Policy number and pre-authorisation code are required at the time of booking an appointment.

Full profiles for each consultant can be found at www.spireharpenden.com

Paediatrics

Consultants who hold Practising Privileges for the care of children and young people are now able to see children for consultations in the out-patients environment from the ages of 0-16 years. However, consultants will not be able to carry out invasive procedures on anyone under the age of 16 years. Young people between the ages of 16 and 18 years will require a risk assessment by a Registered Child Nurse prior to any interventional procedure taking place, either as an out-patient, day case or in-patient.

Looking after you.

When is it appropriate to tell your patients about private self-funded treatment?

There are occasions when it is perfectly acceptable to inform or recommend to your patients the option of self-funded treatment.

When a patient wants to be seen and treated quickly.

Arranging fast private treatment

Your patient is guaranteed fast access to some of the latest facilities and diagnostic services – usually within a week of referral. If subsequent treatment is required this can usually be completed within a few weeks.

When a patient does not meet the criteria for NHS treatment.

No referral criteria thresholds

Referral into the NHS isn't always possible. At Spire Healthcare we don't have referral thresholds – so your patient can quickly access consultant appointments and diagnostic facilities including MRI and CT scans.

Visit www.spirehealthcare.com for more information.

When you and your patient want to choose the consultant they see.

Choose your patient's consultant

Demand the best for your patients and choose the consultant you want them to see. Your patient will see the same consultant at every appointment and they will be in full charge of their care with the support of our 24-hour resident doctor and experienced nursing team.

Fixed price treatment

After the initial consultation with your chosen consultant, we'll quote an inclusive care package* for all in-patient procedures. So there are no surprises once treatment is complete. We also offer finance schemes, including access to an interest-free option (**0% APR representative**).

Comfortable surroundings

At Spire Harpenden Hospital patients have their own private room with en-suite shower. We offer a range of appetising meals, all prepared by our on-site chef, and delivered to their room. Visitors are welcome whenever your patient wishes.

* Please see a copy of Spire's patient terms and conditions for full detail. Prices vary per treatment and are dependent on each patient's individual circumstances and needs.

Spire

Harpenden Hospital

Help them feel better, faster.

Is your patient waiting too long for treatment? Then we want to help them get their health back on track.

Consultations within 48 hours for:

- Arthroscopy
- Grommet insertion
- Hysterectomy
- Joint replacement
- Pain management
- Tonsillectomy

Looking after you.

Spire Harpenden has a team dedicated to providing valuable GP education from our highly experienced consultants.

We arrange a number of full day, evening and Saturday morning seminars covering a variety of specialities and topics. All our seminars are listed on our website: www.spireharpندن.com/gp-education where you can also book your place if you would like to attend.

The core aim for our GP education is to provide high quality, free to attend events that support our local primary care community to achieve their CPD points for appraisals. To allow us to continue to run these events for free, we require a £50 refundable deposit, this is refunded back to you once we've confirmed your attendance on the day. (Or at least 48 hours cancellation notice is required.)

If you have any questions please call 01582 714 307 or email HarpندنGP@spirehealthcare.com

Certificates are issued via email for all our events afterwards to claim your CPD points.

In addition to our seminar programmes, we offer lunch and learn sessions which can take place at your surgery. We organise lunch and a consultant speaker, so you have the convenience of GP education within your surgery, during your lunch break.

Below is a small selection of our available talks, however we have a vast network of consultants and topics we can cover so please just ask.

- Clinical approaches in old age medicine
- Allergic rhinitis: Diagnosis and management
- When to refer for laparoscopic cholecystectomy
- Haemorrhoid treatments including Rafaelo procedure
- Cataract and Glaucoma treatment
- Common Foot Disorders and Podiatric Surgery
- Pelvic pain and endometriosis, what really matters?
- The hard facts about kidney stones

To book a lunch and learn session please call **01582 714 306** or email HarpندنGP@spirehealthcare.com
