Spire Elland Hospital continues to invest in state-of-the-art technology

Reveal LINQ Insertable Cardiac Monitoring System

Dr Jeremy Butts, Consultant Cardiologist has introduced to Spire Elland Hospital a new cardiac monitoring system, which allows us to continuously monitor your heart rhythm for up to three years.

Close monitoring offers the ability to diagnose people who have abnormal heart rhythm problems, which present intermittently and can otherwise be difficult to detect.

Text messaging reminder service

You've got better things to do than remember your next appointment, so remember to sign up to our text messaging reminder service.

For more information, please speak to a member of our reception team at the hospital.

If you would like to sign up to this service you will need to do so in person, as you will need to sign a form giving us consent to contact you. Please note, this service is only available for appointments at Spire Elland Hospital.

Great coffee without caffeine

We are now offering decaf coffee from our dining room vending machine.
