Consultant Directory

Expert healthcare for your patients

www.spirebushey.com

Looking after you.

Welcome to our 2018 Consultant Directory

This directory has been created to provide GPs with a quick reference guide to Spire Bushey Hospital, our consultants and treatments we provide.

This past year has been a particularly exciting time for us with the launch of Spire Bushey Diagnostic Centre. The new centre has enabled us to increase our clinic and diagnostic offering to patients and play a greater role than ever in the local healthcare economy. You can find more information on the centre later in this directory.

2018 will see our main hospital site expand with additional bedrooms, a new theatre (bringing our total to six) and our remaining out-patient department being fully refurbished.

We are committed to providing the very best care to our patients in a relaxed, comfortable environment, ensuring they are treated as though they are part of our family.

Every member of staff, from our most senior clinicians to the pantry and housekeeping staff devote themselves to helping patients feel at ease and less anxious about their treatment.

At Spire Bushey Hospital the patient is at the heart of everything we do. Please do not hesitate to contact any of us should you require any further information.

Best Wishes,

Lisa Trybus,
Hospital Director

How to refer your patients

At Spire Bushey we are committed to delivering excellent individual care and customer service to all our patients, from the time they first get in touch with us until after their treatment is complete. Our dedicated and highly trained staff aim to consistently deliver excellent patient care. We work to ensure every patient is treated as if they were our own vulnerable relative.

Insured patients

A referral letter is generally required from you before any insured patient can be seen by a consultant. Patients can call our bookings team on 020 8901 5555 to arrange a convenient appointment.

Self-funding patients

Self-funding patients are able to be seen by a consultant without a GP referral, although a letter is often preferred.

We can provide a tailored fixed price inclusive care package* with no hidden extras on a range of diagnostic tests, treatments and surgical procedures. For more information, please call our Self-pay team on 020 8901 5505.

NHS patients

Spire Bushey Hospital provides elective surgical services to NHS patients for orthopaedic and general surgery. Our aim is to make the referral process as quick and easy as possible. You can use the NHS e-Referral system

<https://www.ebs.ncrs.nhs.uk> to refer your patients to us or alternatively, you can refer by letter or fax (please state that the referral is NHS and provide recent relevant medical history).

Urgent/unplanned admissions

If you have a specific consultant to refer to and you have their contact details, you can organise this with them directly. Alternatively, you can call us and ask for the 'nurse in charge' of the wards, who will take initial details of the patient and organise the consultant for you.

The hospital does not have an accident and emergency facility.

Self-funding patients

For help in arranging self-funded consultations and treatment, including guide prices for investigations and surgery, please ask patients to contact our self-pay team on:

Tel: 020 8901 5505

Email: info@spirebushey.com

Our fixed price packages* offer the following benefits:

- No waiting lists
- Fast access to leading consultants
- Treatment dates to suit the patient
- Personalised support and care

*Please see a copy of Spire Healthcare's patient terms and conditions for full details. Prices vary per treatment and are dependent on each patient's individual circumstances and needs.

Typical treatments that can be self-funded:

- Knee, hip, or shoulder surgery
- Varicose vein treatment
- Hernia repair
- Back pain treatment
- Weight loss surgery
- CT, MRI and ultrasound scans
- Cosmetic surgery
- Cataract surgery
- Endoscopy procedures

Referral letters can be:

Faxed to **020 8901 5558**

Submitted online via our website
www.spirehealthcare.com/GPConnect

Emailed with encryption to
buhospappt@spirehealthcare.com

GP Connect enables practice staff to log in and send secure, instant online referrals to Spire Healthcare hospitals. The system is designed to be as simple and efficient as possible, while protecting all confidential information within secure servers.

Visit www.spirehealthcare.com/gpconnect or click on GP Connect from the GP information and resources tab on our website.

GP registration

When you access GP Connect for the first time you will be required to register a few personal details to allow you access to the site and grant you permission to make referrals.

The GP information and resources area will also contain information from Spire Healthcare specifically for GPs including news on our forthcoming GP events.

Making a referral

To make a referral click on the 'Make an online referral' link and complete all relevant details. The referrals for each patient will need to come from the GP making the referral.

NHS referrals

You may refer patients to Spire Bushey Hospital under the Choose and Book scheme. Please check that the required treatment is included in the scheme. If in doubt please use the Choose and Book website to make the referral www.chooseandbook.nhs.uk.

Imaging and other referral types

You can make referrals for radiological investigations by selecting 'Radiology' under the specialty list. To make a referral for physiotherapy, podiatry, dietetics, psychology etc, select one of these from under 'Allied Health Professionals' in the specialty list.

Attaching patient notes

It is possible to attach patient notes to the form, however the ease of this will depend on your own patient record software. Take a look at the options available in your software to see if records can be 'exported' or 'saved as' to your desktop. Then from there you can attach them to this form. You will need to save the notes in a common format such as a text or word document (.rtf, .pdf, .doc, .txt), a spreadsheet (.xls or .csv) or an image format (eg .bmp, .jpg).

Then click the 'send referral' button at the bottom of the page to submit the referral.

For more information on GP Connect please contact Akta Chauhan on **07736 278 835** or email akta.chauhan@spirehealthcare.com

Spire

Bushey Hospital

Continuing professional development events for primary care professionals

Book your place today
Call now on 020 8901 5536

We will be hosting a variety of educational events during 2018 which will count towards your continuing professional development (CPD).

Please check the **GP information and resources** section of our website at www.spirebushey.com for details of the 2018 itinerary and how to secure your booking.

Educational seminars

- Day events will be held at local hotels and all evening events will be held at Spire Bushey Hospital
- Presentations from our consultants on their area of sub-specialty expertise
- Case study discussion and open question and answer format to give you a rounded view of the topic
- Meet and network with peers
- We send you an agenda and booking form approximately six weeks before each event. If you do not receive this and you would like to attend, please feel free to contact us to book a place.

Additionally we run clinical workshops including BLS training, minor ops courses and a joint injections course on site at Spire Bushey Hospital.

'Lunch and Learn' at your surgery

- A Spire Bushey consultant presentation in your surgery
- Select a topic of your choice at a time that suits you
- Allocated time to discuss specific patient case studies
- Light lunch and refreshments brought along to your surgery

To book a place on any of our educational seminars, clinical workshops, the 'Lunch and Learn' sessions or to find out more about these events please contact:

Spire

Bushey Hospital

Help patients
feel better, faster.

Is your patient waiting too long for treatment? Then we want to help them get their health back on track.

Consultations within 48 hours for:

- Arthroscopy
- Grommet insertion
- Hysterectomy
- Joint replacement
- Pain management
- Tonsillectomy
- Varicose vein treatments

020 8950 9090

info@spirebushey.com

www.spirebushey.com

Looking after you.

Spire

Bushey Hospital

Insurance stuff

Are your patients with
PMI using it?

Approximately 40,541 people in the Watford area are eligible to be referred privately rather than to the NHS. Imagine the impact this could have on waiting lists.

We encourage patients to tell their GP if they have PMI, but why not ask them too?

www.spirebushey.com

Looking after you.

When is it appropriate to tell your patients about private self-funded treatment?

When a patient wants to be seen and treated quickly.

Arranging fast private treatment

Your patient is guaranteed fast access to some of the latest facilities and diagnostic services – usually within a week of referral. If subsequent treatment is required this can usually be completed within a few weeks.

When a patient is concerned about cleanliness and clinical outcomes.

Low infection risk

Spire Healthcare was the first private hospital provider to publish clinical performance and patient reported outcomes together on their website, including information on rates of MRSA bacteraemia and Clostridium Difficile infection.

MRSA bacteraemia rates

MRSA Bacteraemia (per 10,000 bed days)

When a patient does not meet the criteria for NHS treatment.

No referral criteria thresholds

Referral into the NHS isn't always possible. At Spire Healthcare we don't have referral thresholds – so your patient can quickly access consultant appointments and diagnostic facilities including MRI and CT scans.

Visit www.spirehealthcare.com for more information.

When you and your patient want to choose the consultant they see.

Choose your patient's consultant

Demand the best for your patients and choose the consultant you want them to see. Your patient will see the same consultant at every appointment and they will be in full charge of their care with the support of our 24-hour resident doctor and experienced nursing team.

Fixed price treatment

After the initial consultation with your chosen consultant, we'll quote an inclusive, fixed price* for all treatment. So there are no surprises once treatment is complete. We also offer two finance schemes, including access to an interest-free option (0% APR representative).

Comfortable surroundings

At Spire Bushey Hospital patients have their own private room with en-suite shower. We offer a range of appetising meals, all prepared by our on-site chef, and delivered to their room. Visitors are welcome whenever your patient wishes.

* Please see a copy of Spire's patient terms and conditions for full detail. Prices vary per treatment and are dependent on each patient's individual circumstances and needs.

Notes

Dotted lines for writing notes.
