Spire Norwich Hospital Physiotherapists

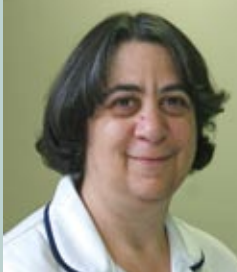

Peter Penny BSc, MCSP, HPC Sport injury and lower limb specialist

Peter specialises in sports physiotherapy, particularly the lower limb. He uses the gait scanner for prescription orthotics, offers manual therapy and acupuncture. Peter works with Emma Harris and orthopaedic consultants to provide a seamless lower limb service. His CV includes working with the All Blacks in New Zealand, Norwich City FC and Norwich's Amateur Swimming Association.

Jon Geere MSc, MCSP, HPC Spinal highly specialist

Jon specialises in chronic and acute spinal pain, disc and postural conditions. He works closely with orthopaedic and rheumatology consultants in cases requiring diagnostic imaging and consultant assessment. He received specialist training in both Australia and the UK in manipulation and mobilisation, exercise and postural re-education.

Emma Gampell MCSP, HPC Women's and men's health highly specialist

Emma treats both male and female continence disorders. Following assessment, she devises personal treatment plans which can include tailored exercises, EMG biofeedback and/or muscle stimulation. Emma works closely with gynaecology and urology consultants operating from Spire Norwich Hospital.

Steve McCoy BSc (Hons), MCSP, HPC Shoulder and upper limb specialist

Steve's special interest is shoulder disorders. His assessment leads to tailored treatment, integrating manual therapy, specific exercises and advice. Steve works closely with orthopaedic consultants during patient assessment and in the management of post-surgical cases.

Kathryn Church BSc (Hons), MCSP, MAACP, HPC Shoulder, upper limb and acupuncture specialist

Kathryn treats and assesses musculo-skeletal disorders, specialising in shoulder and upper limb problems. Treatment is tailored to the individual to include manual therapy, electrotherapy, home exercise programmes and acupuncture. Kathryn also specialises in the use of acupuncture for chronic and long-term systemic diseases.

Emma Harris BSc (Hons), MCSP, HPC Paediatric and lower limb specialist

Emma specialises in knee and sports injuries in her out-patient clinics. She works alongside the physiotherapy in-patient team and liaises with consultants to provide post-operative physiotherapy following knee surgery. Emma also treats children over the age of 8 years for musculo-skeletal problems.

Katherine Peyrebrune Grad Dip Phys, MCSP, HPC
In-patient specialist

Katherine works within the in-patient orthopaedic team with a particular interest in spinal surgery. She is focused on further improving discharge planning from the pre-admission phase. Katherine also has specialist training in neurology and neurosurgery.

Jan Hodgson Grad Dip Phys, MCSP, HPC
In-patient specialist

Jan has over 27 years' extensive experience and specialises in orthopaedics. Jan also treats out-patients with her holistic 'hands-on' approach. Additionally, she is experienced in soft tissue massage specifically for the relief of painful musculo-skeletal conditions and strives to ensure optimal patient care.

June Payne BSc (Hons), MCSP HPC
In-patient specialist

June is a specialist physiotherapist working within the orthopaedic in-patient team and also treats surgical patients undergoing bowel surgery and medical patients. June has training in thermoplastic hand splints and is a qualified NVQ Assessor.

Sarah Considine BSc (Hons), MCSP, HPC
Spinal specialist

Sarah specialises in spinal conditions and is integral to the spinal service. She assesses and treats using a wide range of manual techniques, electrotherapy and exercises. Sarah's passion is to improve people's health and quality of life.

Rebecca Heginbotham BSc (Hons), MCSP, HPC
In-patient physiotherapist

Beki is a member of the orthopaedic in-patient team with a specialist interest in clinical Pilates and therapeutic massage. Beki is also a physiotherapist for a local semi-professional football and rugby club.

Sandra Perry NVQ level 3
Physiotherapy assistant

Sandra assists with in-patient therapy sessions and manages an independent caseload in accordance with the NVQ standards.
