Consultant Directory

Expert healthcare for your patients

Looking after you.

This directory has been produced for GPs, as a guide to Spire Gatwick Park Hospital, and the services and specialties we offer.

Spire Gatwick Park Hospital offers a wide range of medical and healthcare services. The hospital is recognised by all major health insurance companies, and is an accredited centre for bowel, breast and prostate cancer treatment.

The hospital has 34 individual in-patient rooms, each with en-suite facilities, air-conditioning, direct dial telephone, TV, radio and free Wi-Fi access. In addition there is a dedicated 16 room day-care unit and a two-bedded Extended Recovery Unit.

If you have any questions about the hospital, please call Kilele Allam, our GP Liaison Officer, on **07720 735 968**.

How to refer your patients

We are committed to delivering excellent individual care and customer service to all our patients, from the time they first get in touch with us until after their treatment is complete. Our dedicated and highly trained people aim to consistently achieve excellent results. For us it's more than just treating patients, it's about looking after people.

A referral letter is always required from you before any insured patient can be seen by a consultant.

Self-funding patients are able to be seen by a consultant without a GP referral, although a letter is often preferred:

The referral letter can be emailed securely to spire.gatwickpark@nhs.net (for private patients) or to spire.nhsteamgpk@nhs.net (for NHS patients) using your nhs email account

Our out-patient bookings team can be contacted directly on **01293 778 919**

Expedited/unplanned admissions

Gatwick Park Hospital will accept expedited admissions as defined by NCEPOD Classification of Intervention.⁽¹⁾

Expedited admission – patient requiring early treatment where the condition is not an immediate threat to life, limb or organ survival. Normally within days of decision to operate.

If you (or your patient) have a specific consultant to refer to, and you have their contact details, you can organise this with them directly.

Please ensure you refer to the list of exclusions.

1. NCEPOD. (2004) The NCEPOD Classification of Intervention.[Online] Available from: <http://www.ncepod.org.uk/pdf/NCEPODClassification.pdf>. [Accessed 13th November 2015].

The hospital does not have an accident and emergency facility

The following patient types are excluded from admission

1. Any patient with acute/sudden onset chest pain
2. Patients with acute/sudden unstable cardiac problems, ie unstable angina
3. Acute haematemesis or gastrointestinal (GI) bleed
4. Patients in acute stage of neurological disorder, ie cerebral vascular accident (CVA), status epilepticus
5. Paediatric emergencies
6. Patients with alcohol problems and substance abusers for detox – management of substance dependency for purpose of detox including alcohol
7. All patients requiring in-patient psychiatric treatment
8. Any patients already requiring or whose condition could mean they require ventilation in intensive care
9. Patients with notifiable contagious conditions transmitted by airborne or social contact routes
10. Patients who require long-term hospital admission and have no onward care arrangements
11. Acute head injury
