Services for private patients who choose to self-pay for treatment

Many people don't have medical insurance but can still arrange full treatment at a private hospital by

opting to "pay as they go". There are even payment plans available (see below).

Benefits of self pay treatment at Spire Leeds Hospital

- Out-patient appointments within 48 hours, from £150
- Consultant-led care throughout treatment
- Transfer of NHS medical records made easy
- Ability to transfer back to NHS if needed
- Free car parking
- Competitively-priced packages for most operations which include follow-up care
- Out-patient self pay also available for physiotherapy, X-rays or scans, blood and other tests

Some of the most common operations people are choosing to pay for themselves

- Hip and knee replacement
- Cataract surgery
- Hernia repair
- Back pain injections
- Knee arthroscopy
- Endoscopy –upper and lower bowel investigations
- Mole/cyst removal
- Spinal disc surgery
- Removal of tonsils
- Tummy tuck
- MRI scans

Payment plans for private self-pay patients at Spire Leeds Hospital

Flexible monthly payment plans for self-pay hospital treatment

Patients can pay for private self-funded surgery in monthly instalments by taking out a medical loan. The loans are available either with interest-free term of 10 months, or with interest charged and a choice of terms of 1, 2 or 3 years.

How much does self-pay surgery cost in monthly payments?

Below we've listed some of the more common operations to illustrate*

Treatment	Self-pay price	Monthly amount payable with 0% APR loan	Monthly amount payable with 16.9% APR loan	Monthly amount payable with 16.9% APR loan
		10 months - 10 payments	2 years – 24 payments	3 years – 36 payments
MRI scan (1 area)	£395	£395	N/A	N/A
Endoscopy	£1663	£166.30	£81.20	£58.23
Umbilical hernia	£2326	£232.60	£113.57	£81.45
Tonsillectomy	£2710	£271.20	£132.32	£94.90
Cataract removal	£2763	£276.30	£134.91	£96.75

*Prices are stated as a guide and reflect treatments available and the approximated monthly repayments – both of which are for illustrative purposes. Please see the Representative Example.

Representative Example. Amount of credit £4,000.00. Total amount repayable £5,042.52. Repayable by 36 monthly payments of £140.07. Interest rate 15.7% pa (variable). Representative 16.9% APR (variable).

Spire Healthcare is acting as a credit broker. Loans subject to application, terms and condition, and acceptance and are arranged by Zebra Finance Ltd trading as Zebra Health Finance. Company No. 06960530 with business address of Lincoln House, Stephenson's Way, Wyvern Business Park, Derby DE21 6LY. www.zebrafinance.co and is a creditor and broker that arranges credit facilities on behalf of R Raphael & Sons Plc who will be the named creditor. Neither party pays nor receives commission for introducing customers to credit. All the parties named here are authorised and regulated by the Financial Conduct Authority.

We're here to help

Spire Leeds has a dedicated private patient advisor team to help patients who are self-paying with information, guidance and bookings

Dedicated paediatric ward at Spire Leeds Hospital

Spire Leeds is the only hospital in Leeds providing surgery for children under the age of 3. Patient numbers have grown steadily and we now have a full team of specialist children's nurses working closely with consultant colleagues.

Our newly-designed and refurbished children's department at the end of ward one provides a friendly environment to help put children at ease when they come to hospital.

Large framed photos adorn the walls and a child-friendly patient information board describes a fictional young patient's visit to Spire Leeds.

Specialty/Name	Special Interest	Private Appointments	NHS base

Oncology services

Tel: 0113 218 5950
info@spireleeds.com

One of the largest and most renowned services offered at Spire Leeds is in the diagnosis, treatment, surgery and after-care for patients with cancers.

We work with a large, multi-professional team of consultants and healthcare professionals who specialise in cancer care:

- Consultant oncologists specialising in different types of cancer
- Consultant surgeons from a wide range of specialties including reconstructive surgery
- Consultant radiologists
- Consultant haematologists
- Consultant physicians
- Cancer care nurse team and surgical nurse specialist team
- Physiotherapists

Spire Leeds offers a dedicated oncology day chemotherapy centre. This offers oncology patients and their relatives and visitors a dedicated area for having cancer treatments. The centre is comprised of:

- Six treatment areas with chemotherapy couches – each area is curtained to offer patients individual privacy
- An oncology consulting room
- Visitor waiting room/resting area

Spire Leeds has specialist accreditation awarded by private medical insurance providers as a recognised site for providing cancer services in:

- Breast cancer
- Colorectal cancer
- Gynaecological cancers

Spire Leeds is a recognised centre for the treatment of many cancers including cancer of the blood, liver, prostate, breast, lung, skin, lower GI, ovary and a wide range of others.

For further information on the oncology services at Spire Leeds Hospital, contact a member of the oncology nursing team on 0113 218 5950.

To book an appointment with a consultant oncologist, telephone 0113 218 5908/9.

Spire Leeds Hospital's chemotherapy suite

Out-patient services

Tel: 0113 218 5908/09
info@spireleeds.com

Appointments: 0113 218 5908/9
Fax number for referrals: 0113 218 5980

Monday to Thursday 8am – 9pm
Friday 8am – 8.30pm
Saturday 9.00am – 12.00pm

We kindly request that patients who are referred to the out-patient nursing team bring along their letter of approval from the GP practitioner.

Direct referrals can be made to the out-patient nursing team for the following services:

- Applications, re-applications of dressings
 - Breath test (helicobacter) / glucose tolerance tests
 - Catheterisation
 - Flow rates
 - Prostag injections
 - Phlebotomy
 - Removal of clips
 - Removal of plaster casts
 - Removal of stitches
- Specialist nurse appointments for:
- Breast care
 - Stoma care
 - Lymphoedema
 - Cosmetic and reconstructive surgery
 - Urology

Other out-patient services

Allergy testing (consultant-led)

- Skin prick
- Wasp/bee sting
- Timothy grass
- Latex
- Dog/cat hair
- Peanut
- Boiled cows milk
- Hens eggs
- Glucose tolerance testing

ENT procedures

- Nasendoscope
- Microsuction outer ear
- Nasal cautery
- Audiograms

Eye procedures & diagnostics

- Eye scanning (Optical Coherence Tomography/OCT)
- Injections for treatment of (wet) age related macular degeneration
- Irridotomy
- Removal of eye lesions
- Topography
- Visual acuity
- Visual fields analysis
- Yag laser capsulotomy

Gynaecology procedures

- Colposcopy
- HPV (human papilloma virus) vaccination
- Loop diathermy
- Vulvoscopy

Mole & cyst removal and analysis

- Minor dermatological procedures
- Lesion removal

General surgical out-patient procedures

- Toe nail avulsion
- Flexi sigmoidoscopy
- Rigid sigmoidoscopy
- Treatment for haemorrhoids

Urogynaecology services

- Urodynamic testing and flow rates

Cardiology, respiratory and sleep services

Tel: 0113 218 5922
info@spireleeds.com

Cardiology department: 0113 218 5922
Monday to Friday 8.30am – 5.00pm
Cardiology department fax: 0113 218 5983

Cardiological testing and diagnostic services

Respiratory function testing

- ECG
- 24 hour/long term ECG monitoring
- 24 hour BP monitoring
- Echocardiography: 2 & 3D including dysynchrony, and transoesophageal
- Stress echocardiography
- Stress testing - technician led
- Pacemaker, Reveal and ICD follow-up
- Cardiac MR & CT
- Internal cardiac defibrillator implantation
- Intra-atrial cardioversion
- Pacemaker implantation, single, dual bi-ventricular systems
- Spirometry
- Reversibility studies
- Full lung function test
- Osmahale testing

Angiography procedures

- Angioplasty
- Cardiac ablations
- Coronary angiography – left and right heart studies
- Electrophysiology studies
- Cardiac/radio frequency ablation

Sleep disturbance testing

- Embletta sleep studies
- Overnight pulse oximetry
- CPAP Titration trials

Pathology services spire.leedspathlab@nhs.net

Tel: 0113 218 5947

Pathology: 0113 218 5947

Pathology fax: 0113 218 5965 - Monday to Friday 8am – 6pm / Saturday 9am – 1pm

Request forms with sealable specimen bags are available from Spire Leeds Hospital.

- Biochemistry
- Blood transfusion
- Cytology
- Haematology
- Histology
- Microbiology and virology
- Tumour assays

Diagnostic imaging services

Tel: 0113 218 5923
info@spireleeds.com

Imaging department: 0113 218 5923 - Monday to Friday: 8.30am – 7.30pm

Imaging department fax: 0113 266 3719 - Telephone for appointments Monday to Friday 8am - 5.30pm

GP referrals should be requested on either practice headed paper or Spire Imaging referral documents.

The referral must be signed by a GP or other medical professional

- Barium studies
- Cystography
- Fluoroscopy
- Hysterosalpingography
- Intravenous urography
- Localisation of breast tumours
- Obstetrics scanning (limited)
- Musculoskeletal ultrasound
- Orthopantomography
- Sinography
- Ultrasound guided biopsy
- Ultrasound with doppler facility for vascular work
- Venography
- Videofluoroscopy

Breast imaging

- Mammography
- Ultrasound

Contrast studies and fluoroscopy

GI tract

- Upper and lower GI tract evaluation
- Gastric band adjustment
- Small bowel meal
- Videofluoroscopy
- Image guided biopsy

Genitourinary tract

- Cystogram
- Urethrogram
- Hysterosalpingogram

CT scans

- CT Colonography
- CT Coronary angiography and calcium scoring
- CT Enterography
- CT Head
- CT of neck, chest, abdomen and pelvis
- CT guided biopsy

Interventional

- Biopsy and fine needle aspiration
- Drain insertion
- Nephrostomy and ureteric stent
- Vascular procedures

MRI scans

- Brain and spinal
- Musculoskeletal
- Liver, biliary, and pancreas
- Small bowel, rectum, and fistula
- Kidney and adrenal
- Gynaecological
- Cardiac MR

Musculoskeletal imaging

- CT, MRI, and ultrasound
- Arthrography
- Image guided injections (CT, Fluoro, and Ultrasound)

Paediatric imaging

- Endoanal ultrasound
- Colonic transit studies
- Barium proctography
- MR proctography

Ultrasound

- Abdominal and renal tract
- Musculoskeletal
- Neck
- Obstetric (limited)
- Pelvic and gynaecological
- Prostate (including biopsy)
- Testicular
- Vascular studies including venography

Physiotherapy services

Tel: 0113 218 5951
info@spireleeds.com

Physiotherapy department: 0113 218 5951

Physiotherapy fax : 0113 218 5980

Monday to Friday: 8am – early evening

- Musculoskeletal services
- Orthopaedic surgical rehabilitation
- Spinal conditions
- Core stability and pilates
- Sports and acute injuries services
- Acupuncture
- Ergonomics
- Gait Scan
- Pulmonary Services
- Vascular services
- Women's Health
- Men's Health
- Service for Post Operative Breast Surgery Patients
- Pilates classes for the public
- Yoga classes for the public
- Alter-G treadmill conditioning - hire by the session

Physiotherapy consulting area

Perform Centre at Spire Leeds

Specialist physiotherapy > rehabilitation > sports performance

Exercise is medicine

The value of exercise and physical activity in promoting wellness, preventing disease and reducing illness morbidity is now fully recognised. Heart disease, diabetes, stroke, obesity, osteoporosis, elderly frailty, dementia and low back pain are some of the most recognisable conditions for which there is a causal link to physical inactivity

Sports and Exercise Medicine at Spire Leeds Hospital

Spire Leeds is one of the Spire group's largest hospitals and is home to the Perform Centre.

Aimed at the general public and elite sports professionals, Perform Leeds encompasses a fully refurbished specialist centre and 2 adjoining gymnasia. Perform Leeds offers a wide range of specialist services ranging from rehab and physio for patients and customers needing rapid appointments right through to customised exercise packages and conditioning sessions for amateur and also for elite (and in some cases Olympic) sports professionals.

Perform Leeds has worked closely with a leading doctor to spearhead its expansion in this developing field. Dr Jon Power is a leading SEM" - Sports and Exercise Medicine Specialist.

Dr Jon Power
Sports and Exercise
Medicine consultant

Dr Marwan Al-Dawoud
Sports and Exercise
Medicine physician

Perform beyond your expectations

What is Sport & Exercise Medicine (SEM)?

The SEM specialty was officially established in 2005 as a new medical specialty to coincide with the bid to hold the London 2012 Olympic and Paralympic Games.

SEM medicine employs a multi-disciplinary approach to dealing with all aspects of health and illness that may prevent a person from engaging in, or returning to, physical or sporting activity. Only those who have undergone lengthy and specialist training can be accredited as SEMs and membership across the UK is still low at just over 500.

SEM's work in the NHS but also have roles as team doctors across amateur and professional sport, in organisations such as the English Institute of Sport, with the Armed Forces and in private practice at centres such as Spire Leeds Hospital.

What does Perform Leeds offer?

Jack Nightingale
Physiotherapy
Manager

Jack Nightingale, head of physiotherapy and Perform Leeds explains more what Perform can offer...

"For the first time, we can offer therapies in conjunction with cutting-edge monitoring, measurement and conditioning equipment for both our existing patients and also for new customers from elite and amateur sport."

The beauty of the service is the ease with which we can cross-refer to different specialists and pool knowledge. There are opportunities for research and a lot of interest in the Alter-G (see opposite)". Our principle aim of the new service is to:

- > enhance performance for sport at any level
- > rehabilitate and enable people to exercise following surgery, injury or illness and to encourage fitness amongst those who may have restricted movement."

Perform Leeds – Open to All

- > The centre is open to anyone who wishes to simply "Pay as they go" or for those with medical cover or insurance.
- > Referral to the centre by a GP or medical professional is not always required – patients can call or email to check if they can book themselves into our clinics.
- > Appointments Monday – Friday (evenings included) and Saturday mornings.
- > Once referred, patients have access to the hospital's wider range of scanning, blood testing, heart testing and respiratory specialists, all on site.

Cutting-edge technology at Perform Leeds – Spotlight on Alter-G

The Perform Centre is currently the only hospital in the North to invest in a leading-edge service called Alter-G.

In the Leeds area, Alter-G has previously only been available for use by professional and elite sports teams to provide rehabilitation for athletes.

Perform at Spire Leeds now offers everyone the chance to benefit from Alter-G in the new strength and conditioning gym.

- > Alter-G is an anti-gravity treadmill which treats patients who are recovering from surgery or injury and who cannot put full weight ("weight bear") to stand upright and exercise.
- > The patient is attached to supporting frames within the piece of equipment so that they are "lifted" and their weight is reduced by up to 80%. This then allows them to partially weight-bear on the treadmill below and so work towards regaining condition, balance and function.
- > Alter-G's unique precision allows patients to exercise with far less discomfort and to improve their confidence exercising, improve gait and enhance balance.
- > Alter-G provides doctors and physiotherapists with a precise way of measuring a patient's progress.

Alter-G. Individual sessions £25 per 30 minutes.

Paediatric services

Tel: 0113 218 5968
info@spireleeds.com

Spire Leeds Hospital has a team of dedicated RSCNs and over 20 paediatric physicians and surgeons with regular out-patient clinics.

Children from the weight of 10kg and above can be admitted to the hospital for surgery and will be looked after before and after surgery by the RSCNs. Where possible we aim to take patients as day cases. Children staying overnight can be accompanied by a parent/carer.

Medical services - children of any age

- Consultations with specialists
- Blood tests
- Diabetes
- Sports injuries
- Hayfever & other allergies
- Endocrine
- Biofeedback studies for continence

Surgical services - children from the weight of 10kg upwards

Common surgical services include:

- Circumcision
- Correction of undescended testicles
- Hand surgery
- Hernia repair
- Insertion of grommets
- Orthopaedic
- Pinnaplasty
- Removal of tonsils
- Hip dysplasia
- Arthroscopy
- Removal of adenoids
- Squint
- Removal of lesions
- Colonoscopy
- LLV ligation
- Herniotomy
- Hypospadias
- Hydrocele repair
- Removal of lesions
- Sports injuries

For further information on all paediatric services at Spire Leeds Hospital, contact a member of the paediatric nursing team on 0113 218 5968.

To book an appointment with a paediatric consultant, telephone 0113 218 5908/9.

Occupational therapy and splinting services

Appointments: 0113 218 5908/09

Service run by Helene Boonin and Caroline Pellatt

Monday 9am – 12noon

Patients with private medical insurance need to check their cover with their insurer prior to booking an appointment. Self-paying patients can be referred straight to the clinic by GP or specialist.

Thermoplastic splinting

Splinting can be provided for protection, stretching or preventing contractures, following surgical intervention, resting swollen or arthritic limbs, neurological conditions or for improving function.

Scar management

Using a variety of treatment modalities to improve appearance and texture of scars.

Desensitisation

Treatment to improve hypersensitivity and increase function.

Hand therapy

Assessment and treatment of patients who have sustained a bony or soft tissue injury of the hand and upper limb with particular emphasis on improving range of movement, grip strength and function.

Rheumatology

Assessment and treatment of patients with rheumatological problems requiring joint protection advice, splinting and help with functional everyday activities.

Musculoskeletal services, sports & exercise medicine (SEM)

We provide a comprehensive, high quality service covering all aspects of musculoskeletal conditions and assessment and investigation of all bone, joint and soft tissue issues.

This ensures our clients receive clear, accurate reports that are based on up to date evidence helping our referring clinicians to optimise patient management. We perform image guided joint injection/aspiration as well as therapeutic image guided intervention techniques such as ultrasound guided tendon needling, nerve root blockade and vertebroplasty.
