When is it appropriate to tell your patients about private self-funded treatment?

There are occasions when it is perfectly acceptable to inform or recommend to your patients the option of one-off, self-funded treatment.

When a patient wants to be seen and treated quickly.

Arranging fast private treatment

Your patient is guaranteed fast access to some of the latest facilities and diagnostic services – usually within a week of referral. If subsequent treatment is required this can usually be completed within a few weeks.

When a patient is concerned about cleanliness and clinical outcomes.

Low infection risk

Spire Healthcare was the first private hospital provider to publish clinical performance and patient reported outcomes together on their website, including information on rates of MRSA bacteraemia and Clostridium Difficile infection.

When a patient meets the criteria for NHS treatment.

No referral criteria thresholds

Referral into the NHS isn't always possible. At Spire Healthcare we don't have referral thresholds – so your patient can quickly access consultant appointments and diagnostic facilities including MRI and CT scans.

Visit www.spirehealthcare.com for more information.

When you and your patient want to choose the consultant they see.

Choose your patient's consultant

Demand the best for your patients and choose the consultant you want them to see. Your patient will see the same consultant at every appointment and they will be in full charge of their care with the support of our 24-hour resident doctor and experienced nursing team.

Fixed price treatment

After the initial consultation with your chosen consultant, we'll quote an inclusive, fixed price* for all treatment. So there are no surprises once treatment is complete. We also offer two finance schemes, including access to an interest-free option (0% APR representative).

Comfortable surroundings

At Spire Methley Park Hospital patients have their own private room with en-suite shower. We offer a range of appetising meals, all prepared by our on-site chef, and delivered to their room. Visitors are welcome whenever your patient wishes.

* Please see a copy of Spire's patient terms and conditions for full detail. Prices vary per treatment and are dependent on each patient's individual circumstances and needs.
