Call **01753 665 404**, email enquiries@spirethamesvalley.com or visit www.spirethamesvalley.com to get your private treatment started.

Wexham Street, Wexham SL3 6NH

Following an initial consultation and having received a diagnosis, your fixed price treatment will include your surgeon's fee, anaesthetist fee (if required), hospital fees (nursing, accommodation, food etc) and the price of any necessary prosthesis from our standard range, as well as any physiotherapy you may need to aid your recovery. Your hospital fees cover everything you need for as long as you need to stay in hospital, so you don't get any unexpected bills if, for clinical reasons you need to stay longer than planned.

Prices correct as of February 2018. For some conditions, a range of fixed prices are available and your price may differ from those printed depending on the treatment you are recommended.
