

Spire

Little Aston Hospital

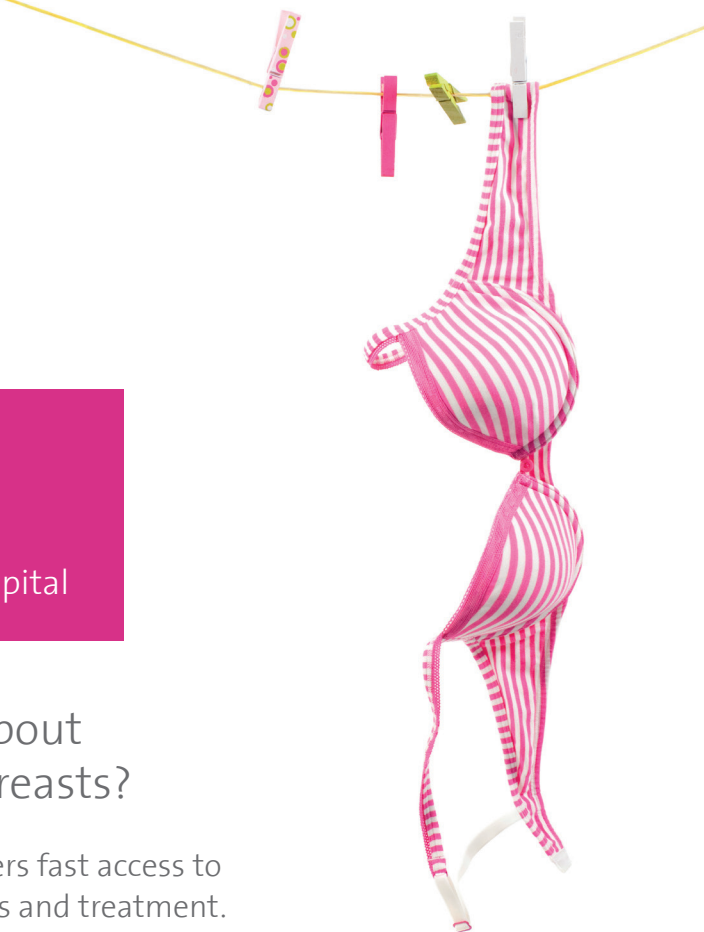

Breast Care Clinic

at Spire Little Aston Hospital

Are you worried about
changes to your breasts?

Our Breast Care Clinic offers fast access to
breast experts, diagnostics and treatment.

Looking after you.

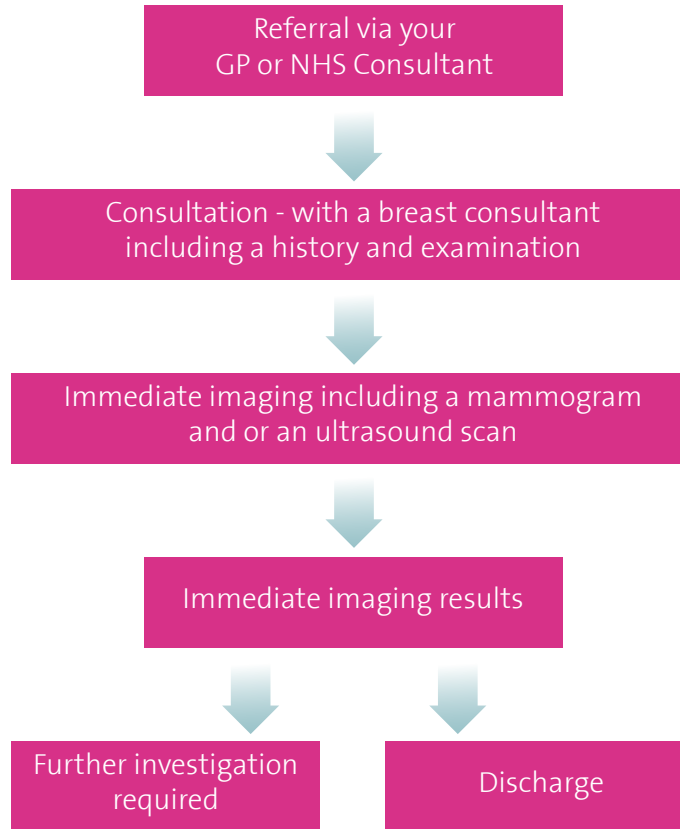

A rapid assessment and immediate results at the Spire Little Aston Breast Care Clinic

Your appointment

Once you've been referred we can arrange an appointment for you within 72 hours. During your appointment, you'll have a consultation with a breast surgeon to discuss your concerns and receive a thorough examination and medical history. We'll perform diagnostic investigations such as a mammogram, ultrasound scan and biopsy. You can expect the appointment to last for around 2 hours. Results are available quickly, often on the same day.

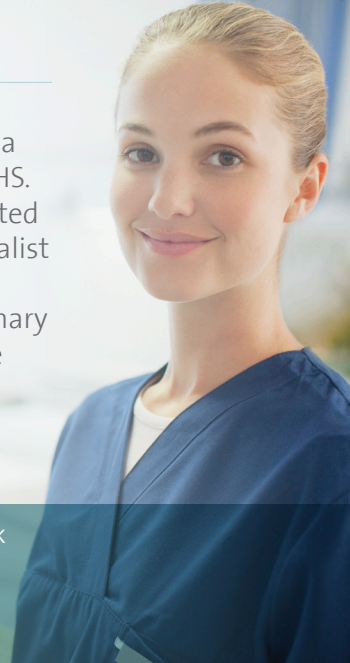

Appointments are usually available within 72 hours

Our breast experts

You'll be seen by a Consultant Surgeon, who is recognised as a breast specialist within the NHS. The Consultant will be supported by an experienced nurse specialist in breast care and a team of radiologists. This multidisciplinary team will provide the ultimate care for you, in our spotlessly clean and comfortable private hospital.

For more information or to book an appointment, contact us: **0121 580 7119** or email info@spirelittleaston.com

“ Thanks to the specialist breast nurse – nothing was too much trouble and she provided help and encouragement throughout ”
