Consultant Directory

Expert healthcare for your patients

Looking after you.

At Spire Healthcare we are committed to delivering excellent individual care and customer service to all our patients, from the moment they first get in touch with us until after their treatment is complete. Our dedicated and highly trained people aim to consistently achieve excellent results. For us it's more than just treating patients, it's about looking after people.

A referral letter is usually required from you before any patient, whether they are insured or self-funding, can be seen by a consultant.

Insured patients

Scheme/policy details are required at the time of booking so that we can obtain pre-authorisation for treatment. Please call **0118 958 7676**.

Self-funding patients

We provide a tailored fixed price* with no hidden extras on a range of diagnostic tests, treatments and surgical procedures. For information call **0118 955 3563**.

NHS patients

Spire Dunedin Hospital is accredited to provide elective surgical services to NHS patients across a range of specialties. Our aim is to make the referral process as quick and easy as possible. You can use the NHS e-Referral system <https://www.ebs.ncrs.nhs.uk> to refer your patients to us or alternatively, you can refer by letter or fax (please state that the referral is NHS and provide recent relevant medical history). Please call **0118 955 3561**.

Emergency admissions

Call **0118 958 7676** and ask for the nurse in charge. We'll aim to call you back within 20 minutes to update you on the progress of the admission. The hospital does not have an accident and emergency facility.

If you would like to refer directly to a specific consultant please see consultant secretary details in the directory listing section.

Full profiles for each consultant can be found at www.spiredunedin.com

* Please see a copy of Spire Healthcare's patient terms and conditions for full detail. Prices vary per treatment and are dependent on each patient's individual circumstances and needs.

Looking after you.

When is it appropriate to tell your patients about private self-funded treatment?

There are occasions when it is perfectly acceptable to inform or recommend to your patients the option of one-off, self-funded treatment.

When a patient wants to be seen and treated quickly.

Arranging fast private treatment

Your patient is guaranteed fast access to some of the latest facilities and diagnostic services – usually within a week of referral. If subsequent treatment is required this can usually be completed within a few weeks.

When a patient is concerned about cleanliness and clinical outcomes.

Low infection risk

Spire Healthcare was the first private hospital provider to publish clinical performance and patient reported outcomes together on their website, including information on rates of MRSA bacteraemia and Clostridium Difficile infection.

MRSA bacteraemia rates

When a patient does not meet the criteria for NHS treatment.

No referral criteria thresholds

Referral into the NHS isn't always possible. At Spire Healthcare we don't have referral thresholds – so your patient can quickly access consultant appointments and diagnostic facilities including MRI and CT scans.

Visit www.spirehealthcare.com for more information.

*NHS data taken from <https://www.gov.uk/government/statistics/mrsa-bacteraemia-annual-data>

When you and your patient want to choose the consultant they see.

Choose your patient's consultant

Demand the best for your patients and choose the consultant you want them to see. Your patient will see the same consultant at every appointment and they will be in full charge of their care with the support of our 24-hour resident doctor and experienced nursing team.

Fixed price treatment

After the initial consultation with your chosen consultant, we'll quote an inclusive, fixed price* for all treatment. So there are no surprises once treatment is complete. We also offer a finance scheme, including access to an interest-free option (0% APR representative).

Comfortable surroundings

At Spire Dunedin Hospital patients have their own private room with en-suite shower. We offer a range of appetising meals, all prepared by our on-site chef all delivered by friendly staff to their room. Visitors are welcome whenever your patient wishes.

* Please see a copy of Spire's patient terms and conditions for full details. Prices vary per treatment and are dependent on each patient's individual circumstances and needs.

Microbiology

Mycology

Semen analysis

Spire Dunedin Hospital – GP how to refer guide

Don't know which consultant to refer to? Visit www.spiredunedin.com, where all our consultants are listed.

Notes

Spire

Dunedin Hospital

Reading

Insurance stuff

Are your patients with PMI using it?

Over 200,000 people in the Berkshire and Oxfordshire area are eligible to be sent privately rather than to the NHS. Imagine the impact this could have on waiting lists.

We encourage patients to tell their GP if they have PMI, but why not ask them too?
