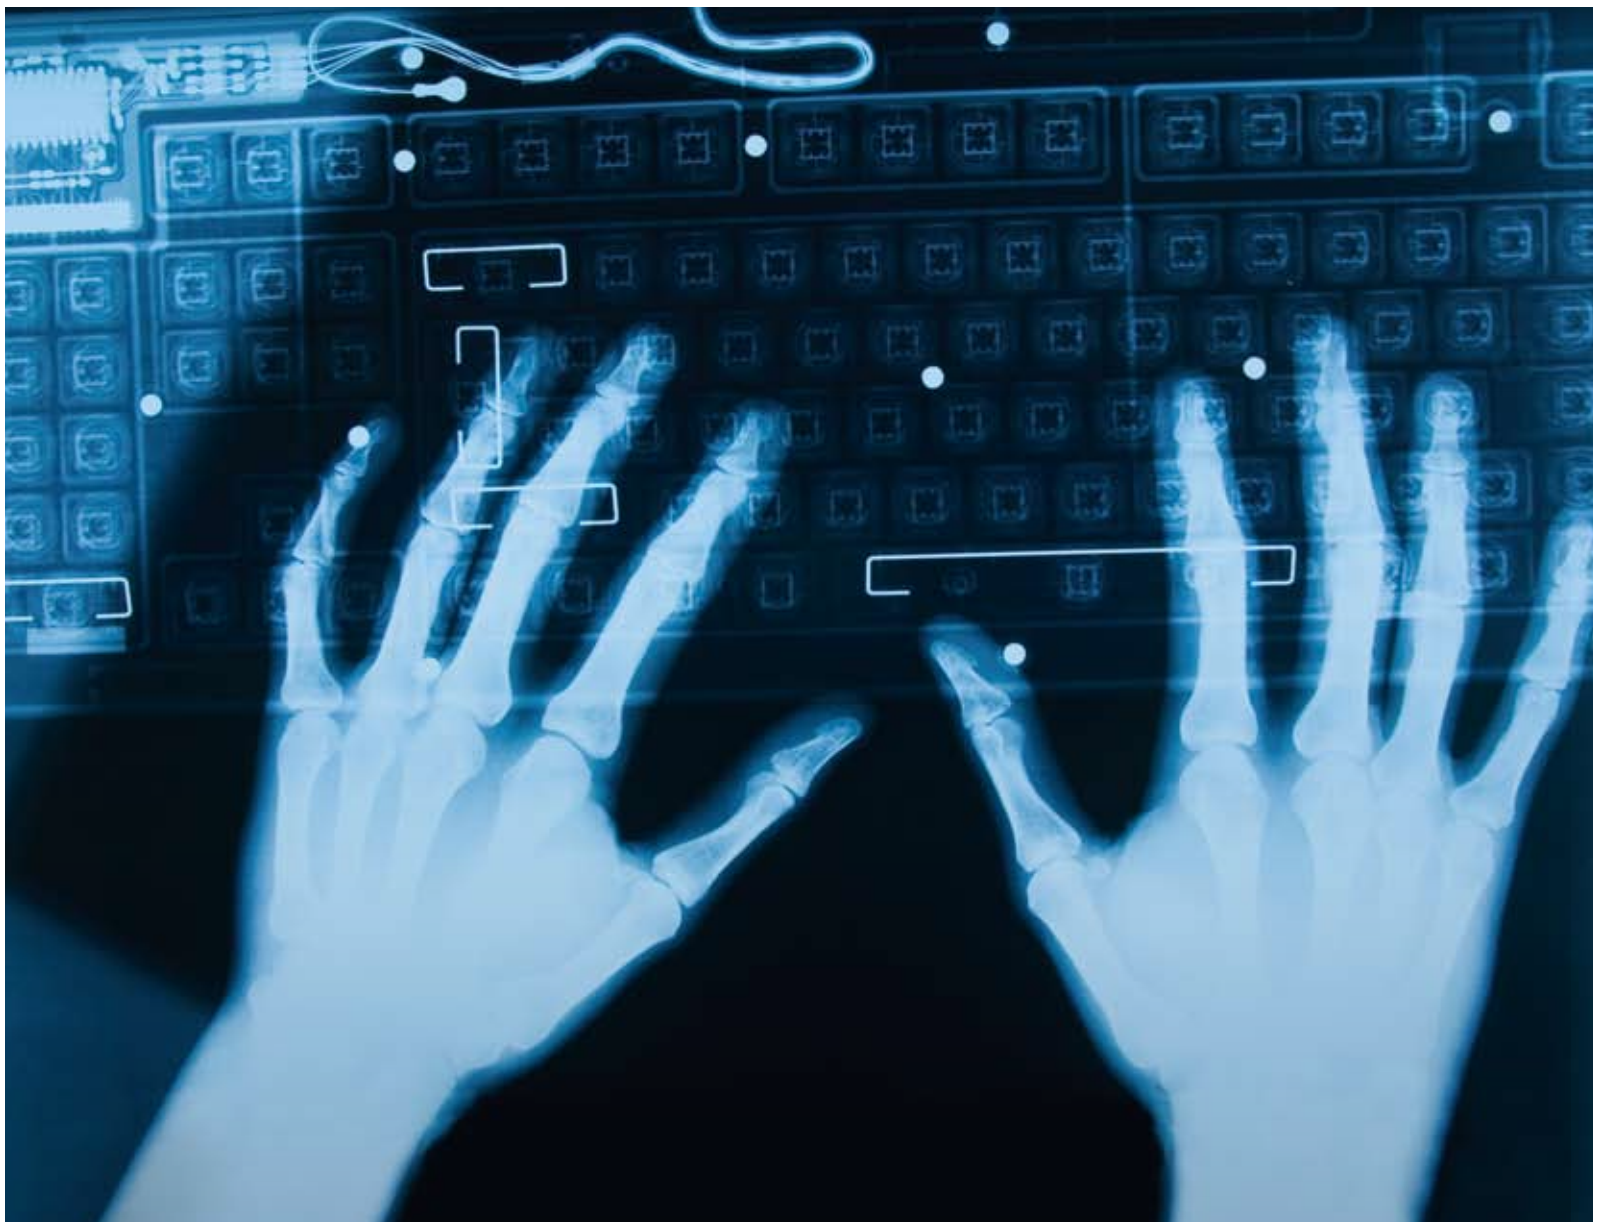

NHS patients

- Spire Healthcare is approved by the Department of Health to provide treatment to NHS patients.
- You can refer patients for the selected NHS services on offer at Spire Hartswood Hospital, using the NHS Choose and Book system. Alternatively, we can provide you with a referral form in electronic or hard copy format or you can refer by letter, fax and email to our out-patient appointments team.

Emergency admissions

- The hospital does not have an accident and emergency facility. However, we do our best to accommodate urgent admissions, depending on bed and consultant availability.
- If you have a patient who requires urgent admission, please first contact* the consultant you would like the patient to be admitted under. If appropriate, the consultant will then make arrangements with us to admit the patient.

*We can provide mobile phone numbers for consultants – please call the hospital switchboard on **01277 232 525**.

Enjoy quicker and easier referrals with GP Connect

For 2009 the Spire Healthcare website will have a new look, new content and lots of exciting new features for GPs:

- GP Connect will enable you and your practice staff to send secure, instant online referrals to Spire Healthcare hospitals.
- Referring your patients will be simpler and more efficient, and all confidential information will be protected within secure servers.
- You can read news on forthcoming GP events at Spire Healthcare hospitals, as well as hospital performance and patient satisfaction information.
- Find direct dial telephone numbers for key staff and easy access links to up-to-date consultant details.

Visit www.spirehealthcare.com
in the New Year to see the new site and register with GP Connect.
