

## Spire GP Interface (SGPi) – User Guides

### Quick look – Pathology referral (Record of Appointment)

Please note: The pathology request form must still be completed on the usual Spire paper form.

The option within SGPi allows you to make note of the tests you requested. This may facilitate any follow up calls you have to make once results have been received:

The screenshot shows a web interface for a pathology referral. At the top, there is a teal button labeled "Pathology referral". Below this is a navigation bar with three tabs: "Record of appointment", "Pathology request", and "Referral list". The "Pathology request" tab is active. In the top right corner of the form area, there are two buttons: "Save" and "Save & close pathology referral". Below the navigation bar is a text input field labeled "Pathology tests requested".

Please note, that in each of the referrals you have these two options:

It is important that you save regularly and select the correct option to continue your work flow.

Printing information for each document:

Pathology – This does not prompt a print out and is only included in the referral list for your own notes.
