At Spire Healthcare we are committed to delivering excellent individual care and customer service to all our patients, from the time they first get in touch with us until after their treatment is complete. Our dedicated and highly trained people aim to consistently achieve excellent results. For us it's more than just treating patients, it's about looking after people.

It's our people that really set us apart

We know that you insist on the highest standards of care for the patients who put their trust in you, and you can be sure that our team will continue that care. For us it's more than just treating patients, it's about giving patients, their family and friends the most positive experience we possibly can in our hospital.

All the facilities you'd expect and more

Private rooms

Our 71 private rooms are set in pleasant surroundings and all have satellite television, bedside phone, free wifi access and personal nurse call system.

Our consultants

Every consultant working at Spire Manchester Hospital is on the specialist register of the General Medical Council and has met our exacting practising privileges criteria.

We know continuity of care is important. Once a patient has chosen his or her consultant, we will make sure that he or she is looked after by that same consultant, from the first appointment and throughout all treatment and follow-up care.

Our nursing staff

All our nurses are highly qualified and dedicated to caring for patients in a professional manner. For ultimate reassurance, we have a fully trained clinical team equipped to deal with medical emergencies 24 hours a day.

Spire Healthcare was the first private hospital provider to publish clinical performance and patient reported outcomes. These are on our website and they include information on our rates of MRSA blood infection and Clostridium Difficile infection.

We publish a wide range of performance information for each of our hospitals. This is just one part of our programme to improve our already high standards of clinical quality and safety.

All Spire Healthcare hospitals are registered with the Care Quality Commission. As you know, we are required to meet the rigorous standards set for independent hospitals by the Care Quality Commission. The standards include the quality and safety of treatment, cleanliness of the hospitals, staff recruitment and training, and information available to patients.

Our most recent Care Quality Commission inspection reports can be found at www.cqc.org.uk.

We publish all our performance measures. These include:

- MRSA blood infections
- Clostridium Difficile infections
- Wound infections after hip and knee replacement surgery
- Unplanned returns to theatre
- Unplanned readmission to hospital
- Health improvement for hip replacement, knee replacement and bariatric surgery

Bringing our services closer to patients

The Spire Manchester Clinic Hale is an out-patient and diagnostic facility, located in Hale village, which offers a convenient alternative location to Spire Manchester Hospital.

The fully equipped clinic, on Ashley Road, Hale, offers appointments with highly trained consultant specialists, a wide range of diagnostic tests and treatment in a clinical environment.

If more complex tests or surgery are required, patients will be given priority access to Spire Manchester Hospital.

Contact details

For general enquiries or to make an appointment: **0161 927 3878**

Fax: **0161 927 3870**

We're open to everyone

For patients with private medical insurance

All patients will require a referral letter from their GP and will need to check in advance with their insurance company that they are covered for the planned treatment at each stage, from out-patient consultation to surgery.

Claims processes differ from insurer to insurer.

The insurance company should guide your patients through the process. If cover is provided by an employee scheme they will need to follow the claims process specific to their scheme.

To make things easier for insured patients, most major UK insurers will normally settle bills from Spire Healthcare and the consultants directly.

Any insurance excess or shortfall will need to be covered by patients.

It's even easier to make patient referrals

Out-patient appointments

Tel: **0161 447 6600** / Fax: **0161 447 6906**

GP connect: www.spirehealthcare.com/gpconnect

Please see the GP Connect section on our website for further information on our GP connect system.

For self-funding patients

Spire Healthcare hospitals are open to everyone, whether insured or not.

If patients don't have private medical insurance, or if they have exclusions on their policies, one-off private treatment is available.

A fixed price* will be provided in advance for a wide range of diagnostic procedures, medical treatments and surgical care. This gives patients the reassurance of knowing that there will be no hidden extras.

Finance for treatment

We work with the specialist company Zebra Health Finance to arrange affordable finance for all or part of the cost of treatment. Loans are available from £500 up to the full treatment cost, subject to status, and decisions are usually given within two hours. To make things easy for patients, loan funding is paid directly to Spire Healthcare.

For more information about Zebra Health Finance patients should call **0845 618 5375**

*Subject to satisfactory clinical assessment

Spire Healthcare has been approved by the Department of Health to provide treatment to NHS patients.

Our aim is to make the referral process as quick and easy as possible, so:

- You can use the NHS choose and book system
- We can provide you with an easy to use referral form available in electronic or hard copy formats
- You can refer by letter, fax or NHS.net

NHS referrals

www.spirehealthcare.com/gpconnect

GP connect is an area of the Spire Healthcare website for the exclusive use of GPs and their practice staff.

Registering for GP Connect saves you time and keeps you informed. You can use GP Connect's online form to make secure instant referrals to Spire Manchester Hospital. You will also have quick access to useful information from us.

This is a resource to help you and your practice with:

- GP education events – programmes, timings and booking information
- GP liaison contact details
- Links to your local consultants and full profiles for each one
- Hospital performance information – including patient satisfaction results and MRSA rates
- Information on referring patients to Spire Manchester Hospital under NHS Choose and Book
- Direct contact numbers to key members of our team
- Latest consultant directories and GP Update publications

It's easy to register

Simply fill in the registration form online at www.spirehealthcare.com/gpconnect and you will receive an email with a link to activate your account.

Free lectures and seminars for continuing professional development

Our brand new conference and education centre

The top floor of the new Spire Manchester Hospital in Didsbury is a medical conference and education centre. With several different meeting spaces and a suite capable of accommodating over 100 guests, coupled with a large breakout area, balcony and floor-to-ceiling windows, this will be the perfect environment for learning. With the capability to video-link into the operating theatre, our medical education programme will be significantly enhanced by these new technologies.

Make the most of our free educational seminars

We host a series of free educational seminars and workshops as part of our programme. These cover a wide range of topics and specialties, with our consultants providing presentations and workshops to keep you up-to-date with the latest research techniques and treatments. You will also have the opportunity to meet and talk to our specialist consultants and network with other GPs in the region.

Take advantage of our free in-practice lectures

If you can't make it to our evening lectures some of our consultants will be pleased to visit your practice, at a time convenient to you, to give a lecture on a subject of your choice.

Contact us today

We will be pleased to discuss our educational programme, or to make arrangements for our GP liaison to visit you.

Please email info@spiremanchester.com

Keep up to date with our latest events at www.spiremanchester.com/gp-events
