## Emergency and medical admissions

Call **0131 334 0363** for Murrayfield or **0131 654 5600** for Shawfair Park and ask for the nurse in charge. Please note, as a day-case facility, Shawfair Park Hospital has an estimated closing time of 10pm. If required, patients will be re-admitted to Murrayfield Hospital. We will aim to call you back within 20 minutes to update you on the progress of the admission. **Please note neither of our hospitals have accident and emergency facilities.**

# About Spire Edinburgh Hospitals

Since 1984 Spire Edinburgh Hospitals have been delivering outstanding healthcare in the east of Scotland. We work with leading consultant physicians and surgeons to offer an extensive suite of services for diagnosing and treating a wide range of conditions. We have two hospitals conveniently located with Murrayfield Hospital in the west side of Edinburgh and Shawfair Park in the east side of Edinburgh. Both of our hospitals are easily accessible to main motorways and public transportation.

Facilities over our two hospitals include:

#### Murrayfield Hospital

- 60 private rooms
- 15 consulting rooms
- Oncology
- Health assessment centre
- Four theatres
- Onsite imaging (including MRI and CT)
- Onsite laboratory
- Onsite pharmacy
- Physiotherapy gym

#### Shawfair Park Hospital

- 13 day beds
- 7 consulting rooms
- Cardiac catheterisation lab
- Spire Eye Centre
- Two theatres
- Onsite imaging
- Onsite pharmacy
- Physiotherapy gym

Across both sites there is a diverse range of both outpatient clinics and surgical procedures carried out across all specialities including:

- Mako – robotic assisted hip and knee surgery
- Laser and refractive eye surgery
- Weight loss service
- Oncology
- Rapid access clinics
- Endoscopy
- Sports and exercise medicine
- Advanced level physiotherapy services
- Health assessments and screening
- Extensive range of diagnostic imaging

# How to refer your patients

You can refer your patient to Spire Edinburgh Hospitals by:

## Online SCI Gateway

<b>Calling</b> GP Hotline (for GPs and practice staff only)	<b>0131 316 2552</b>
OP appointments	<b>0131 316 2530</b>
Admissions	<b>0131 316 2510</b>
Self-pay	<b>0131 316 2507</b>
<b>Faxing</b>	<b>0131 316 2561</b>

## SCI Gateway

All of our specialties are visible under Murrayfield and Shawfair drop-downs for ease of navigation. In addition, we have included sub specialties where relevant.

If you are a GP from a health board other than Lothian you can refer your patients to us in the following way:

- Click on the new message option and change the health board from your local health board to Lothian.
- From the drop down menu, select Murrayfield or Shawfair Park Hospital.
- Choose the specialty that you are looking for and then you are able to create a basic referral.

Ideally it is our preference to receive your referral letter in advance of offering patient appointments. Once we receive the SCI Gateway or referral letter we will contact your patient by telephone to arrange a suitable appointment.

If you have advised your patient to contact us directly for an appointment, your referral letter should be sent to us within three working days in the event that there are early appointments available. Although always appreciated, GP referrals are

not always necessary for patients who choose to self-fund. However, following the consultation, the consultant may request additional information from your practice.

Referrals can be 'Dear Dr' or named. For Dear Dr referrals we will determine the most appropriate consultant with the next available appointment. To refer to a specific consultant, please use this directory as guidance or visit our website where full profiles on each consultant can be found.

[www.spireedinburgh.com](http://www.spireedinburgh.com)

If your patient has medical insurance we will ask for their insurance policy details and ask them to notify their insurers. Patients who are self-funding can also be referred using SCI Gateway.

## Insured patients

Scheme/policy details are required at the time of booking an out-patient appointment and it is important your patient contacts their insurers to obtain authorisation.

## Self-funding patients

We can provide a tailored fixed price\* with no hidden extras on a range of diagnostic tests, treatments and surgical procedures. For information call our Self-Pay Team on **0131 316 2507**.

\* Prices vary per treatment and are dependent on each patient's individual circumstances and needs.

## GP educational events

Spire Edinburgh Hospitals provide free consultant-led GP education programmes. All our events count towards your annual Continued Professional Development (CPD).

Our programmes are developed in response to GP requests as it is our aim to make all talks informative and useful to you in your daily practice.

### GP Educational Events

You can now register for our Edinburgh events online via the following:

[www.spiregpedinburgh.eventbrite.co.uk](http://www.spiregpedinburgh.eventbrite.co.uk)

If you would like any further information about our events, please email [gpscotland@spirehealthcare.com](mailto:gpscotland@spirehealthcare.com) or call **0131 316 2504**.

### In-practice education

We are able to facilitate training to meet the educational needs of GPs and practice staff by providing in-practice training sessions.

Our complimentary service includes:

- A date and time arranged at your convenience
- Wide range of clinical and non-clinical topics
- Breakfast/lunch/light supper
- CPD points and certificates

For more information, email [gpscotland@spirehealthcare.com](mailto:gpscotland@spirehealthcare.com) or phone **0131 316 2504**.

### GP Educational Events – 2019 Dates for your diary

Events at Marriott Hotel, Glasgow Road, Edinburgh:	
Tuesday 15 January	6.30pm for 7pm – 9pm
Saturday 2 February	9am for 9.30am – 12.30pm
Thursday 14 March	6.30pm for 7pm – 9pm
Wednesday 24 April	6.30pm for 7pm – 9pm
Tuesday 20 August	6.30pm for 7pm – 9pm
Saturday 28 September	9.30am for 10am – 5pm (full day conference)
Thursday 21 November	6.30pm for 7pm – 9pm
Events at Balbirnie House, Glenrothes:	
Wednesday 3 April	6.30pm for 7pm – 9pm
Wednesday 4 September	6.30pm for 7pm – 9pm

For more information on topics/speakers and to register visit:

[www.spiregpedinburgh.eventbrite.co.uk](http://www.spiregpedinburgh.eventbrite.co.uk)

Patients without private medical insurance, or coverage, can pay for their own private treatment.

Guide prices for a number of our procedures are available on our website [www.spireedinburgh.com](http://www.spireedinburgh.com). Alternatively, contact the Self-pay team on **0131 316 2507**. After a medical assessment, we'll confirm an individually tailored fixed price\* which will cover the operation, consultants' fees, clinical care, accommodation, medication, after-care, the follow-up appointment and further treatment that may arise due to complications.\* It excludes any consultations and tests required before patients come in for treatment.

For more information contact the Self-pay team on **0131 316 2507** or [info@spireedinburgh.com](mailto:info@spireedinburgh.com) or [www.spireedinburgh.com](http://www.spireedinburgh.com)

### **Funding your treatment – finance options**

Paying for private treatment is simple. If you don't have private medical insurance you can self-fund or take advantage of interest free finance or an interest bearing loan, so you don't have to wait for treatment. For further information contact our Self Pay team on **0131 316 2507**.

\* Spire's patient terms and conditions set out the basis upon which patients are provided with treatment at Spire Edinburgh Hospitals and should be referred to for full detail of what is included and excluded from fixed price treatment. You can find a copy of our terms and conditions at [www.spirehealthcare.com/contact-us/terms-and-conditions](http://www.spirehealthcare.com/contact-us/terms-and-conditions). If you would like us to send a copy of the terms and conditions to you please call us on 0131 316 2507 or email [info@spireedinburgh.com](mailto:info@spireedinburgh.com).

Prices correct at November 2018. Flexible payment plans available. Prices subject to change without notice.

## A

### Allergy

#### Dr J Darroch

Clinical immunology

### Audiology

#### Mr J Allen

Audiologist and hearing aid dispenser. Paediatric and adult diagnostic audiology, a full rehabilitative service including assessment, fitting and purchase of digital hearing aids, tinnitus and hyperacusis management, supply and fitting of all customised ear plugs

## B

### Breast surgery

#### Dr D Kulkarni

Management of breast disease and breast oncoplastic reconstruction

#### Mr A Mustafa

Breast cancer and benign breast disease, specially breast conserving surgery and reconstructive procedures. Hernia surgery including Laparoscopic hernia repair. Laparoscopic Surgery

#### Mr G T Neades

Medical and surgical management of all breast diseases, including cancers. Particular interest in reconstructive and oncoplastic procedures

#### Mr O Young

Management of benign breast diseases including breast pain. Breast cancer management including oncoplastic and reconstructive surgery. Management of screen-detected disease and those with a family history of breast cancer

## C

### Cardiology

#### Dr M Behan

General cardiology, interventional cardiology and stenting, pacemakers, valve disease, palpitations, hypertension, syncope, cardiac risk assessment and cholesterol management

#### Dr M Dweck

Cardiology, arrhythmia (electrophysiology), atrial fibrillation, coronary artery disease, echocardiography, hypertension, stroke prevention, vascular medicine, valvular heart disease, MI prevention

#### Dr D Elder

Arrhythmia, pacemaker, ablation, atrial fibrillation, defibrillator, ICD, syncope, SVT, tachycardia, pacemaker, collapse, cardiac resynchronisation, rhythm problems

#### Dr A D Flapan

General cardiology and accurate diagnosis. Over 25 years experience as a consultant. Interest in all areas of cardiology except ablation. Welcomes referrals with chest pain, breathlessness, syncope, palpitation and hypertension for diagnosis and treatment

#### Dr P Henriksen

General cardiology, coronary disease and interventional cardiology, CT coronary angiography, cardiovascular risk assessment and hypertension

#### Dr A J Jacob

General cardiology, angina, hypertension and syncope

#### Dr C Lang

Palpitations, blackouts, atrial fibrillation, arrhythmias, radio frequency ablation, pacemakers, implantable defibrillators (ICD), cardiac resynchronisation therapy devices

#### Dr J Spratt

Angina, hypertension, coronary artery disease, cardiovascular risk assessment, coronary CT, complex coronary interventions, heart muscle disease, chronic total occlusions

#### Prof N Uren

General cardiology, interventional cardiology, including transcatheter valve therapies, cardiovascular risk management, hypertension, CT coronary angiography

### Cardiothoracic surgery

#### Prof V Zamvar

Coronary artery surgery, off-pump coronary artery surgery, total arterial revascularisation, aortic valve surgery, tavi, video assisted thoroscopic surgery, adult thoracic surgery, lung cancer

### Colorectal

#### Mr D N Anderson

Colorectal surgery, endoscopy, coloproctology

#### Mr A J Clark

Minimally invasive colorectal surgery for cancer, inflammatory bowel and benign disease

#### Miss M Collie

Rectal bleeding, incontinence, prolapse, colonoscopy, benign and malignant colorectal disease

#### Mr M Duff

Colonoscopy, coloproctology (including HALO), laparoscopic colorectal surgery for benign and malignant disease, complex pelvic cancer surgery, hernia repair

#### Mr B J Mander

Colonoscopy, colorectal cancer, constipation, incontinence, haemorrhoids, hernia repair, minimally invasive colorectal surgery, HALO, haemorrhoidectomy

## Mr M Potter

All aspects of colorectal surgery including colonoscopy, colorectal cancer, rectal bleeding, fissure, fistula, haemorrhoids (incl HALO) incontinence, prolapse, minimally invasive (eg keyhole) surgery and hernia repair. Complex pelvic surgery (eg endometriosis)

## Mr R G Wilson

Laparoscopic surgery for colorectal cancer, inflammatory bowel disease including ileo-anal pouch procedure and diverticular disease. Abdominal hernia surgery. Management of fistula, fissure, haemorrhoids and pilonidal disease. Colonoscopy – diagnostic and therapeutic

## Continence

### Mr A Alhasso

Reconstructive and functional urology: urethral stricture disease, male urinary incontinence (artificial urinary sphincter and male sling surgery), female urinary incontinence (urethral slings, tapes, bulking agent injections and colposuspension). Bladder dysfunction (idiopathic and neuropathic overactive bladder dysfunction) – botulinum toxin injection and neurimodulation (SNS and PTNS). Urinary diversion surgery, functional bladder studies – Video-Urodynamics (Videocystometry)

General urology: Peno-scrotal surgery (circumcision, hydrocele repair, epididymal cyst excision, prosthetic testicular implantation) and male family planning – vasectomy. Prostatic disease (prostate surgery and GreenLight laser prostatectomy)

### Miss P V Granitsiotis

Female urology, stress urinary incontinence, overactive bladder syndrome/incontinence, recurrent urinary tract infections, female urinary retention, bladder pain/Interstitial cystitis, bladder problems in neuropathic patient (spinal problems, MS etc), urodynamics. General urology including haematuria and benign prostate problems

### Mr K Janjua

Prostatic symptoms, haematuria, UTIs, overactive bladder, incontinence, female urology and urodynamics

### Dr S Kallat

Female urinary incontinence, vaginal prolapse and pelvic floor dysfunction, menstrual dysfunction, menopause HRT and post menopausal problems, fibroids etc

### Dr S C Nicholson

Urogynaecology. Surgery for prolapse and urinary incontinence. Urodynamics. Menstrual problems and pelvic pain. Laparoscopic surgery including laparoscopic hysterectomy and laparoscopic removal of ovarian cysts. Colposcopy

### Mr L H Stewart

Female and reconstructive urology (urogynaecology), urethral stricture surgery, laser prostatectomy. General urology which includes kidney, ureter, bladder, prostate, urethra, penis, testicles, foreskin and scrotum

## Cosmetic lasers

### Mr K Al-Nakib

Hair removal only  
Appointments: 0131 316 2507

## D

## Dermatology

### Prof A D Burden

General dermatology, inflammatory skin disease, moles, skin cancer

### Dr S Fraser

General dermatology and skin cancer. Does not see children

### Dr S A Holme

General dermatology, acne, dermatitis, psoriasis, hyperhidrosis, moles, skin cancer and skin cancer surgery

### Dr M Mowbray

General dermatology, hair and nail disease, moles and skin cancer

### Dr M J Tidman

Medical dermatology, dermatological oncology, paediatric dermatology, general dermatology

## Dietitian

### Ms M Kaplan

Medical nutrition therapy and behaviour change management focusing on those with metabolic syndrome, diabetes and obesity. Areas of expertise also include: gastrointestinal diseases, oncology, antenatal eating plans and nutrition for sports performance

### Miss C McAnenny

Clinical nutrition, including management of obesity diabetes, IBS, coeliac disease and any gastrointestinal disorders resulting in nutritional issues. All aspects of liver nutrition including metabolic syndrome and the management of patients with fatty liver or liver cirrhosis. Also the therapeutic management of patients that are malnourished and have a MUST score of 2 or above

### Dr F Pender

Clinical nutrition, including management of overweight and obesity, diabetes and the metabolic syndrome, underweight and pre-surgical patients, all aspects of renal nutrition. Eating disorders, cancer, allergy and specialist therapeutic inventions, together with dietary analysis form a routine caseload

## E

## Endocrinology

### Dr K Adamson

Endocrinology and diabetes mellitus, parathyroid disease, pituitary disease and thyroid disease

### Dr A Jaap

All aspects of diabetes management, general endocrinology and thyroid disease

### Prof J McKnight

All aspects of diabetes, assessment and management of cardiovascular risk, general endocrinology

### Dr A Toft

Thyroid, parathyroid, adrenal and pituitary diseases except diabetes

## ENT

### Mr R Adamson

Neck lumps, swallowing problems, voice problems, thyroid disease, salivary gland disease, head and neck cancers, ear wax removal

### Mr M W J Armstrong

Adult/paediatric ENT, deafness, snoring/obstructive sleep apnoea/ sleep studies, voice/throat disorders, nasal difficulties, hearing/ balance issues and allergy

### Mr D Baring

Tertiary teaching hospital practice working in the Edinburgh ENT group specialising in ear surgery, balance and paediatrics as well as a general ENT practice in rhinology and head and neck work, ear wax removal

### Mr A M D Bennett

Adult and paediatric otolaryngology including nasal blockage, allergic rhinitis, sinusitis, ear infections, glue ear, cholesteatoma, hearing loss, tinnitus and vertigo

### Mr A Evans

Assessment of throat, neck, voice and swallowing disorders. Expert assessment of neck lumps

### Dr M L Montague

All aspects of ear, nose and throat, airway and head and neck surgery in children and young people from birth to 18 years. Specialist Paediatric Audiologist input available at clinic for children aged three and over with hearing problems

### Mr S J Moralee

Diseases and disorders of the nose and sinuses, allergy and endoscopic sinus surgery. Voice and swallowing disorders. Hearing loss, dizziness and wax removal. Paediatric ENT

### Mr A Williams

Nasal problems, sinus disease, balloon sinuplasty, rhinoplasty, extended applications of endoscopic sinus surgery (lacrimal surgery, orbital decompression, anterior skull base), nasal and sinus malignancy, ear wax removal

## G

## Gastroenterology

### Dr I Arnott

Interests include inflammatory bowel disease, irritable bowel syndrome, functional gut problems and iron deficiency anaemia

### Dr N Church

Upper endoscopy, colonoscopy, ERCP, abdominal pain, IBS, reflux symptoms, medical pancreatology, autoimmune pancreatitis, IgG4 disease

### Dr C H Fraser

Refractory acid reflux, LPR, swallowing difficulty, nausea, dyspepsia, constipation and evacuatory problems, diarrhoea, IBS, bloating, food intolerance and bacterial overgrowth, breath testing, anaemia, rectal bleeding, bowel cancer screening, removal of bowel polyps, small bowel diseases, endoscopy (gastroscopy, TNE, colonoscopy, capsule endoscopy, Stretta procedure, DBE)

### Dr C Lees

Inflammatory bowel disease, endoscopy, colonoscopy

### Dr A J MacGilchrist

Liver and biliary disease

### Dr C Noble

Endoscopy and colonoscopy, irritable bowel syndrome and functional GI disease, Inflammatory bowel disease

### Dr I Penman

Endoscopy, Barrett's oesophagus and upper GI cancer, pancreaticobiliary disorders and EUS, colonoscopy, functional bowel disorders

### Dr A Shand

Coeliac disease, nutrition, malnutrition, colonoscopy, endoscopy, inflammatory bowel disease, short bowel syndrome

### Dr K C Trimble

Upper GI endoscopy and colonoscopy. Oesophageal physiology tests. Hydrogen breath tests for SIBO and lactose intolerance. Oesophageal disorders, dyspepsia, functional GI disorders, inflammatory bowel disease, investigation of iron deficiency anaemia

### Dr A Williams

Irritable bowel syndrome, inflammatory bowel disease, alcohol liver disease, endoscopy

## General medicine

### Dr K Adamson

Endocrinology and diabetes mellitus, parathyroid disease, pituitary disease and thyroid disease

### Dr A Coull

General medicine, stroke medicine, medicine of the elderly

### Prof A T Hill

Airways disease and respiratory infection in particular COPD, bronchiectasis, pneumonia and tuberculosis

### Dr A Jaap

All aspects of diabetes management, general endocrinology and thyroid disease

### Prof C Leen

Infectious diseases, vaccines, blood borne viruses infection, Lyme disease, chronic fatigue

### Prof J McKnight

All aspects of diabetes, assessment and management of cardiovascular risk, general endocrinology

### Dr K Skwarski

General respiratory medicine including chronic shortness of breath and hyperventilation assessment. COPD including novel treatment for emphysema with endobronchial valves (EBLVR), chronic cough, lung cancer – screening, diagnosis and staging, asthma, chronic respiratory infections, screening for sleep apnoea

### Dr A Toft

Thyroid, parathyroid, adrenal and pituitary diseases except diabetes

### Dr J A Wilson

Wide ranging medical problems in particular musculoskeletal problems not amenable to surgery. Also Parkinsons disease

## GP (Private)

### Dr C Russell

All aspects of general practice, lifestyle and preventative medicine, mental health

## General surgery

### Mr D N Anderson

Colorectal surgery, endoscopy, coloproctology

### Mr G G P Browning

Gall bladder, hernia, thyroid, parathyroid surgery, laparotomy

### Mrs P Burns

One stop varicose vein clinic, minimally invasive treatment of varicose veins, claudication, carotid artery disease, aortic aneurysms

### Mr J Casey

Inguinal hernia repair, umbilical hernia repair, laparoscopic inguinal hernia repair, gallstones, laparoscopic and open cholecystectomy, management of common bile duct stones, minor surgery (skin lesions)

### Mr R T A Chalmers

Varicose veins, aortic aneurysm, carotid artery disease, peripheral arterial disease, endoscopic thoracic sympathectomy, vibration white finger/hand arm vibration syndrome

### Mr A J Clark

Minimally invasive colorectal surgery for cancer, inflammatory bowel and benign disease

### Miss M Collie

Rectal bleeding, incontinence, prolapse, colonoscopy, benign and malignant colorectal disease

### Mr A C de Beaux

Open and laparoscopic hernia surgery including large/complex incisional hernia, gallstone disease and laparoscopic cholecystectomy, gastro-oesophageal reflux disease, endoscopy and hiatal hernia surgery, weight loss or bariatric surgery, investigation and management of abdominal pain, minor surgery including skin lesions and in growing toe nail surgery

### Mr P J Driscoll

Laparoscopy/minimal access surgery, gallbladder removal/ gallstones, hernia surgery, sportsman's groin, heartburn/reflux, difficulty swallowing

### Mr M Duff

Colonoscopy, coloproctology (including HALO), laparoscopic colorectal surgery for benign and malignant disease, complex pelvic cancer surgery, hernia repair

### Dr D Kulkarni

Management of breast disease and breast oncological reconstruction

### Mr P Lamb

Gallstone disease and laparoscopic cholecystectomy, laparoscopic hernia surgery, upper gastrointestinal surgery including anti-reflux surgery, endoscopy, weight loss surgery, minor surgery

### Mr B J Mander

Colonoscopy, colorectal cancer, constipation, incontinence, haemorrhoids, hernia repair

### Mr J A Murie

Medical reports relating to vascular disease and its management (including hand-arm vibration syndrome, Raynaud's disease and deep vein thrombosis) for medical defence organisations, and solicitors and insurers handling claims for personal injury and/or medical negligence. He does not accept clinical referrals

### Mr A Mustafa

Breast cancer and benign breast disease, specially breast conserving surgery and reconstructive procedures. Hernia surgery including laparoscopic hernia repair. Laparoscopic surgery

### Mr G T Neades

Medical and surgical management of all breast diseases, including cancers. Particular interest in reconstructive and oncoplastic procedures

### Mr M Potter

All aspects of colorectal surgery including colonoscopy, colorectal cancer, rectal bleeding, fissure, fistula, haemorrhoids (incl HALO) incontinence, prolapse, minimally invasive (keyhole) surgery and hernia repair. Complex pelvic surgery (eg endometriosis)

### Mr R Ravindran

Gallbladder surgery, pancreato-biliary surgery, liver surgery, laparoscopic surgery, chronic pancreatitis

### Mr Z Raza

Minimally invasive varicose vein surgery, claudication management, aortic, carotid and limb bypass surgery. Vascular access surgery

### Mr A Tambyraja

Varicose veins, peripheral vascular disease, circulatory disorders, Raynaud's disease, hand-arm vibration syndrome

### Mr R G Wilson

Laparoscopic surgery for colorectal cancer, inflammatory bowel disease including ileo-anal pouch procedure and diverticular disease. Abdominal hernia surgery. Management of fistula, fissure, haemorrhoids and pilonidal disease. Colonoscopy – diagnostic and therapeutic

## Gynaecology

### Dr R Cochrane

Non surgical gynaecology. Contraception, pelvic pain, menopause, sexual health and unplanned pregnancy

### Dr P J Dewart

Endometriosis and pelvic pain, abnormal vaginal bleeding, laparoscopic surgery (endometriosis, laparoscopic hysterectomy, laparoscopic removal of ovaries and cysts), hysteroscopic surgery (endometrial ablation, transcervical resection intrauterine fibroids), treatment of prolapse (pessaries, physiotherapy, vaginal hysterectomy and pelvic floor repair), benign vulval conditions and medico-legal reports

### Dr S Kallat

Female urinary incontinence, vaginal prolapse and pelvic floor dysfunction, menstrual dysfunction, menopause HRT and post menopausal problems, fibroids etc

### Dr T Mahmood

Infertility and recurrent pregnancy loss, menstrual problems and endometrial ablation, laparoscopic treatment of endometriosis and chronic pelvic pain, benign vulval disorders, reversal of sterilisation, HRT problems, pelvic organ prolapse surgery

### Dr C Martin

All laparoscopic surgery including management of heavy periods, oncology, ovarian cysts and general gynaecology including post menopausal bleeding. Endometriosis management. Accredited in gynaecology oncology and colposcopy. No prolapse

### Dr S C Nicholson

Urogynaecology. Surgery for prolapse and urinary incontinence. Urodynamics. Menstrual problems and pelvic pain. Laparoscopic surgery including laparoscopic hysterectomy and laparoscopic removal of ovarian cysts. Colposcopy

### Dr S M Rane

Menstrual disorders, menopause and prolapse

### Dr F Rodger

Reproductive medicine, infertility, menstrual problems, vulval problems, menopause, colposcopy, and general gynaecology. Does not do any urogynaecology. Does not see patients who are pregnant

### Dr K J Thong

Assisted conception, male and female infertility, reproductive endocrinology, menopause, contraception, miscarriage, egg donation treatment, endometriosis, polycystic ovary syndrome, menstrual problems, hysteroscopy and general gynaecology

## H

### Haematology

#### Dr M Drummond

Anaemia and other blood count abnormalities, haematological diagnosis, haemochromatosis, myeloproliferative disease, anticoagulation therapy

### Hand surgery

#### Mr P Addison

Hand surgery including Dupuytren's disease, ganglions, carpal and cubital tunnel syndrome

#### Mr H Bahia

Botox, fillers, rhinoplasty, eyelid surgery, breast surgery (augmentation, reduction, reconstruction), body contouring (abdominoplasty, liposuction), correction of prominent ears/split earlobes, scar revision, mole removal including skin cancer

#### Mrs D Davidson

All aspects of adult hand and wrist surgery. Special interests include Dupuytren's disease, carpal tunnel syndrome, arthritis, tendon problems, reconstruction

#### Mr S A Hamilton

Cosmetic surgery of face, breast and body. Special interest in body contouring post weight loss. Botox, chemical peels, and fillers. Skin cancer including reconstruction. Soft tissue hand surgery

#### Ms J McEachan

Carpal tunnel syndrome, Dupuytren's disease, trigger finger, nerve compression syndromes in the upper limb, arthritis, hand, wrist and elbow trauma, complications of trauma in the upper limb, sports injury

#### Mr S Molyneux

Carpal tunnel syndrome surgery, joint manipulation treatment, joint pain treatment (joint injections), soft tissue release, nerve release, degenerative hand, wrist and elbow conditions. Hand, wrist, forearm and elbow injuries. Wrist and hand pain. Sports injuries and fractures

#### Miss P Rust

All orthopaedic and plastic surgery for hand and wrist conditions. special interests include carpal tunnel, trigger finger, hand and wrist arthritis, Dupuytren's, wrist pain including TFCC tear and arthroscopic surgery

## I

### Immunology

#### Dr J Darroch

Clinical immunology

## L

### Laser and refractive eye surgery

#### Mr S Mantry

Cornea, laser refractive, cataract including multifocal and Toric IOL, general ophthalmology including glaucoma patients

#### Mr J Ross

Specialist in cataract surgery in routine and complex situations. Laser eye surgery, vision correction surgery, complete range of standard and premium lens implants. Eyelid surgery

## N

### Neurology

#### Dr R J Davenport

Headache, movement disorders (including Parkinson's disease and ataxia), epilepsy, myasthenia gravis/motor neuron disease

#### Dr C Neumann

General neurology, headache, epilepsy, multiple sclerosis

## Neurosurgery

### Mr A Demetriades

Facial pain/Trigeminal Neuralgia. Back and neck pain assessment. Minimally invasive, and, motion preservation treatments. All 'simple' and complex spinal conditions (degenerative, trauma, tumour, infection, deformity) of all ages. Sciatica/claudeication/back pain/leg pain/arm pain/neck pain. Disc prolapse/spinal stenosis/spondylolisthesis. Cervical discectomy/disc replacement. Disc arthroplasty. Lumbar microdiscectomy. Spinal fusion. Minimally invasive spine surgery. Revision spine surgery. Radiofrequency for pain. General neurosurgery: Brain tumours, CSF disorders, peripheral nerve, chiari, trauma

### Mr I Fouyas

Complex intracranial surgery (cerebrovascular and skull base), surgical treatment of trigeminal neuralgia, cervical pathologies (disc disease/degeneration), peripheral nerve entrapment, lumbar pathologies (disc disease/spinal stenosis) including spinal tumours

### Mr J Kandasamy

Degenerative spinal conditions, lumbar spine related pain, cervical spine related pain, vertebral disc replacements, minimally invasive techniques, endoscopic neurosurgery, hydrocephalus, spasticity, brain and spine tumours, facial pain, carpal tunnel syndrome, epilepsy surgery, paediatric neurosurgery, brain tumours, spinal dysraphism

### Mr S Khan

Spinal surgery

### Mr I Liaquat

Neuro-oncology/low grade gliomas, adult spinal disorders, back and neck pain, cervical and lumbar radiculopathy/stenosis, degenerative spinal disease, headaches/facial pain, general neurosurgery and hydrocephalus

### Miss L Myles

Spinal surgery, back and neck pain, sciatica, congenital spinal abnormalities, hydrocephalus, brain tumours, carpal tunnel syndrome

### Mr D Sokol

Adult spinal disorders, back/neck pain, sciatica, degenerative spine surgery, spine fusion, disc replacement, leg and back pain, spinal cord stimulation, peripheral nerve surgery, endoscopic neurosurgery, brain and spine tumours

### Mr P Statham

Pituitary, skull base tumours, complex spinal surgery and sports injuries

## O

## Oncology

### Clinical oncology

#### Dr D McLaren

Radiotherapy and chemotherapy including specialist drug therapies such as immunotherapy and targeted anti cancer drugs for prostate cancer and bladder cancer. Prostate Seed Brachytherapy including seed boosts for higher risk disease. Prostate Stereotactic Body Radiotherapy (SBRT) and Intensity Modulated Radiotherapy (IMRT). Clinical trials

#### Dr I Nixon

Head and neck cancers, base of skull tumours and soft tissue and bone sarcomas

#### Dr F Yuille

Treatment of breast cancer

#### Dr M Zahra

Gynaecological, colorectal and pancreatic malignancies

### Medical oncology

#### Dr O Oikonomidou

Breast cancer, chemotherapy, systemic treatment of breast cancer

## Ophthalmology

#### Dr P Agarwal

Small incision sutureless cataract surgery (Phacoemulsification) and complex cataract surgery, glaucoma expert. All types of glaucoma lasers and surgery including minimally invasive glaucoma surgery

#### Dr A Agrawal

Phacoemulsification cataract surgery and intraocular lens implantation. Cornea and external eye disease

#### Dr H G B Bennett

Cataracts, including complex cataract surgery, surgical and medical retinal disease, general ophthalmology patients including lid cysts (NOT Paediatrics, plastics, orbital disease, squints, double vision)

#### Dr P Koay

Phacoemulsification cataract surgery and intraocular lens implantation. Cornea and external eye disease. Dry eye disease and ocular surface disorders. Pterygium and conjunctival autograft

#### Mr S Mantry

Cornea, laser refractive, cataract including multifocal and Toric IOL, general ophthalmology including glaucoma patients

## Dr A O Mulvihill

Paediatric ophthalmology, adult strabismus (squint) and double vision problems including surgical and non-surgical treatments. Medical report. (Not cataract surgery)

## Mr J Ross

Specialist in cataract surgery in routine and complex situations. Laser eye surgery, vision correction surgery, complete range of standard and premium lens implants. Eyelid surgery

## Dr C Schmoll

Phacoemulsification cataract surgery, adult general ophthalmology, paediatric ophthalmology and paediatric squint surgery

## Mr A Tatham

Cataract surgery, advanced lens technology, glaucoma surgery, minimally invasive glaucoma surgery, trabeculectomy, glaucoma laser surgery, Xen, iStent

## Dr M R Wright

Small incision cataract surgery and non cosmetic oculoplastic surgery

## Oral and maxillofacial surgery

### Mr E B Larkin

Dentoalveolar surgery, salivary gland surgery, facial trauma, head and neck oncology

### Mr M D Paley

Dentoalveolar surgery, salivary gland surgery, facial trauma, oral pathology/medicine, head and neck lumps/cancers

## Orthopaedics

### Mr C I Adams

Orthopaedic trained spinal surgeon. Assessment, injection and surgery of the spine: including lumbar, thoracic, cervical and coccyx regions. Includes spine deformity such as scoliosis and kyphosis

### Mr I Ahmed

Hip and knee replacement surgery including revision (redo surgery). Robotic surgery. Sports injuries. Knee arthroscopy. Medico-legal

### Mr A Amin

All aspects of knee surgery. All aspects of foot and ankle surgery

### Mr I D M Brown

Upper limb orthopaedic problems. This includes shoulder pain including rotator cuff pathology, dislocations, scapula muscle dysfunction, AC joint instability and pain, nerve problems. Elbow and hand pathology and sports injuries

### Mr R Burnett

Primary knee and hip replacement, revision knee replacement, knee arthroscopy

## Mr R Clayton

All surgery of the foot and ankle. Bunion correction, arthritis of the foot and ankle, Morton's neuroma, sports injuries, ankle instability, heel pain, minimally invasive (keyhole) foot and ankle surgery

## Mr J Cowie

Arthroscopy, foot surgery, hip surgery, hip revision surgery, knee surgery, soft tissue injuries, sports injury, osteoarthritis. Medico-legal

## Mrs D Davidson

All aspects of adult hand and wrist surgery. Special interests include Dupuytren's disease, carpal tunnel syndrome, arthritis, tendon problems, reconstruction

## Mr M Gaston

Paediatric orthopaedics (upper and lower limb). Foot and ankle surgery. Arthroscopic knee surgery

## Mr P Gaston

Hip joint surgery, including hip replacement, revision hip replacement, hip arthroscopy, open surgery around the hip including osteotomy, knee joint surgery, including knee replacement and knee arthroscopy

## Mr J F Keating

Knee surgery including arthroscopic knee surgery, knee ligament reconstruction, mosaicplasty and high tibial osteotomy, total knee replacement and lower limb sports injuries in general

## Mr G M Lawson

Hip and knee replacement surgery, arthroscopic knee surgery, knee ligament reconstruction and sports injuries

## Mr G Macpherson

Hip and knee replacement including revision surgery, knee arthroscopy, high tibial osteotomy, partial knee replacement, robotic surgery (Mako), PRP joint injections

## Miss J M McBirnie

Shoulder arthroscopy and reconstruction, total shoulder replacement/revision surgery and reverse geometry total shoulder replacement. Knee arthroscopy

## Ms J McEachan

Carpal tunnel syndrome, Dupuytren's disease, trigger finger. Nerve compression syndromes in the upper limb. Arthritis. Hand, wrist and elbow trauma. Complications of trauma in the upper limb. Sports injury

## Mr J McKinley

All foot and ankle pathology including arthritis, sports injuries, minimally invasive surgery of the forefoot, arthroscopy, bunion correction, achilles pain and heel pain

## Mr S Molyneux

Carpal tunnel syndrome surgery, joint manipulation treatment, joint pain treatment (joint injections), soft tissue release, nerve release, degenerative hand, wrist and elbow conditions. Hand, wrist, forearm and elbow injuries. Wrist and hand pain. Sports injuries and fractures

## Mr M Moran

Primary and revision hip and knee replacement, partial knee replacement, arthroscopy, sports and soft tissue injuries, osteoarthritis, trauma surgery

### Mr R W Nutton

Knee and shoulder disorders, sports injuries

### Mr J T Patton

Hip and knee replacement, revision, knee surgery and arthroscopy, infection, musculoskeletal tumour surgery and robotically assisted joint replacement

### Mr J Reid

Shoulder and elbow surgery including arthroscopy (keyhole), rotator cuff repair, frozen shoulder, stabilization and joint replacements. Fracture management, post-traumatic reconstruction, and management of fracture complications

### Mr C M Robinson

Shoulder, elbow and hand problems, including trauma, arthritis and soft-tissue disorders

### Miss P Rust

All orthopaedic and plastic surgery for hand and wrist conditions. Special interests include carpal tunnel, trigger finger, hand and wrist arthritis, Dupuytren's, wrist pain including TFCC tear and arthroscopic surgery

### Mr H Shalaby

Foot and ankle surgery including ankle replacement, minimally invasive surgery, bunion surgery, deformity correction and sports related injuries

### Mr S Sharma

Upper limb surgery (shoulder, elbow, wrist and hand), upper limb sports and soft tissue injuries and shoulder arthroscopy

### Mr P Simpson

Hip and knee replacement surgery including revision. Sports and soft tissue injuries. Knee arthroscopy. Robotic assisted hip and knee replacement surgery

### Mr A Stirrat

Upper limb and hand surgery, arthroscopic surgery of shoulder and elbow, upper limb trauma, peripheral nerve injury

### Mr F A Wade

Hip and knee replacement surgery, knee arthroscopy and ligament surgery, robotic partial knee replacement

## Orthoptics

### Miss V Laidlaw

Paediatric orthoptics-strabismus, amblyopia, adult orthoptics-strabismus, ocular motility defects, double vision

## P

## Paediatrics

For Paediatrics see Children and Young People's Service on page 21

## Pain management

### Mr A Demetriades

Facial pain/Trigeminal Neuralgia: 360 assessment with options in pharmacotherapy, minimally invasive treatment, microvascular decompression.

Back and neck pain assessment: exploration of non surgical options. For sciatica, brachialgia or radicular pain: non-surgical diagnostic and therapeutic injections, nerve root block, transforaminal epidural, dorsal root ganglion block. For axial/mechanical pain: as per NICE guidelines, diagnostic medial branch facet blocks, radiofrequency rhizolysis, denervation.

Minimally invasive and motion preservation treatments. All 'simple' and complex spinal conditions (degenerative, trauma, tumour, infection, deformity) of all ages. Spinal fusion. Revision spine surgery

### Dr C Grice

Chronic pain, back pain, post surgical pain, pain in the elderly

### Dr K Sachane

Chronic back pain, neck and arm pain, headaches/migraines, sciatica, neuropathic pain, coccydynia, CRPS, fibromyalgia, post surgical pain, knee pain, shoulder pain, pain in elderly, pain medicine, peripheral nerve pain, Injection therapies USG and x-ray guided

### Dr A V G Stewart

Pain medicine

### Dr J A Wilson

All types of chronic pain, pelvic pain and post-surgical pain

## Plastic surgery

For Plastic surgery appointments call 0131 316 2507

### Mr P Addison

Skin cancer, skin lesions, reconstructive plastic surgery, facial paralysis surgery, hand surgery (including Dupuytren's disease, ganglions, carpal and cubital tunnel syndrome)

### Mr W Anderson

Plastic and aesthetic surgery of the face and body, laser rejuvenation

### Mr H Bahia

Botox, fillers, rhinoplasty, eyelid surgery, breast surgery (augmentation, reduction, reconstruction), body contouring (abdominoplasty, liposuction), correction of prominent ears/split earlobes, scar revision, mole removal including skin cancer

### Mr M Butterworth

Aesthetic breast surgery, reconstructive breast surgery, skin malignancy, facial aesthetic surgery, body contouring surgery including abdominoplasty and liposuction and rhinoplasty surgery

### Mrs D Davidson

All aspects of adult hand and wrist surgery. Special interests include Dupuytren's disease, carpal tunnel syndrome, arthritis, tendon problems, reconstruction

### Mr S A Hamilton

Cosmetic surgery of face, breast and body, special interest in body contouring post weight loss, botox, chemical peels, and fillers, skin cancer including reconstruction, soft tissue hand surgery

### Ms E Majdak-Paredes

Breast augmentation, augmentation-mastopexy, breast reduction, gynaecomastia, correction of breast asymmetry, breast revision surgery (capsular contracture, implant removal etc.), abdominoplasty (men and women), liposuction, cosmetic fat transfer, anti-wrinkle treatment by injection, arm reduction/lift, inverted nipple surgery, skin cancer removal, cosmetic mole removal, labial reduction, scar revision, thigh lift and other aspects of general plastic surgery

### Mr A Quaba

Cosmetic surgery of the face, breasts and trunk, liposuction, benign and malignant lesions (One-stop Clinic)

### Mr O Quaba

Non-surgical treatments such as Botulinum toxin and filler, cosmetic breast surgery (augmentation, reduction, gynaecomastia), rhinoplasty, eyelid surgery, facelift, body contouring (abdominoplasty, liposuction), labiaplasty, all aspects of skin cancer removal/reconstruction, benign skin lesions

### Mr C Raine

All aspects of cosmetic surgery (facial rejuvenation, eye rejuvenation, nose reshaping, cosmetic breast surgery, tummy tuck, liposuction) and non surgical cosmetic treatments (Botox, dermal fillers). Skin cancer surgery

### Mr K Stewart

Particular interest in aesthetic surgery for face, ears, body contouring, breast

## Psychiatry

### Dr J Ferguson

Recurrent depression, bipolar disorders, anxiety disorders, autistic spectrum disorders

### Dr T Rogers

General adult psychiatry, especially depression, anxiety, OCD, psychiatric aspects of medical illnesses, complex medical-legal assessment

## Psychology

### Dr N Frazer

Adult mental health

### Mrs C Sutherland

Plastic surgery, weight loss surgery, adult mental health

### Dr A Tulloh

Individual psychological therapy for adults with common mental health problems including anxiety disorders, depression, childhood trauma, relationship problems, obesity and complicated bereavement. Therapies offered include CBT, CAT, EMDR and IPT

### Dr K Watt

Individual psychological therapy for adults with a range of mental health problems including anxiety disorders, depression, low self-esteem, PTSD, interpersonal problems and childhood trauma. Therapies offered include CBT, CAT and EMDR

## R

## Radiology

For Radiology appointments call 0131 316 2539

### Dr I Beggs

All aspects of musculo-skeletal imaging including ultrasound, MRI and interventional procedures

### Dr D Brown

Uroradiology, GI radiology, oncology imaging

### Dr J P Brush

Uroradiology, GI radiology, prostate cancer, renal cancer, colon cancer, oncology imaging

### Dr J Downer

Neuroradiology

### Dr J Foley

Musculoskeletal radiology

### Dr L Hill

Breast radiology

#### Dr M Jones

General ultrasound, plain film reporting, CT and MRI scanning (including cardiac and chest imaging)

#### Dr S Kealey

General neuroradiology, head and neck radiology

#### Dr J Keanie

Uroradiology – all aspects including stone disease and cancer, interventional radiology, general surgical imaging, oncological imaging

#### Dr P M Keston

Neurovascular interventional procedures, spinal intervention including vertebroplasty

#### Dr G Lip

Breast radiology

#### Dr P MacLean

Oncology, abdominal imaging and intervention

#### Dr S McKie

Musculo-skeletal imaging and sports radiology

#### Dr G McKillop

Musculoskeletal and general radiology (including cardiac imaging)

#### Prof J T Murchison

Chest and CT scanning

#### Dr D K B Patel

Ultrasound, CT, MRI, radionuclide imaging including PET/CT

#### Dr F Perks

Musculoskeletal imaging including image guided therapeutic procedures

#### Dr A Sharma

Breast imaging, including ultrasound, mammograms and MRI breast, along with ultrasound and stereotactic biopsies, and wire localisations

#### Dr M E Smith

Breast radiology

#### Dr D M Summers

Brain and spinal imaging, ENT imaging

#### Dr J Walker

Transabdominal and transvaginal pelvic ultrasound, dating pregnancy ultrasound, hysterosalpinography

#### Dr B M Ward

Breast radiology, guided biopsy, pre and post surgical imaging, head and neck, thyroid

#### Dr G Weir

Interventional, radiology, MRA, CTA, Duplex Selective Internal Radiation Therapy (SIRT), radioembolisation, TACE

## Respiratory medicine

#### Prof A T Hill

Airways disease and respiratory infection in particular COPD, bronchiectasis, pneumonia and tuberculosis

#### Dr C Ramsay

Respiratory medicine, asthma, COPD, airway disease, lung infections

#### Dr K Skwarski

General respiratory medicine including chronic shortness of breath and hyperventilation assessment, COPD including novel treatment for emphysema with endobronchial valves (EBLVR), chronic cough, lung cancer – screening, diagnosis and staging, asthma, chronic respiratory infections, screening for sleep apnoea

## Rheumatology

#### Dr H Harris

Diagnosis and treatment of early arthritis. Use of ultrasound in the rheumatology clinic. Psoriatic arthritis and rheumatoid arthritis. Fibromyalgia. Lupus, Sjogren's syndrome and other autoimmune conditions. Osteoporosis

#### Dr C M Lambert

Inflammatory joint/connective tissue disease including RA, Ankylosing spondylitis, Psoriatic arthritis, SLE. Soft tissue and degenerative rheumatic diseases

#### Dr N McKay

Assess and treat all aspects of clinical rheumatology. Including ultrasound imaging expertise to assess joint pain, inflammatory arthritis, connective tissue disease, RA, ankylosing spondylitis, psoriatic arthritis, lupus, osteoarthritis, sjogrens, arteritis

#### Dr E R McRorie

The diagnosis and management of inflammatory arthritis including early inflammatory disease, rheumatoid arthritis, psoriatic arthritis, ankylosing spondylitis, connective tissue diseases and gout. Osteoarthritis and soft-tissue rheumatism

## S

### Spinal surgery

#### Mr C I Adams

Orthopaedic trained spinal surgeon. Assessment, injection and surgery of the spine: including lumbar, thoracic, cervical and coccyx regions. Includes spine deformity such as scoliosis and kyphosis

#### Mr A Demetriades

Facial pain/Trigeminal Neuralgia. Back and neck pain assessment. Minimally invasive, and, motion preservation treatments. All 'simple' and complex spinal conditions (degenerative, trauma, tumour, infection, deformity) of all ages. Sciatica/claudeication/backpain/leg pain/arm pain/neck pain. Disc prolapse/spinal stenosis/spondylolisthesis. Cervical discectomy/disc replacement. Disc arthroplasty. Lumbar microdiscectomy. Spinal fusion. Minimally invasive spine surgery. Revision spine surgery. Radiofrequency for pain. General neurosurgery: Brain tumours, CSF disorders, peripheral nerve, chiari, trauma

#### Mr I Fouyas

Complex intracranial surgery (cerebrovascular and skull base), surgical treatment of trigeminal neuralgia, cervical pathologies (disc disease/degeneration), peripheral nerve entrapment, lumbar pathologies (disc disease/spinal stenosis) including spinal tumours

#### Mr S Khan

Spinal surgery

#### Mr J Kandasamy

Degenerative spinal conditions, lumbar spine related pain, cervical spine related pain, vertebral disc replacements, minimally invasive techniques, endoscopic neurosurgery, hydrocephalus, spasticity, brain and spine tumours, facial pain, carpal tunnel syndrome, epilepsy surgery, paediatric neurosurgery, brain tumours, spinal dysraphism

#### Mr I Liaquat

Neuro-oncology/low grade gliomas, adult spinal disorders, back and neck pain, cervical and lumbar radiculopathy/stenosis, degenerative spinal diseases, headaches/facial pain, general neurosurgery and hydrocephalus

#### Miss L Myles

Spinal surgery, back and neck pain, sciatica, congenital spinal abnormalities, hydrocephalus, brain tumours, carpal tunnel syndrome

#### Mr D Sokol

Adult spinal disorders, back/neck pain, sciatica, degenerative spine surgery, spine fusion, disc replacement, leg and back pain, spinal cord stimulation, peripheral nerve surgery, endoscopic neurosurgery, brain and spine tumours

#### Mr P Statham

Pituitary, skull base tumours, complex spinal surgery and sports injuries

### Sports and exercise medicine

#### Dr J A Wilson

Wide ranging medical problems in particular musculoskeletal problems not amenable to surgery. Also Parkinsons disease

## T

### Thyroid and parathyroid surgery

#### Mr R Adamson

Neck lumps, swallowing problems, voice problems, thyroid disease, salivary gland disease, head and neck cancers

#### Mr G G P Browning

Gall bladder, hernia, thyroid, parathyroid surgery, laparotomy

## U

### Upper GI and gallstones

#### Mr G G P Browning

Gall bladder, hernia, thyroid, parathyroid surgery, laparotomy

#### Mr J Casey

Inguinal hernia repair, umbilical hernia repair, laparoscopic inguinal hernia repair, gallstones, laparoscopic and open cholecystectomy, management of common bile duct stones, minor surgery (skin lesions)

#### Mr A C de Beaux

Open and laparoscopic hernia surgery including large/complex incisional hernia, gallstone disease and laparoscopic cholecystectomy, gastro-oesophageal reflux disease, endoscopy and hiatal hernia surgery, weight loss or bariatric surgery, investigation and management of abdominal pain, minor surgery including skin lesions and in growing toe nail surgery

#### Mr P J Driscoll

Laparoscopy/minimal access surgery, gallbladder removal/gallstones, hernia surgery, sportsman's groin, heartburn/reflux, difficulty swallowing

#### Mr P Lamb

Gallstone disease and laparoscopic cholecystectomy, laparoscopic hernia surgery, upper gastrointestinal surgery including anti-reflux surgery, endoscopy, weight loss surgery, minor surgery

#### Mr R Ravindran

Gallbladder surgery, pancreato-biliary surgery, liver surgery, laparoscopic surgery, chronic pancreatitis

## Urology

### Mr A Alhasso

Reconstructive and functional urology: urethral stricture disease, male urinary incontinence (artificial urinary sphincter and male sling surgery), female urinary incontinence (urethral slings, tapes, bulking agent injections and colposuspension). Bladder dysfunction (idiopathic and neuropathic overactive bladder dysfunction) – Botulinum toxin injection and neurimodulation (SNS and PTNS). Urinary diversion surgery, functional bladder studies – Video-Urodynamics (Videocystometry).

General urology: Peno-scrotal surgery (circumcision, hydrocele repair, epididymal cyst excision, prosthetic testicular implantation) and male family planning - vasectomy. Prostatic disease (prostate surgery and GreenLight laser prostatectomy)

### Mr P Bollina

Prostate cancer, bladder cancer, prostate screening

### Mr R Donat

Testis and penile disease, male infertility, andrology, reversal vasectomy, vasectomy and testosterone deficiency, general urology, UTI and haematuria

### Miss P V Granitsiotis

Female urology, stress urinary incontinence, overactive bladder syndrome/incontinence, recurrent urinary tract infections, female urinary retention, bladder pain/interstitial cystitis, bladder problems in neuropathic patient (spinal problems, MS etc), urodynamics. General urology including haematuria and benign prostate problems

### Mr K Janjua

Prostatic symptoms, haematuria, UTIs, overactive bladder, incontinence, female urology and urodynamics

### Mr P Mariappan

Bladder cancer, prostate cancer, haematuria, pelvic surgery, prostate and bladder problems, urinary infections, day-case surgery

### Prof S A McNeill

Prostate disease (BPH, prostatitis, prostate cancer) including green light laser ablation of the prostate, laparoscopic surgery for kidney and prostate cancer

### Mr I D C Mitchell

Prostate disease, bladder cancer, inguino-scrotal surgery

### Mr S Phipps

Urinary stone disease (flexible ureteroscopy, laser and percutaneous stone surgery, lithotripsy), BPH and Green Light Laser Prostatectomy, laparoscopic surgery for kidney cancer and PUJ obstruction, local anaesthetic vasectomy

### Mr CJ Shukla

Andrology, male genito-urethral reconstruction, general urology. Testis and penile disease, male infertility, andrology, reversal vasectomy, vasectomy and testosterone deficiency

### Mr L H Stewart

Female and reconstructive urology (urogynaecology), urethral stricture surgery, laser prostatectomy. General urology which includes kidney, ureter, bladder, prostate, urethra, penis, testicles, foreskin and scrotum

### Mr D Tolley

Endourology, urinary stone disease, prostatic symptoms, investigation of haematuria and urinary infection, scrotal swellings

### Mrs R J S Webber

Kidney and bladder stone disease, haematuria, urinary tract infection, vasectomy, hydrocoele, epididymal cyst, circumcision, benign prostate disease, prostate cancer, bladder cancer, testicular cancer

## V

## Vascular

### Mrs P Burns

One stop varicose vein clinic, minimally invasive treatment of varicose veins, claudication, carotid artery disease, aortic aneurysms

### Mr R T A Chalmers

Varicose veins, aortic aneurysm, carotid artery disease, peripheral arterial disease, endoscopic thoracic sympathectomy, vibration white finger/hand arm vibration syndrome

### Mr J A Murie

Medical reports relating to vascular disease and its management (including Hand-Arm Vibration Syndrome, Raynaud's disease and deep vein thrombosis) for medical defence organisations, and solicitors and insurers handling claims for personal injury and/or medical negligence. He does not accept clinical referrals

### Mr Z Raza

Minimally invasive varicose vein surgery, claudication management, aortic, carotid and limb bypass surgery. Vascular access surgery

### Mr A Tambyraja

Varicose veins, peripheral vascular disease, circulatory disorders, raynaud's disease, hand-arm vibration syndrome

## W

### Weight loss surgery

#### Mr A C de Beaux

Weight loss/bariatric surgery, including the assessment, surgery and post-surgical care of laparoscopic gastric bands, Roux-en Y and mini gastric bypass, sleeve gastrectomy, and endoscopic gastric balloon

---

#### Mr P Lamb

Weight loss/bariatric surgery, including the assessment, surgery and post-surgical care of laparoscopic gastric bands, Roux-en Y and mini gastric bypass, sleeve gastrectomy, and endoscopic gastric balloon

---

#### Mr B Tulloh

Weight Loss (Obesity) surgery

---

**Spire** Edinburgh Hospitals  
Children and Young People's Service

## Children and Young People's Service

- Will see birth - 3 year olds in out-patient clinic
- ▲ Will see 3 - 12 year olds in out-patient clinic
- ◆ Will see 13 - 16 year olds in out-patient clinic
- Will operate on 3 - 12 year olds as day-case
- ⊕ Will operate on 13 - 16 year olds

## Cardiology

**Dr A J Jacob** ◆

General cardiology, angina, hypertension and syncope

## Dermatology

**Dr S A Holme** ▲ ◆

General dermatology, acne, dermatitis, psoriasis, hyperhidrosis, moles, skin cancer and skin cancer surgery

**Dr M Mowbray** ▲ ◆

General dermatology, hair and nail disease, moles and skin cancer

**Dr M J Tidman** ● ▲ ⊕

Medical dermatology, dermatological oncology, paediatric dermatology, general dermatology

## ENT

**Mr M W J Armstrong** ● ▲ ◆ ■ ⊕

Adult/paediatric ENT, deafness, snoring/obstructive sleep apnoea/ sleep studies, voice/throat disorders, nasal difficulties, hearing/ balance issues and allergy

**Mr D Baring** ● ◆ ⊕

Tertiary teaching hospital practice working in the Edinburgh ENT group specialising in ear surgery, balance and paediatrics as well as a general ENT practice in rhinology and head and neck work, ear wax removal

**Mr A M D Bennett** ● ▲ ◆ ■ ⊕

Adult and paediatric otolaryngology including nasal blockage, allergic rhinitis, sinusitis, ear infections, glue ear, cholesteatoma, hearing loss, tinnitus and vertigo

**Dr M L Montague** ● ▲ ◆ ■ ⊕

All aspects of ear, nose and throat, airway and head and neck surgery in children and young people from birth to 18 years. Specialist Paediatric Audiologist input available at clinic for children aged 3 and over with hearing problems

**Mr S J Moralee** ◆ ⊕

Paediatric hearing assessment. Nose and sinus problems, allergy. Tonsil, adenoid and grommet surgery

## Gastroenterology

**Dr D J Mitchell** ● ▲ ■ ◆ ⊕

Paediatrics and paediatric gastroenterology, hepatology and nutrition

## General Surgery

**Mr O Young** ◆ ⊕

Management of benign breast diseases including breast pain. Breast cancer management including oncoplastic and reconstructive surgery. Management of screen-detected disease and those with a family history of breast cancer

## Neurosurgery

**D J Kandasamy** ● ▲ ◆

Degenerative spinal conditions, lumbar spine related pain, cervical spine related pain, vertebral disc replacements, minimally invasive techniques, endoscopic neurosurgery, hydrocephalus, spasticity, brain and spine tumours, facial pain, carpal tunnel syndrome, epilepsy surgery, paediatric neurosurgery, brain tumours, spinal dysraphism

## Ophthalmology

**Dr A O Mulvihill** ● ▲ ■ ◆ ⊕

Paediatric ophthalmology, adult strabismus (squint) and double vision problems including surgical and non-surgical treatments. Medical report. (Not cataract surgery)

**Dr C Schmolz** ● ▲ ■ ⊕

Phacoemulsification cataract surgery, adult general ophthalmology, paediatric ophthalmology and paediatric squint surgery

## Oral and maxillofacial surgery

**Mr E B Larkin** ◆ ⊕

Dentoalveolar surgery, salivary gland surgery, facial trauma, head and neck oncology

**Mr M D Paley** ◆ ⊕

Dentoalveolar surgery, salivary gland surgery, facial trauma, oral pathology/medicine, head and neck lumps/cancers

## Orthopaedics

### Mr C I Adams ●▲●

Orthopaedic trained spinal surgeon. Assessment, injection and surgery of the spine: including lumbar, thoracic, cervical and coccyx regions. Includes spine deformity such as scoliosis and kyphosis

### Mr A Amin ●+

All aspects of knee surgery. All aspects of foot and ankle surgery

### Mr R Clayton ●+

All surgery of the foot and ankle. Bunion correction, arthritis of the foot and ankle, Morton's neuroma, sports injuries, ankle instability, heel pain, minimally invasive (keyhole) foot and ankle surgery

### Mr M Gaston ●▲■●+

Paediatric orthopaedics (upper and lower limb). Foot and ankle surgery, arthroscopic knee surgery

### Mr P Gaston ●+

Hip joint surgery, including hip replacement, revision hip replacement, hip arthroscopy, open surgery around the hip including osteotomy, knee joint surgery, including knee replacement and knee arthroscopy

### Miss J M McBirnie ●+

Shoulder arthroscopy and reconstruction, total shoulder replacement/revision surgery and reverse geometry total shoulder replacement. Knee arthroscopy

### Mr J McKinley ●▲■●+

Foot and ankle surgery for children (not babies)

### Mr H Shalaby ●+

Foot and ankle surgery including ankle replacement, minimally invasive surgery, bunion surgery, deformity correction and sports related injuries)

## Paediatric surgeons

### Mrs M C Clark ●▲■●+

Paediatric surgery, urology and colorectal

### Mr F D Munro ●▲■●+

Paediatric general surgery, paediatric minimal access surgery, GI surgery, surgical oncology, thoracic surgery in children

## Plastic surgeons

### Mr P Addison ●▲■●+

Birthmarks, trauma, burns, prominent ears, skin lesions and cysts

### Mr K Stewart ●▲■●+

Expertise includes paediatric plastic surgery including ear deformations, prominent ears, skin lesions and birthmarks

## Physiotherapy

## Diagnostic imaging (MRI, CT, X-ray, Ultrasound, Mammography)

Imaging services are available at both Spire Murrayfield and Shawfair Park Hospitals and cover a wide range of both diagnostic and therapeutic interventions.

The department carries out all general CT work including cardiac, facet joint injection, CT guided biopsy and virtual colonography.

All images are archived along with the radiology report to the Hospital Picture Archiving Communication System (PACS). The PACS system includes voice activated reporting which assists the consultant radiologist with a fast turnaround of results.

Imaging procedures are performed by registered radiographers or consultant radiologists.

We aim to provide a rapid access service for many examinations across our sites and often same day appointments are available.

Referral for imaging should be requested in writing. GPs can refer patients to either Murrayfield or Shawfair Park Hospitals depending on the patient needs via Sci Gateway or by fax.

### Murrayfield Imaging Department for ultrasound and plain film imaging

Telephone: **0131 316 2539**

Fax: **0131 316 2597**

#### For CT and MRI

Telephone: **0131 316 2593**

Fax: **0131 316 2544**

MRI including cardiac, breast and angiography

CT

Plain film imaging

Fluoroscopy including HSG, arthrography, urology and barium

Ultrasound including US guided biopsy, FNA and therapeutic injection

Mobile x-ray

Digital mammography (contact health screening)

### Shawfair Imaging Department for ultrasound and plain film imaging

Telephone: **0131 654 5600**

Fax: **0131 654 5624**

Plain film imaging

Fluoroscopy including HSG, arthrography, urology and barium

Ultrasound including US guided biopsy, FNA and therapeutic injection

Mobile x-ray

Cardiac Cath Lab
