*Emergency and medical admissions

Call **0131 334 0363** for Murrayfield or **0131 654 5600** for Shawfair Park and ask for the nurse in charge. Please note, as a day-case facility, Spire Shawfair Park Hospital has an estimated closing time of 10pm. If required, patients will be re-admitted to Spire Murrayfield Hospital. We will aim to call you back within 20 minutes to update you on the progress of the admission. Neither of these hospitals have accident and emergency facilities.

How to refer your patients

To see a consultant at Spire Murrayfield Hospital or Spire Shawfair Park Hospital:

Online SCI Gateway

Call	GP Hotline (for GPs and practice staff only)	0131 316 2552
	OP appointments	0131 316 2530
	Admissions	0131 316 2510
	Self-pay	0131 316 2507
Fax		0131 316 2561

SCI Gateway

All of our specialties are visible under Murrayfield and Shawfair drop-downs for ease of navigation. In addition, we have included sub specialties where relevant.

If you are a GP from a health board other than Lothian you can refer your patients to us in the following way:

- Click on the new message option and change the health board from your local health board to Lothian.
- From the drop down menu, select Murrayfield or Shawfair Park Hospital.
- Choose the specialty that you are looking for and then you are able to create a basic referral.

Ideally it is our preference to receive your referral letter in advance of offering patient appointments. Once we receive the SCI Gateway or referral letter we will contact your patient via telephone within one working day to arrange a suitable appointment.

If you have advised your patient to contact us directly for an appointment, your referral letter should be sent to us within 72 hours in the event that there are early appointments available.

Although always appreciated, GP referrals are not always necessary for patients who choose to self-fund. Following the consultation, the consultant may request additional information from your practice.

Referrals can be 'Dear Dr' or named. For Dear Dr referrals we will determine the most appropriate consultant with the next available appointment. To refer to a specific consultant, please refer to this directory or our website where full profiles on each consultant can be found.

www.spireedinburgh.com

If your patient has medical insurance we will ask for their insurance policy details and ask them to notify their insurers. Patients who are self-funding can also be referred using SCI Gateway.

Insured patients

Scheme/policy details are required at the time of booking an out-patient appointment so that we can obtain pre-authorisation.

Self-funding patients

We can provide a tailored fixed price* with no hidden extras on a range of diagnostic tests, treatments and surgical procedures. For information call the Self-Pay Team on **0131 316 2507**.

* Prices vary per treatment and are dependent on each patient's individual circumstances and needs.

GP educational events

Spire Edinburgh Hospitals provide a free comprehensive consultant-led GP education programme. All our events are accredited and count towards your annual Continued Professional Development (CPD).

The programme is developed in response to GP requests as it is our aim to make all talks informative and useful to you in your daily practice. Specialist consultants present on new evidence or treatments, indicators for referral and the management of patients in primary care.

GP Educational Events

You can now register for our Edinburgh events online via the following:

www.spiregpedinburgh.eventbrite.co.uk

If you would like any further information about our events, please email gpscotland@spirehealthcare.com or call 0131 316 2504.

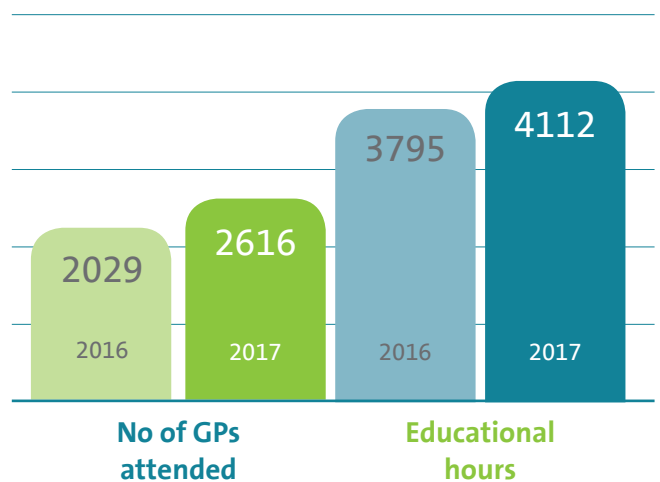

In-practice education

We are able to facilitate training to meet the educational needs of GPs and practice staff by providing consultant or specialist led in-practice training sessions.

Our complimentary service includes:

- a date and time arranged at your convenience
- wide range of clinical specialities and non-clinical topics
- breakfast/lunch/light supper
- CPD points and certificates awarded accordingly

To receive a list of consultant availability and topics, email gpscotland@spirehealthcare.com or phone 0131 316 2504.

Self Pay for one-off private treatment

Patients without medical insurance, or with exclusions, can pay for their own private treatment with the reassurance of a price that's fixed in advance.

Guide prices for a number of our procedures are available on our website www.spireedinburgh.com. Alternatively, contact the Self-pay team on **0131 316 2507**. After a medical assessment, we'll confirm an individually tailored fixed price* which will cover the operation, consultants' fees, nursing care, accommodation, physiotherapy, medication, after-care, the follow-up appointment and further treatment that may arise due to complications.* It excludes any consultations and tests required before patients come in for treatment.

Interest free finance – 0% representative APR

Paying for private treatment is simple. If patients don't have private medical insurance they can self-fund or take advantage of interest free finance – **0% representative APR available** and interest bearing loans. After the initial consultation with your chosen consultant, we'll provide an inclusive, fixed price** for all treatment. Patients can telephone Zebra Health Finance on **01332 680 400** to find out if they qualify for interest free finance. Lines are open 8.30am-6.30pm Monday to Friday and 9am-1pm Saturday.

For more information contact the Self-pay team on **0131 316 2507** or info@spireedinburgh.com or www.spireedinburgh.com

* Spire's patient terms and conditions set out the basis upon which patients are provided with treatment at Spire Edinburgh Hospital and should be referred to for full detail of what is included and excluded from fixed price treatment. You can find a copy of our terms and conditions at www.spirehealthcare.com/contact-us/terms-and-conditions. If you would like us to send a copy of the terms and conditions to you please call us on 0131 316 2507 or email info@spireedinburgh.com.

Prices correct at December 2017. Flexible payment plans available. Prices subject to change without notice.

** Terms and conditions apply, please ask for details.

A

Allergy

Dr J Darroch

Clinical immunology

Dr K J Thong

Assisted conception, male and female infertility, reproductive endocrinology, menopause, contraception, miscarriage, egg donation treatment, endometriosis, polycystic ovary syndrome, menstrual problems, hysteroscopy and general gynaecology

Consultation fee*: Initial £195-£220; Follow-up £120. Please note that there is a charge for your consultation and investigations. Details are obtainable on request.

H

Haematology

Dr M Drummond

Anaemia and other blood count abnormalities, haematological diagnosis, haemochromatosis, myeloproliferative disease, anticoagulation therapy

Consultation fee*: Initial £200 (30-40 mins); Follow-up £100 (15-20 mins)

Hand surgery

Mr P Addison

Skin cancers and benign lesions, scar management, breast reconstruction and reduction, facial paralysis surgery, hand surgery including Dupuytren's disease, carpal tunnel and ganglions, hyperhidrosis, hidradenitis, reconstructive surgery. Paediatric plastic surgery

Consultation fee*: Initial £150

Mr H Bahia

Botox, fillers, rhinoplasty, eyelid surgery, breast surgery (augmentation, reduction, reconstruction), body contouring (abdominoplasty, liposuction), correction of prominent ears/split earlobes, scar revision, mole removal including skin cancer

Consultation fee*: Initial £150

Mrs D Davidson

All aspects of adult hand and wrist surgery. Special interests include Dupuytren's disease, carpal tunnel syndrome, arthritis, tendon problems, reconstruction

Consultation fee*: Initial £150; Follow-up £100

Mr S A Hamilton

Cosmetic surgery of face, breast and body. Special interest in body contouring post weight loss. Botox, chemical peels, and fillers. Skin cancer including reconstruction. Soft tissue hand surgery

Consultation fee*: Initial £150

Ms J McEachan

Hand and upper limb trauma, carpal tunnel syndrome, Dupuytren's disease, trigger finger, hand and wrist arthritis, general upper limb surgery

Consultation fee*: Initial £150; Follow-up £50-£100

Mr C W Oliver

Dupuytren's contracture, hand sports related injuries, scaphoid fractures, carpal tunnel syndrome, wrist fracture, carpal instability, trigger finger, ganglions, DeQuervain's synovitis, chronic upper limb regional pain syndrome (CRPS)

Consultation fee*: Initial £120-£200; Follow-up £80-£150

Miss P Rust

All orthopaedic and plastic surgery for hand and wrist conditions. Special interests include Carpal tunnel, Trigger finger, hand and wrist Arthritis, Dupuytren's, Wrist pain including TFCC tear and Arthroscopic surgery

Consultation fee*: Initial £150-£180; Follow-up £100-£120

I

Immunology

Dr J Darroch

Clinical immunology

Consultation fee*: Initial £180; Follow-up £75

L

Laser and refractive eye surgery

Mr S Mantry

Cornea, laser refractive, cataract including multifocal and Toric IOL, general Ophthalmology including glaucoma patients

Consultation fee*: Initial £160; Follow-up £100

Mr J Ross

Cataract surgery (routine), complex cataract surgery in difficult situations, laser eye surgery, refractive cataract surgery, vision correction, multifocal and trifocal lens implants, eyelid surgery, watery eyes, dry eyes, glaucoma

Consultation fee*: Initial £160 (£100 for laser eye appointment); Follow-up £110

N

Neurology

Dr R J Davenport

Headache, movement disorders (including Parkinson's disease and ataxia), epilepsy, myasthenia gravis/motor neuron disease

Consultation fee*: Initial £295; Follow-up £200

Dr C Neumann

Epilepsy, headache, multiple sclerosis

Consultation fee*: Initial £290; Follow-up £180

Neurosurgery

Mr A Demetriades

Facial pain/Trigeminal Neuralgia. Spinal pain assessment (cervical/lumbar/thoracic). All 'simple' and complex spinal conditions (degenerative; trauma; tumour; infection; deformity) of all ages. Sciatica/claudeication/backpain/leg pain. Disc prolapse/spinal stenosis/spondylolisthesis. Arm pain/neck pain. Cervical discectomy/cervical disc replacement. Lumbar microdiscectomy. Disc arthroplasty. Spinal fusion. Minimally invasive spine surgery. Revision spine surgery. General neurosurgery: Brain tumours, CSF disorders, peripheral nerve, chiari, trauma

Consultation fee*: Initial £320; Follow-up £160

Mr I Fouyas

Complex intracranial surgery (cerebrovascular and skull base), surgical treatment of trigeminal neuralgia, cervical pathologies (disc disease/degeneration), peripheral nerve entrapment, lumbar pathologies (disc disease/spinal stenosis) including spinal tumours

Consultation fee*: Initial £320; Follow-up £160

Mr J Kandasamy

Degenerative spinal conditions, lumbar spine related pain, cervical spine related pain, vertebral disc replacements, minimally invasive techniques, endoscopic neurosurgery, hydrocephalus, spasticity, brain and spine tumours, facial pain, carpal tunnel syndrome

Consultation fee*: Initial £320 (40mins); Follow-up £160 (20mins)

Mr I Liaquat

Neuro-oncology/low grade gliomas, adult spinal disorders, back and neck pain, cervical and lumbar radiculopathy/stenosis, degenerative spinal disease, headaches/facial pain, general neurosurgery and hydrocephalus

Consultation fee*: Initial £320 (40mins); Follow-up £160 (20mins)

Miss L Myles

Spinal surgery, back and neck pain, sciatica, congenital spinal abnormalities, hydrocephalus, brain tumours, carpal tunnel syndrome

Consultation fee*: Initial £320 (40mins); Follow-up £165 (20mins)

Mr D Sokol

Adult spinal disorders, back/neck pain, sciatica, degenerative spine surgery, spine fusion, disc replacement, leg and back pain, spinal cord stimulation, peripheral nerve surgery, endoscopic neurosurgery, brain and spine tumours

Consultation fee*: Initial £320; Follow-up £160

Mr P Statham

Pituitary, skull base tumours and complex spinal surgery

Consultation fee*: Initial £320 Follow-up £160

O

Oncology

Clinical oncology

Dr D McLaren

Prostate, bladder and kidney cancer. Radiotherapy, chemotherapy, brachytherapy, targeted drug therapy

Consultation fee*: Initial £250; Follow-up £150

Dr I Nixon

Head and neck cancers, base of skull tumours and soft tissue and bone sarcomas

Consultation fee*: Initial £310 ;Follow-up £150

Dr F Yuille

Breast cancer

Consultation fee*: Initial £230; Follow-up £105

Dr M Zahra

Gynaecological, colorectal and pancreatic malignancies

Consultation fee*: Initial £320; Follow-up £190

Medical oncology

Dr O Oikonomidou

Breast cancer, chemotherapy, systemic treatment of breast cancer

Consultation fee*: Initial £250; Follow-up £180

Ophthalmology

Dr P Agarwal

Small incision cataract surgery (phacoemulsification) including complex cases. Glaucoma diagnosis and management including glaucoma lasers selective laser trabeculoplasty and peripheral iridotomy, glaucoma surgery including trabeculectomy and tube surgery and MIGS (minimally invasive glaucoma surgery such as XEN, intent, Cypass etc). Medico-legal reports and advice

Consultation fee*: Initial £200 Follow-up £100-£120

Dr A Agrawal

Phacoemulsification cataract surgery and intraocular lens implantation. Cornea and external eye disease

Consultation fee*: Initial £200; Follow-up £120

Dr H G B Bennett

Cataracts, including complex cataract surgery, surgical and medical retinal disease, general ophthalmology patients including lid cysts (NOT Paediatrics, plastics, orbital disease, squints, double vision)

Consultation fee*: Initial £160-£180; Follow-up £80-£100

Prof B Dhillon

Cataract and intraocular lens implantation

Consultation fee*: Initial £190; Follow-up £130

Dr J Kerr

Oculoplastic, lacrimal, cataract surgery

Consultation fee*: Initial £150; Follow-up £80

Dr P Koay

Phacoemulsification cataract surgery and intraocular lens implantation. Cornea and external eye disease. Dry eye disease and ocular surface disorders. Pterygium and conjunctival autograft

Consultation fee*: Initial £200; Follow-up £110

Mr S Mantry

Cornea, laser refractive, cataract including multifocal and Toric IOL, general Ophthalmology including glaucoma patients

Consultation fee*: Initial £160; Follow-up £100

Dr A O Mulvihill

Paediatric ophthalmology, adult strabismus (squint) and double vision problems including surgical and non-surgical treatments. Medical report. (Not cataract surgery)

Consultation fee*: Initial £160; Follow-up £80

Mr J Ross

Cataract surgery (routine), complex cataract surgery in difficult situations, laser eye surgery, refractive cataract surgery, vision correction, multifocal and trifocal lens implants, eyelid surgery, watery eyes, dry eyes, glaucoma

Consultation fee*: Initial £160 (£100 for laser eye appointment); Follow-up £110

Dr C Schmoll

Phacoemulsification cataract surgery, adult general ophthalmology, paediatric ophthalmology and paediatric squint surgery

Consultation fee*: Initial £160; Follow-Up £90

Dr J Singh

Cataract and lens implantation including high risk cases such as high myopia, macular disease, retinal detachments, vitrectomy surgery, diabetic eye disease including lasers

Consultation fee*: Initial £150-£220; Follow-up £85-£100

Mr A Tatham

Cataract surgery, advanced lens technology, glaucoma surgery, minimally invasive glaucoma surgery, trabeculectomy, glaucoma laser surgery, Xen, iStent

Consultation fee*: Initial £200; Follow-up £150

Dr M R Wright

Small incision cataract surgery

Consultation fee*: Initial £150 Follow-up £100

Oral and maxillofacial surgery

Mr E B Larkin

Dentoalveolar surgery, salivary gland surgery, facial trauma, H/N oncology

Consultation fee*: Initial £145; Follow-up £50

Mr M D Paley

Dentoalveolar surgery, salivary gland surgery, facial trauma, oral pathology/medicine, head and neck lumps/cancers

Consultation fee*: Initial £160; Follow-up £110

Orthopaedics

Mr C I Adams

Spinal surgeon. Assessment and surgery of the spine: including lumbar, cervical, coccyx and scoliosis

Consultation fee*: Initial £280; Follow-up £140

Mr I Ahmed

Primary hip and knee replacement surgery, revision surgery, sports injuries of the knee, knee arthroscopy and medico-legal

Consultation fee*: Initial £150-£200 Follow-up £100

Mr A Amin

Knee and ankle arthroscopy, knee osteotomy/joint preservation surgery, knee replacement, all aspects of foot and ankle surgery

Consultation fee*: Initial £180; Follow-up £110

Mr I D M Brown

Upper limb orthopaedic problems. This includes shoulder pain including rotator cuff pathology, dislocations, scapula muscle dysfunction, AC joint instability and pain, nerve problems. Elbow and hand pathology and sports injuries

Consultation fee*: Initial £180; Follow-up £110

Mr R Burnett

Primary knee and hip replacement, revision knee replacement, knee arthroscopy

Consultation fee*: Initial £180; Follow-up £110

Mr R Clayton

All surgery of the foot and ankle. Bunion correction, arthritis of the foot and ankle, Morton's neuroma, sports injuries and ankle instability, heel pain

Consultation fee*: Initial £180; Follow-up £120

Mr J Cowie

Arthroscopy, foot surgery, hip surgery, hip revision surgery, knee surgery, soft tissue injuries, sports injury, osteoarthritis and medico-legal

Consultation fee*: Initial £180; Follow up £110

Mrs D Davidson

All aspects of adult hand and wrist surgery. Special interests include Dupuytren's disease, carpal tunnel syndrome, arthritis, tendon problems, reconstruction

Consultation fee*: Initial £150; Follow-up £100

Mr M Gaston

Paediatric orthopaedics (upper and lower limb). Foot and ankle surgery. Arthroscopic knee surgery

Consultation fee*: Initial £160-£200; Follow-up £100-£140

Mr P Gaston

Hip joint surgery, including hip replacement, revision hip replacement, hip arthroscopy, open surgery around the hip including osteotomy, knee joint surgery, including knee replacement and knee arthroscopy

Consultation fee*: Initial £180; Follow-up £110

Mr J F Keating

Knee surgery in including arthroscopic knee surgery, knee ligament reconstruction, mosaicplasty and high tibial osteotomy, total knee replacement and lower limb sports injuries in general

Consultation fee*: Initial £180; Follow-up £110

Mr G M Lawson

Hip and knee replacement surgery. Arthroscopic knee surgery, knee ligament reconstruction and sports injuries

Consultation fee*: Initial £180; Follow-up £110

Mr G Macpherson

Hip and knee surgery. Hip replacement, revision hip replacement. Knee replacement, revision knee replacement. Knee arthroscopy. High tibial osteotomy

Consultation fee*: Initial £180; Follow-up £110

Miss J M McBirnie

Shoulder arthroscopy and reconstruction, total shoulder replacement/revision surgery and reverse geometry total shoulder replacement. Knee arthroscopy

Consultation fee*: Initial £180; Follow-up £110

Ms J McEachan

Hand and upper limb trauma, carpal tunnel syndrome, dupuytren's disease, trigger finger, hand and wrist arthritis, general upper limb surgery

Consultation fee*: Initial £150; Follow-up £50-£100

Mr J McKinley

All foot and ankle pathology including arthritis, sports injuries, minimally invasive surgery of the forefoot, arthroscopy, bunion correction, achilles pain and heel pain

Consultation fee*: Initial £180; Follow-up £110

Mr M Moran

Primary and revision hip and knee replacement, partial knee replacement, arthroscopy, sports and soft tissue injuries, osteoarthritis, trauma surgery

Consultation fee*: Initial £140; Follow-up £90

Mr R W Nutton

Knee and shoulder disorders. Sports injuries

Consultation fee*: Initial £200; Follow-up £100-£150

Mr C W Oliver

Dupuytren's contracture, hand sports related injuries, scaphoid fractures, carpal tunnel syndrome, wrist fracture, carpal instability, trigger finger, ganglions, DeQuervain's synovitis, chronic upper limb regional pain syndrome (CRPS)

Consultation fee*: Initial £120-£200; Follow-up £80-£150

Mr J T Patton

Hip and knee replacement, revision, knee surgery and arthroscopy, infection, musculoskeletal tumour surgery

Consultation fee*: Initial £180; Follow-up £110

Mr J Reid

Shoulder and elbow surgery including arthroscopy (keyhole), rotator cuff repair, frozen shoulder, stabilization and joint replacements. Fracture management, post-traumatic reconstruction, and management of fracture complications

Consultation fee*: Initial £180; Follow-up £110

Mr C M Robinson

Shoulder, elbow and hand problems, including trauma, arthritis and soft-tissue disorders

Consultation fee*: Initial £180; Follow-up £110

Miss P Rust

All orthopaedic and plastic surgery for hand and wrist conditions. Special interests include carpal tunnel, trigger finger, hand and wrist arthritis, Dupuytren's, wrist pain including TFCC tear and arthroscopic surgery

Consultation fee*: Initial £150-£180; Follow-up £100-£120

Mr H Shalaby

Foot and ankle surgery including ankle replacement, minimally invasive surgery, bunion surgery, deformity correction and sports related injuries

Consultation fee*: Initial £180; Follow-up £110

Mr S Sharma

Upper limb surgery (shoulder, elbow, wrist and hand), upper limb sports and soft tissue injuries and shoulder arthroscopy

Consultation fee*: Initial £140-£150; Follow-up £100-£110

Mr P Simpson

Hip and knee replacement surgery including revision. Sports and soft tissue injuries. Knee arthroscopy

Consultation fee*: Initial £160 Follow-up £110

Mr A Stirrat

Upper limb and hand surgery, arthroscopic surgery of shoulder and elbow, upper limb trauma, peripheral nerve injury

Consultation fee*: Initial £150; Follow-up £100

Mr F A Wade

Knee surgery, hip and knee arthroplasty

Consultation fee*: Initial £180; Follow-up £110

Orthoptics

Miss V Laidlaw

Paediatric orthoptics-strabismus, amblyopia. Adult orthoptics-strabismus, ocular motility defects, double vision

Consultation fee*: Initial £70-£77; Follow-up £50-£77

P

Paediatrics

For Paediatrics see Children and Young People's Service on page 22

Pain management

Dr C Grice

Chronic pain, back pain, post surgical pain, pain in the elderly

Consultation fee*: Initial £180; Follow-up £100

Dr P A Singh

Chronic musculoskeletal pain, headache, back and leg pain, neck and arm pain, crps, chronic post surgical pain

Consultation fee*: Initial £200-£250; Follow-up £150-£200

Dr A V G Stewart

Pain medicine

Consultation fee*: Initial £200; Follow-up £150

Dr J A Wilson

Pain medicine

Consultation fee*: Initial £200; Follow-up £100

Permanent Cosmetics/Micro Pigmentation

Ms F Ramsay

Cosmetic reconstruction of eyebrows, paramedical procedures including reconstruction of the areolar complex/nipple following breast surgery, pigmentation/reduction of scar tissue and pigmentation of tissue affected by vitiligo or alopecia

Consultation fee*: Initial £50; Follow-up £50

Plastic surgery

For Plastic surgery appointments call 0131 316 2507

Mr P Addison

Skin cancers and benign lesions, scar management, breast reconstruction and reduction, facial paralysis surgery, hand surgery including Dupuytren's disease, carpal tunnel and ganglions, hyperhidrosis, hidradenitis, reconstructive surgery. Paediatric plastic surgery

Consultation fee*: Initial £150

Mr W Anderson

Plastic and aesthetic surgery of the face and body, paediatric plastic surgery, laser rejuvenation

Consultation fee*: Initial £150; Follow-up £120

Mr H Bahia

Botox, fillers, rhinoplasty, eyelid surgery, breast surgery (augmentation, reduction, reconstruction), body contouring (abdominoplasty, liposuction), correction of prominent ears/split earlobes, scar revision, mole removal including skin cancer

Consultation fee*: Initial £150

Mr M Butterworth

Aesthetic breast surgery, reconstructive breast surgery, skin malignancy, facial aesthetic surgery, body contouring surgery including abdominoplasty and liposuction and rhinoplasty surgery

Consultation fee*: Initial £150

Mrs D Davidson

All aspects of adult hand and wrist surgery. Special interests include Dupuytren's disease, carpal tunnel syndrome, arthritis, tendon problems, reconstruction

Consultation fee*: Initial £150; Follow-up £100

Mr S A Hamilton

Cosmetic surgery of face, breast and body. Special interest in body contouring post weight loss. Botox, chemical peels, and fillers. Skin cancer including reconstruction. Soft tissue hand surgery

Consultation fee*: Initial £150

Mr A Quaba

Cosmetic surgery of the face, breasts and trunk, liposuction, benign and malignant lesions (One-stop Clinic)

Consultation fee*: Initial £150

Mr O Quaba

Non-surgical treatments such as Botulinum toxin and filler, cosmetic breast surgery (augmentation, reduction, gynaecomastia), rhinoplasty, eyelid surgery, facelift, body contouring (abdominoplasty, liposuction), labiaplasty, all aspects of skin cancer removal/reconstruction, benign skin lesions

Consultation fee*: Initial £150

Mr C Raine

All aspects of cosmetic surgery (facial rejuvenation, eye rejuvenation, nose reshaping, cosmetic breast surgery, tummy tuck, liposuction) and non surgical cosmetic treatments (Botox, dermal fillers). Skin cancer surgery

Consultation fee*: Initial £150

Mr K Stewart

Particular interest in aesthetic surgery for face, ears, body contouring, breast

Consultation fee*: Initial £150

Psychiatry

Dr J Ferguson

General adult psychiatry. Mood disorders, Bipolar spectrum disorders. Recurrent depression. Autistic spectrum disorders

Consultation fee*: Initial £250; Follow-up £125

Dr T Rogers

General adult psychiatry, especially depression, anxiety, OCD, psychiatric aspects of medical illnesses, complex medical-legal assessment

Consultation fee*: Initial £180- £250; Follow-up £125-£150

Psychology

Dr N Frazer

Adult mental health

Consultation fee*: Initial £110; Follow-up £110

Mrs C Sutherland

Plastic surgery, weight loss surgery, adult mental health

Consultation fee*: Initial £150; Follow-up £100

Dr A Tulloh

Individual psychological therapy for adults with common mental health problems including anxiety disorders, depression, childhood trauma, relationship problems, obesity and complicated bereavement. Therapies offered include CBT, CAT, EMDR and IPT

Consultation fee*: Initial £120; Follow-up £110

Dr K Watt

Individual psychological therapy for adults with a range of mental health problems including anxiety disorders, depression, low self-esteem, PTSD, interpersonal problems and childhood trauma. Therapies offered include CBT, CAT and EMDR

Consultation fee*: Initial £130; Follow-up £110

R

Radiology

For Radiology appointments call 0131 316 2539

Dr I Beggs

All aspects of musculo-skeletal imaging including ultrasound, MRI and interventional procedures

Dr J P Brush

Uroradiology, GI radiology, prostate cancer, renal cancer, colon cancer, oncology imaging

Dr D A Collie

Brain, spine, head and neck and musculo-skeletal MRI

Dr J Downer

Neuroradiology

Dr J Foley

Musculoskeletal radiology

Dr L Hill

Breast radiology

Dr M Jones

General ultrasound, plain film reporting, CT and MRI scanning (including cardiac and chest imaging)

Dr S Kealey

General neuroradiology, head and neck radiology

Dr J Keanie

Uroradiology – all aspects including stone disease and cancer, interventional radiology, general surgical imaging, oncological imaging

Dr P M Keston

Neurovascular interventional procedures, spinal intervention including vertebroplasty

Dr G Lip

Breast radiology

Dr P MacLean

Oncology, abdominal imaging and intervention

Dr S McKie

Musculo-skeletal imaging and sports radiology

Prof J T Murchison

Chest and CT scanning

Dr D K B Patel

Ultrasound, CT, MRI, radionuclide imaging including PET/CT

Dr F Perks

Musculoskeletal imaging including image guided therapeutic procedures

Dr J Royds

Breast imaging

Dr A Sharma

Breast imaging, including ultrasound, mammograms and MRI breast, along with ultrasound and stereotactic biopsies, and wire localisations

Dr M E Smith

Breast radiology

Dr D M Summers

Brain and spinal imaging, ENT imaging

Dr J Walker

Transabdominal and transvaginal pelvic ultrasound; dating pregnancy ultrasound; hysterosalpinography

Dr B M Ward

Breast radiology, guided biopsy, pre and post surgical imaging, head and neck, thyroid

Dr G Weir

Interventional Radiology MRA CTA Duplex Selective Internal Radiation Therapy (SIRT) Radioembolisation TACE

Respiratory medicine

Prof A T Hill

Airways disease and respiratory infection in particular COPD, bronchiectasis, pneumonia and tuberculosis

Consultation fee*: Initial £180; Follow-up £90

Dr K Skwarski

General respiratory medicine including chronic shortness of breath and hyperventilation assessment, COPD including novel treatment for emphysema with endobronchial valves (EBLVR), chronic cough, lung cancer – screening, diagnosis and staging, asthma, chronic respiratory infections, screening for sleep apnoea

Consultation fee*: Initial £170; Follow-up £100

Rheumatology

Dr H Harris

Diagnosis and treatment of early arthritis. Use of ultrasound in the rheumatology clinic. Psoriatic and arthritis and rheumatoid arthritis. Fibromyalgia. Lupus, Sjogren's syndrome and other autoimmune conditions. Osteoporosis

Consultation fee*: Initial £175; Follow-up £150

Dr C M Lambert

Inflammatory joint/connective tissue disease including RA, Ankylosing spondylitis, Psoriatic arthritis, SLE. Soft tissue and degenerative rheumatic diseases

Consultation fee*: Initial £200-£250; Follow-up £145-200

Dr N McKay

Assess and treat all aspects of clinical rheumatology. Including Ultrasound imaging expertise to assess joint pain, inflammatory arthritis, connective tissue disease, RA, ankylosing spondylitis, psoriatic arthritis, lupus, osteoarthritis, sjogrens, arteritis

Consultation fee*: Initial £160-£240; Follow-up £80

Dr E R McRorie

Inflammatory arthritis

Consultation fee*: Initial £170-£180; Follow-up £80-£100

S

Spinal surgery

Mr C I Adams

Spinal surgeon. Assessment and surgery of the spine: including lumbar, cervical, coccyx and scoliosis

Consultation fee*: Initial £280; Follow-up £140

Mr A Demetriades

Facial pain/Trigeminal Neuralgia. Spinal pain assessment (cervical/lumbar/thoracic). All 'simple' and complex spinal conditions (degenerative; trauma; tumour; infection; deformity) of all ages. Sciatica/claudeication/backpain/leg pain. Disc prolapse/spinal stenosis/spondylolisthesis. Arm pain/neck pain. Cervical discectomy/cervical disc replacement. Lumbar microdiscectomy. Disc arthroplasty. Spinal fusion. Minimally invasive spine surgery. Revision spine surgery. General neurosurgery: Brain tumours, CSF disorders, Peripheral nerve, chiari, trauma

Consultation fee*: Initial £320 Follow-up £160

Mr I Fouyas

Complex intracranial surgery (cerebrovascular and skull base), surgical treatment of trigeminal neuralgia, cervical pathologies (disc disease/degeneration), peripheral nerve entrapment, lumbar pathologies (disc disease/spinal stenosis) including spinal tumours

Consultation fee*: Initial £320; Follow-up £160

Mr J Kandasamy

Degenerative spinal conditions, lumbar spine related pain, cervical spine related pain, vertebral disc replacements, minimally invasive techniques, endoscopic neurosurgery, hydrocephalus, spasticity, brain and spine tumours, facial pain, carpal tunnel syndrome

Consultation fee*: Initial £320 (40mins); Follow-up £160 (20mins)

Mr I Liaquat

Neuro-oncology/low grade gliomas, adult spinal disorders, back and neck pain, cervical and lumbar radiculopathy/stenosis, degenerative spinal diseases, headaches/facial pain, general neurosurgery and hydrocephalus

Consultation fee*: Initial £320 (40mins); Follow-up £160 (20mins)

Miss L Myles

Spinal surgery, back and neck pain, sciatica, congenital spinal abnormalities, hydrocephalus, brain tumours, carpal tunnel syndrome

Consultation fee*: Initial £320 (40mins); Follow-up £165 (20mins)

Mr D Sokol

Adult spinal disorders, back/neck pain, sciatica, degenerative spine surgery, spine fusion, disc replacement, leg and back pain, spinal cord stimulation, peripheral nerve surgery, endoscopic neurosurgery, brain and spine tumours

Consultation fee*: Initial £320; Follow-up £160

Mr P Statham

Pituitary, skull base tumours and complex spinal surgery

Consultation fee*: Initial £320; Follow-up £160

Sports and exercise medicine

Dr J A Wilson

Wide ranging medical problems in particular musculoskeletal problems not amenable to surgery. Also Parkinsons disease

Consultation fee*: Initial £75-£220; Follow-up £45-£135 (prices vary greatly as complexity varies eg complex medical problems or simple sports injury)

T

Thyroid and parathyroid surgery

Mr R Adamson

Neck lumps, swallowing problems, voice problems, thyroid disease, salivary gland disease, head and neck cancers

Consultation fee*: Initial £150; Follow-up £150

Mr G G P Browning

Gall bladder, hernia, thyroid, parathyroid surgery, laparotomy

Consultation fee*: Initial £150-£180; Follow-up £60-£120

U

Upper GI and gallstones

Mr G G P Browning

Gall bladder, hernia, thyroid, parathyroid surgery, laparotomy

Consultation fee*: Initial £150-£180; Follow-up £60-£120

Mr J Casey

Inguinal hernia repair, umbilical hernia repair, laparoscopic inguinal hernia repair, gallstones, laparoscopic and open cholecystectomy, management of common bile duct stones, minor surgery (skin lesions)

Consultation fee*: Initial £100-£150; Follow-up £70-£100

Mr A C de Beaux

Open and laparoscopic hernia surgery including large/complex incisional hernia, gallstone disease and laparoscopic cholecystectomy, gastro-oesophageal reflux disease, endoscopy and hiatal hernia surgery, weight loss or bariatric surgery, investigation and management of abdominal pain, minor surgery including skin lesions and in growing toe nail surgery.

Consultation fee*: Initial £120-£180; Follow-up £80-£100

Mr P J Driscoll

Hernia. Gallstones. Sports-related groin pain

Consultation fee*: Initial £150; Follow up £100

Mr P Lamb

Gallstone disease and laparoscopic cholecystectomy, laparoscopic hernia surgery, upper gastrointestinal surgery including anti-reflux surgery, endoscopy, weight loss surgery, minor surgery

Consultation fee*: Initial £140; Follow-up £80

Mr R Ravindran

Gallbladder surgery, pancreato-biliary surgery, liver surgery, laparoscopic surgery, chronic pancreatitis

Consultation fee*: Initial £150; Follow-up £100

Urology

Mr A Alhasso

Reconstructive and functional urology: Urethral stricture disease, male urinary incontinence (artificial urinary sphincter and male sling surgery), female urinary incontinence (urethral slings, tapes, bulking agent injections and colposuspension). Bladder dysfunction (idiopathic and neuropathic overactive bladder dysfunction) - Botulinum toxin injection and neuromodulation (SNS and PTNS). Urinary diversion surgery, functional bladder studies – Video-Urodynamics (Videocystometry).

General urology: Peno-scrotal surgery (circumcision, hydrocele repair, epididymal cyst excision, prosthetic testicular implantation) and male family planning - vasectomy. Prostatic disease (prostate surgery and GreenLight laser prostatectomy)

Consultation fee*: Initial £200; Follow-up £150

Mr P Bollina

Prostate cancer, bladder cancer, prostate screening

Mr R Donat

Testis and penile disease, male infertility, andrology, reversal vasectomy, vasectomy and testosterone deficiency, general urology, UTI and haematuria

Consultation fee*: Initial £130-£200; Follow-up £70-£108

Miss P V Granitsiotis

Female urology, urinary incontinence (male and female), urinary tract infection, voiding difficulties, painful bladder, post surgery incontinence and urinary symptoms

Consultation fee*: Initial £200 Follow-up: £140

Mr K Janjua

Prostatic symptoms, haematuria, UTIs, overactive bladder, incontinence, female urology and urodynamics

Consultation fee*: Initial £120-£150; Follow-up £60-£100

Mr P Mariappan

Bladder cancer, prostate cancer, haematuria, pelvic surgery, prostate and bladder problems, urinary infections, day-case surgery

Consultation fee*: Initial £100-£150; Follow-up £50-£100

Prof S A McNeill

Prostate disease (BPH, prostatitis, prostate cancer) including green light laser ablation of the prostate, laparoscopic surgery for kidney and prostate cancer

Consultation fee*: Initial £200; Follow-up £140

Mr I D C Mitchell

Prostate disease, bladder cancer, inguino-scrotal surgery

Consultation fee*: Initial £150; Follow-up £100

Mr S Phipps

Urinary stone disease (flexible ureteroscopy, laser and percutaneous stone surgery, lithotripsy), BPH and Green Light Laser Prostatectomy, laparoscopic surgery for kidney cancer and PUJ obstruction, local anaesthetic vasectomy

Consultation fee*: Initial £200; Follow-up £140

Mr CJ Shukla

Andrology, male genito-urethral reconstruction, general urology. Testis and penile disease, male infertility, andrology, reversal vasectomy, vasectomy and testosterone deficiency

Consultation fee*: Initial £140-£150; Follow-up £90-£100

Mr L H Stewart

Female and reconstructive urology (urogynaecology), urethral stricture surgery, laser prostatectomy. General urology which includes kidney, ureter, bladder, prostate, urethra, penis, testicles, foreskin and scrotum

Consultation fee*: Initial £200; Follow-up £140

Mr D Tolley

Endourology, urinary stone disease, prostatic symptoms, investigation of haematuria and urinary infection, scrotal swellings

Consultation fee*: Initial £190-£225; Follow-up £130-£150

Mrs R J S Webber

Kidney and bladder stone disease, haematuria, urinary tract infection, vasectomy, hydrocoele, epididymal cyst, circumcision, benign prostate disease, prostate cancer, bladder cancer, testicular cancer

Consultation fee*: Initial £150-£200; Follow-up £70-£100

V

Vascular

Mr P Burns

One stop varicose vein clinic, minimally invasive treatment of varicose veins, claudication, carotid artery disease, aortic aneurysms

Consultation fee*: Initial £140-£290; Follow-up £90

Mr R T A Chalmers

Varicose veins, aortic aneurysm, carotid artery disease, peripheral arterial disease, endoscopic thoracic sympathectomy, vibration white finger/hand arm vibration syndrome

Consultation fee*: Initial £150-£250; Follow-up £75-£90

Mr J A Murie

Perform at Shawfair Park

Perform launched in May 2014 with emphasis on elite and amateur sporting services.

Services include:

Anti-gravity treadmill – running at 20%-100% of your bodyweight

Isokinetic

Shockwave therapy

Sport specific assessment

Sport specific pilates

All of our physiotherapy sites offer expertise in musculo-skeletal out-patient physiotherapy, including sports medicine.

Our physiotherapists aim to provide fast, effective treatment to aid recovery from sports injury.

Pathology

The on-site pathology laboratory at Spire Murrayfield Hospital enables our consultants to return blood and screening test results quickly. Our rapid-access HIV blood test service has a four-hour turnaround time and allergy test results can usually be returned in 24 hours. Test results can be made available to GPs securely online, or can be returned via fax or post.

For more information, GPs can contact our Pathology Department on 0131 316 2521.

Mycology

Tumour assays

Diagnostic imaging (MRI, CT, X-ray, Ultrasound, Mammography)

Imaging services are available at both Spire Murrayfield and Shawfair Park Hospital and cover a wide range of both diagnostic and therapeutic investigations. Plain X-ray, fluoroscopy, ultrasound and mobile X-ray are available at both hospitals. MRI, CT and mammography are all available at Murrayfield Hospital with the Cardiac Cath Lab situated at Shawfair Park Hospital.

All images are archived along with the radiology report to the Hospital Picture Archiving Communication System (PACs). The PACS system includes voice activated reporting which assists the consultant radiologist with a fast turnaround of results.

Imaging procedures are performed by HPC registered radiographers or consultant radiologists. All staff is encouraged to participate in a continuing education programme to ensure the department remains at the forefront of imaging developments.

We aim to provide a rapid access service for many examinations across our sites and often same day appointments are available.

Referral for imaging should be requested in writing. GPs can refer patients to either Murrayfield or Shawfair Park Hospitals depending on the patient needs either through SCI Gateway or by calling the GP hotline.

Murrayfield Imaging Department for ultrasound and plain film imaging
