Guide prices for one-off private treatment

Patients without medical insurance, or with exclusions, can pay for their own private treatment with the reassurance of a price that's fixed in advance.

These are guide prices for some of the most frequently performed procedures. After a medical assessment, we'll confirm an individually tailored fixed price which will cover the operation, consultants' fees, nursing care, accommodation, physiotherapy, medication, after-care, a follow-up appointment and further treatment that may arise due to complications.* It excludes any consultations and tests required before patients come in for treatment
