---

*Emergency and medical admissions*

Call **0131 334 0363** for Murrayfield or **0131 654 5600** for Shawfair Park and ask for the nurse in charge.

Please note, as a day-case facility, Spire Shawfair Park Hospital has an estimated closing time of 10pm.

If required, patients will be re-admitted to Spire Murrayfield Hospital. We will aim to call you back within 20 minutes to update you on the progress of the admission. Neither of these hospitals have accident and emergency facilities.
How to refer your patients

To see a consultant at Spire Murrayfield Hospital or Spire Shawfair Park Hospital:

**Online** SCI Gateway

**Call** GP Hotline (for GPs and practice staff only) 0131 316 2552
OP appointments 0131 316 2530
Admissions 0131 316 2510
Self-pay 0131 316 2507
Fax 0131 316 2561

**SCI Gateway**
All of our specialties are visible under Murrayfield and Shawfair drop-downs for ease of navigation. In addition, we have included sub specialties where relevant.

If you are a GP from a health board other than Lothian you can refer your patients to us in the following way:
• Click on the new message option and change the health board from your local health board to Lothian.
• Once this is done, select Murrayfield or Shawfair Park Hospital.
• Choose the specialty that you are looking for and then you are able to create a basic referral.

Ideally it is our preference to receive your referral letter in advance of offering patient appointments. Once we receive the SCI Gateway or referral letter we will contact your patient via telephone within one working day to arrange a suitable appointment.

If you have advised your patient to contact us directly for an appointment, your referral letter should be sent to us within 72 hours in the event that there are early appointments available.

Although always appreciated, GP referrals are not always necessary for patients who choose to self-fund. Spire Edinburgh Hospitals has a list of consultants who are happy to see patients without a GP referral. Following the consultation, the consultant may request additional information from your practice.

Referrals can be ‘Dear Dr’ or named. For Dear Dr referrals we will determine the most appropriate consultant with the next available appointment. To refer to a specific consultant, please refer to this directory or our website where full profiles on each consultant can be found.

[www.spireedinburgh.com](http://www.spireedinburgh.com)

If your patient has medical insurance we will ask for their insurance policy details and ask them to notify their insurers. Patients who are self-funding can also be referred using SCI Gateway.

**Insured patients**
Scheme/policy details are required at the time of booking an out-patient appointment so that we can obtain pre-authorisation.

**Self-funding patients**
We can provide a tailored fixed price* with no hidden extras on a range of diagnostic tests, treatments and surgical procedures. Guide prices are available on page 7 of this directory. For information call the Self-Pay Team on 0131 316 2507.

* Please see a copy of Spire’s patient terms and conditions for full detail. Prices vary per treatment and are dependent on each patient’s individual circumstances and needs.
Spire Edinburgh Hospitals provide a free comprehensive consultant-led GP education programme. All our events are accredited and count towards your annual Continued Professional Development (CPD).

The programme is developed in response to GP requests as it is our aim to make all talks informative and useful to you in your daily practice. Specialist consultants present on new evidence or treatments, indicators for referral and the management of patients in primary care.

**GP Educational Events**

Our GP programme is graded excellent or very good. We continue to hold these popular events throughout the year and are now holding more localised events in the Borders, East Lothian, Edinburgh, Fife and Forth Valley.

You can now register for our Edinburgh events online via the following: [www.spiregpedinburgh.eventbrite.co.uk](http://www.spiregpedinburgh.eventbrite.co.uk)

If you would like any further information about our events, please email gpscotland@spirehealthcare.com or call 0131 316 2504.

**In-practice education**

We are able to facilitate training to meet the educational needs of GPs and practice staff by providing consultant or specialist led in-practice training sessions.

Our complimentary service includes:

- a date and time arranged at your convenience
- wide range of clinical specialties and non-clinical topics
- breakfast/lunch/light supper
- CPD points and certificates awarded accordingly

To receive a list of consultant availability and topics, email gpscotland@spirehealthcare.com or phone 0131 316 2504.

Patients without medical insurance, or with exclusions, can pay for their own private treatment with the reassurance of a price that’s fixed in advance.

These are guide prices for some of the most frequently performed procedures. For all other procedures contact the Self-pay team on 0131 316 2507. After a medical assessment, we’ll confirm an individually tailored fixed price* which will cover the operation, consultants’ fees, nursing care, accommodation, physiotherapy, medication, after-care, the follow-up appointment and further treatment that may arise due to complications.* It excludes any consultations and tests required before patients come in for treatment.

Interest free finance – 0% representative APR
Paying for private treatment is simple. If patients don’t have private medical insurance they can self-fund or take advantage of interest free finance – 0% representative APR available and interest bearing loans. After the initial consultation with your chosen consultant, we’ll provide an inclusive, fixed price** for all treatment. Patients can telephone Zebra Health Finance on 01332 680 400 to find out if they qualify for interest free finance. Lines are open 8.30am-6.30pm Monday to Friday and 9am-1pm Saturday.

For more information contact the Self-pay team on 0131 316 2507 or info@spireedinburgh.com or www.spireedinburgh.com

We have three physiotherapy clinics at which patients can seek specialist treatment for musculo-skeletal injuries including acute and chronic spinal pain, neurological and vestibular disorders, women’s and men’s health issues, post-operative rehabilitation, and work related conditions. You can access Spire physiotherapy at each of the following sites:

- Spire Livingston Physiotherapy Clinic
- Spire Murrayfield Hospital
- Spire Shawfair Park Hospital

Our three sites are staffed by a highly qualified team of chartered and state-registered senior physiotherapists and clinical practitioners. We also offer patients rapid access to the following clinics and services:

- Back and Neck Pain Clinic
- Osteoarthritis Knee Service
- Shoulder Pain Clinic
- Sports Injury Clinic
- Perform
  - AlterG Antigravity Treadmill
  - Rapid Access Injury Clinic
  - Performance science and Biomechanical assessments
  - Shockwave Therapy
  - FirstBeat
  - Isokinetics

The physiotherapy out-patient department at Spire Murrayfield Hospital is situated within Beechwood House. It comprises a spacious treatment area with 11 individual cubicles, a well equipped gymnasium, including isokinetic testing and rehabilitation, an ultraviolet treatment unit and an outdoor track area.

Spire Livingston Physiotherapy Clinic, based beside junction 3 of the M8, offers musculo-skeletal physiotherapy.

Spire Shawfair Park Hospital, our newest state-of-the-art facility, is situated beside the Edinburgh city bypass and Sherrifhall. It offers a full range of physiotherapy services including the Perform Spine Care, isokinetic strength testing and advanced sporting assessments.

Our expert staff liaise closely with consultants, radiologists and other healthcare professionals to provide patients with a highly individualised treatment programme, which aims to ensure a speedy and sustained recovery. For further information on all of our services please visit our website www.spirehealthcare.com/physiotherapy-scotland

Spire Shawfair Park Hospital and Spire Livingston Physiotherapy Clinic are the only centres in Scotland to offer Perform Spine Care. Perform Spine Care is used to treat patients in a supportive, progressive environment and has been shown to have excellent and sustainable results in the treatment of spinal pain.

Pathology

The on-site pathology laboratory at Spire Murrayfield Hospital enables our consultants to return blood and screening test results quickly. Our rapid-access HIV blood test service has a four-hour turnaround time and allergy test results can usually be returned in 24 hours. Test results can be made available to GPs securely online, or can be returned via fax or post.

For more information, GPs can contact our Pathology Department on 0131 316 2521.

Perform at Shawfair Park

Perform launched in May 2014 with emphasis on elite and amateur sporting services.

Services include:

- 48 hour FirstBeat lifestyle assessment
- Anti-gravity treadmill – running at 20%-100% of your bodyweight
- Rapid Access Injury Clinic
- Shockwave therapy
- Sport specific assessment
- Sport specific pilates

All of our physiotherapy sites offer expertise in musculo-skeletal out-patient physiotherapy, including sports medicine.

Our physiotherapists aim to provide fast, effective treatment to aid recovery from sports injury.

For further information about any of our services, or if a patient wishes to request a home visit, please contact the numbers above.

- Mycology
- Tumour assays
Imaging services are available at both Spire Murrayfield and Shawfair Park Hospital and cover a wide range of both diagnostic and therapeutic investigations. Plain X-ray, fluoroscopy, ultrasound and mobile X-ray are available at both hospitals. MRI, CT and mammography are all available at Murrayfield Hospital with the Cardiac Cath Lab situated at Shawfair Park Hospital.

All images are archived along with the radiology report to the Hospital Picture Archiving Communication System (PACS). The PACS system includes voice activated reporting which assists the consultant radiologist with a fast turnaround of results.

Imaging procedures are performed by HPC registered radiographers or consultant radiologists. All staff is encouraged to participate in a continuing education programme to ensure the department remains at the forefront of imaging developments.

We aim to provide a rapid access service for many examinations across our sites and often same day appointments are available.

Referral for imaging should be requested in writing. GPs can refer patients to either Murrayfield or Shawfair Park Hospitals depending on the patient needs either through Sci gateway or by calling the GP hotline.
