## About Spire Nottingham Hospital

At Spire Healthcare we are committed to delivering excellent individual care and customer service to all our patients, from the time they first get in touch with us until after their treatment is complete. Our dedicated and highly trained people aim to consistently achieve excellent results, in a safe and secure environment. For us it's more than just treating patients, it's about looking after people, and the safety of our patients and colleagues is our number one priority.

### It's our people that really set us apart

We know that you insist on the highest standards of care for the patients who put their trust in you, and you can be sure that our team will continue that care. For us it's more than just treating patients, it's about giving patients, their family and friends the most positive experience we possibly can in our hospital.

### Our consultants

Every consultant working at Spire Nottingham Hospital is on the specialist register of the General Medical Council and has met our practising privileges criteria. We know continuity of care is important. Once a patient has chosen his or her consultant, we will make sure that he or she is looked after by the same consultant, from the first appointment and throughout all treatment and follow-up care.

### Our nursing staff

All our nurses are highly qualified and dedicated to caring for patients in a professional manner. For

ultimate reassurance, we have a fully trained clinical team equipped to deal with medical emergencies 24 hours a day.

### All the facilities you'd expect and more

- Our 42 private rooms are set in pleasant surroundings and all have satellite television, free wifi access and personal nurse call system

In addition to our private rooms, we offer:

- Critical care unit (level 3)
- 23 consulting rooms
- 4 laminar flow operating theatres, including one hybrid theatre
- A JAG accredited endoscopy suite
- 3 outpatient procedure rooms
- Multiple outpatient testing and treatment rooms
- On-site CSSD – decontamination and sterilisation department
- Paediatric services for children from birth and surgery for children from three years
- Parent and child rooms
- One-stop breast clinic
- Pharmacy
- CPA accredited pathology service

### Emergency Contact

Call **0115 937 7771** and ask for the nurse in charge. The hospital **does not** have an accident and emergency facility.

# How to refer your patients

At Spire Nottingham we are committed to delivering excellent individual care and customer service to all our patients, from the time they first get in touch with us until after their treatment is complete. Our dedicated and highly trained people aim to consistently deliver excellent patient care, in a safe and secure environment. We work to ensure every patient is treated as if they were our own vulnerable relative.

## Self-funding patients

Self-funding patients are able to be seen by a consultant without a GP referral, although a letter is often preferred. We can provide a tailored fixed price inclusive care package\* with no hidden extras on a range of diagnostic tests, treatments and surgical procedures. For more information, please call our Self-pay team on **0115 937 7735**.

- 1 Use Spire Connect to upload the referral letter. Call **0115 937 7735** if you have any queries.
- 2 Our team will contact your patient to discuss consultants, dates, times and pricing.
- 3 We'll update you on your patients' progress.

## Patients with private medical insurance

A referral letter is generally required from you before any insured patient can be seen by a consultant. Patients can call our bookings team on **0115 937 7736** to arrange a convenient appointment.

- 1 Use Spire Connect to refer your patient. All patients using private insurance will need a referral letter.
- 2 Our team will contact your patient to discuss consultants, times and dates.
- 3 Your patient needs to contact their insurer to make sure they are covered for their appointment to see their chosen consultant.
- 4 We'll update you on your patients' progress.

## NHS referrals

Spire Nottingham Hospital provides a range of elective surgical services on behalf of the NHS. You may refer patients to Spire Nottingham Hospital under the NHS choice regulations. Full details of the services provided can be found on, and referrals must be made via, the NHS eReferral system.

## Referral letters

Referral letters can be:

- Submitted online at <https://spireconnect.spirehealthcare.com/>
- Emailed to: [nottinghamselfpaypsc@spirehealthcare.com](mailto:nottinghamselfpaypsc@spirehealthcare.com)  
[nottinghamoutpatientspsc@spirehealthcare.com](mailto:nottinghamoutpatientspsc@spirehealthcare.com)  
[Spirenottinghamdiagnosticimaging@spirehealthcare.com](mailto:Spirenottinghamdiagnosticimaging@spirehealthcare.com)

# Self-pay treatment

For help in arranging self-funded consultations and treatment, including guide prices for investigations and surgery, please ask patients to contact our self-pay team on:

Phone: **0115 937 7735**  
Email: [nottinghamselfpaypsc@spirehealthcare.com](mailto:nottinghamselfpaypsc@spirehealthcare.com)

Our fixed price packages\* offer the following benefits:

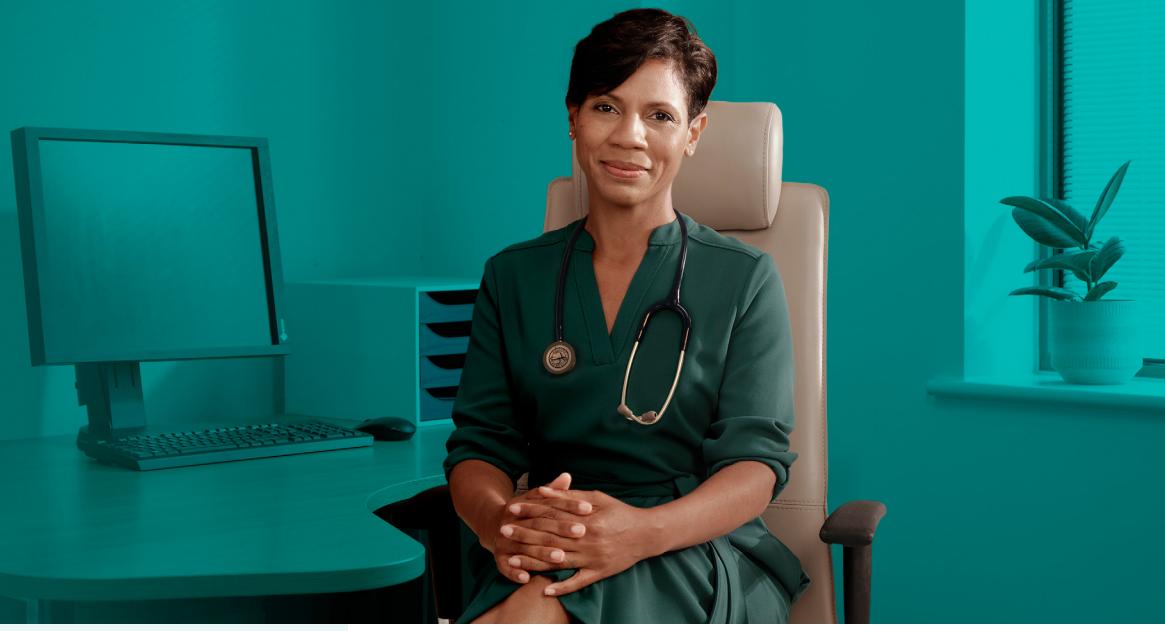

- Fast access to leading consultants
- Treatment dates to suit the patient
- Personalised support and care

Typical treatments that can be self-funded:

- Cataract surgery
- CT, MRI and ultrasound scans
- Endoscopy procedures
- Hernia repair
- Knee, hip, or shoulder surgery
- Varicose vein treatment

Finance payment options are available for patients who wish to spread the cost of their treatment.

\*Please see a copy of Spire Healthcare's patient terms and conditions for full details. Prices vary per treatment and are dependent on each patient's individual circumstances and needs.

# Primary healthcare online referral guide

Spire Connect enables practice staff to log in and send secure, instant online referrals to Spire Healthcare hospitals for self-funding and PMI patients. The system is designed to be as simple and efficient as possible, while protecting all confidential information within secure servers. It's our people that really set us apart.

Visit <https://spireconnect.spirehealthcare.com> or click on Spire Connect from the GP information and resources tab on our website.

## GP registration

When you access Spire Connect for the first time you will be required to register a few personal details to allow you access to the site and grant you permission to make referrals.

## Making a referral

To make a referral click on the 'Make an online referral' link and complete all relevant details. The referrals for each patient will need to come from the GP making the referral.

## Imaging and other referral types

You can make referrals for radiological investigations by selecting 'Radiology' under the specialty list. To make a referral for physiotherapy, podiatry, dietetics, psychology etc, select one of these from under 'Allied Health Professionals' in the specialty list.

## Attaching patient notes

It is possible to attach patient notes to the form, however the ease of this will depend on your own patient record software. Take a look at the options available in your software to see if records can be 'exported' or 'saved as' to your desktop. Then from there you can attach them to this form. You will need to save the notes in a common format such as a text or word document (.rtf, .pdf, .doc, .txt), a spreadsheet (.xls or .csv) or an image format (eg .bmp, .jpg). Then click the 'send referral' button at the bottom of the page to submit the referral.

# Primary healthcare professional education

We provide regular primary care conferences and evening seminars, which take the form of lectures, Q&As, demonstrations and clinical case presentations by our specialist consultants.

Our events are **free of charge** and are generally evening or half-day sessions to provide flexibility to you.

## How to find out about our events

Search '**Spire Nottingham GP Education**'

All of our events are published on Eventbrite where you can book a place. Please note that these events are first come, first served so please book on as soon as possible.

To view our current events, please search '**Spire Nottingham Eventbrite**' or visit:

# Primary healthcare professional support

Spire Nottingham's onsite teams offer prompt and friendly assistance for GPs and primary care professionals to help you in looking after your patients.

## Primary Healthcare Relationship Manager

Our Primary Healthcare Relationship Manager is responsible for liaising with GP practices and other primary care professionals. Their role is to familiarise you with our services and consultants and to make it as easy as possible for your patients to be seen and treated at Spire Nottingham Hospital.

The Primary Healthcare Relationship Manager can be contacted on:

Email: [spireprimarycare-eastmidshub@spirehealthcare.com](mailto:spireprimarycare-eastmidshub@spirehealthcare.com)

# Clinics and services

## Cardiology and cardiac

Spire Nottingham Hospital has a dedicated Cardiology and cardiac service, for all your heart's needs. We offer a range of tests, scans and procedures performed by consultant cardiologists, cardiac physiologists, cardiac nurses and cardiac surgeons for adults and under 18's.

Our experienced staff will ensure your visit to us is as convenient and comfortable as possible. We will provide advice, guidance and support at every stage and will explain what tests we are going to do, how long they will take, what you can expect and the costs.

### Outpatients heart tests and scans include:

- Ambulatory 24 hour blood pressure monitor
- Cardiac CT
- Cardiac MRI
- Dobutamine stress echocardiogram
- ECG monitoring or event recorder
- Echocardiogram
- Electrocardiogram (ECG)
- Exercise tolerance test (ETT)
- Implantable linq device

### Theatre heart procedures include:

- Ablation of arrhythmia
- Cardioversion
- Coronary angiogram
- Coronary angioplasty
- Coronary artery bypass surgery (heart bypass)
- Heart valve replacement
- Left atrial appendage (LAA)
- Pacemaker/defibrillator
- Patent foramen ovale closure
- Transcatheter Aortic Valve Insertion (TAVI)
- Transoesophageal echocardiogram (TOE)

---

**Appointments: 0115 937 7801**

**Cardiology team:**

## Imaging

At Spire Nottingham Hospital, we offer fast access to a range of diagnostic services. Our highly qualified and experienced staff are supported by the latest scanning and equipment to enhance and support diagnostics. We offer flexible appointments and fast reporting. We have specialist Consultant Radiologists on hand to report as soon as possible.

### CT imaging services include:

- Cardiac
- Colonography
- General and Musculoskeletal
- Interventional (injections)
- Neurological imaging
- Vascular

### MRI imaging services include:

- All MRI (including neurological imaging, biliary and small bowel)
- Cardiac MR
- MPMRI (Multiparametric Prostate Imaging)
- Neurological imaging

### Ultrasound imaging services include:

- General & Musculoskeletal
- Interventional including injections/aspirations and biopsies
- Vascular ultrasound (arterial and venous doppler)
- TA/TV
- Pediatrics

### Interventional procedures include:

- Fibroid embolisation and varicocele
- Peripheral artery angioplasty

### Fluoroscopy examinations include:

- Barium swallows
- HSGs

---

**Appointments: 0115 937 7730**

# Reclaim your mobility with robotic precision

Spire Nottingham Hospital is proud to offer VELYSTM robotic-assisted technology, adding a new level of precision and accuracy for total knee replacement surgery. Offering the control of a highly skilled consultant coupled with pioneering robotic technology, you could expect:

- More accurate implant alignment
- Valuable insights and optimised patient outcomes
- Less pain compared to traditional methods
- Reduced length of hospital stay

Walk away from knee pain with the future of joint replacements today.

# Directory listings

## A

### Allergy

#### Dr Alexandra Croom

Anaphylaxis, angioedema, latex allergy, mast cell activation syndrome, IgE-mediated food allergy, seasonal and perennial allergic rhinitis and urticarial conditions.

## B

### Breast surgery

#### Mr Amit Goyal

Breast cancer surgery, breast enlargement (augmentation), breast lift (mastopexy), breast reconstruction, breast reduction, breast reduction for men (gynaecomastia), liposuction, nipple correction and scar revision.

#### Miss Monika Kaushik

Benign breast problems, breast cancer and oncoplastic surgery, breast lump investigation, cosmetic breast surgery, breast reconstruction and revision surgery, male breast symptoms and axillary conditions.

#### Mr Jaroslaw Krupa

Benign breast problems, investigations of breast symptoms, breast cancer and oncoplastic surgery, mastectomy, breast reconstruction, breast reduction, breast augmentation, breast lift (mastopexy) and cosmetic breast surgery, implants exchange/removal, revisional implant surgery and prophylactic mastectomy.

#### Miss Georgette Oni

Breast reduction, breast uplift, breast augmentation, abdominoplasty, labiaplasty, brachioplasty, breast implant exchange, breast implant removal, benign skin lesion removal, scar revision, gynaecomastia and inverted nipple correction.

#### Miss Kalliope (Poppy) Valassiadou

Breast cancer surgery, LICAP flap, therapeutic mammoplasty, breast reconstruction with latissimus dorsi, mastectomy, breast implant-based reconstruction, axillary node surgery, sentinel node biopsy with magnetic tracer, axillary clearance, removal of breast lump, surgery for ductal carcinoma in situ (DCIS), surgery for mammary fistula, bilateral mastectomy and breast reconstruction in BRCA gene carriers, breast conserving, breast implant removal, breast infection, breast lump investigation, breast lump removal, breast reconstruction following mastectomy, breast reduction, breast remodelling for cancer surgery and breast uplift (mastopexy).

## C

### Cardiology

#### Dr Nauman Ahmed

Cardiac magnetic resonance imaging, heart failure management, heart rhythm disorders and pacing including complex devices and inherited cardiac conditions, angina, defibrillators and implantable cardioverter-defibrillators (ICDS).

#### Dr Arif Ahsan

Atrial fibrillation, angina, arrhythmias, blood pressure, heart failure, palpitations, syncope and valve disease.

#### Dr Imran Ansari

All aspects of adult cardiology. Multi-modality cardiac imaging (stress cardiac MRI, cardiac CT, stress echocardiography and advanced 3D echocardiography). Early cardiac risk assessment, investigation and management of chest pain, palpitations, valvular heart disease, breathlessness, blackout and heart failure.

#### Professor Kamran Baig

All types of cardiovascular disorders, cardiac valve disorders, complex coronary artery disease and percutaneous valve implantation (TAVI). Cardiology, interventional cardiology, electrical cardiac disorders, cardiac valve disorders: angiography, PCI and pacemakers.

#### Dr Julia Baron

All types of adult cardiovascular disorders, cardiac valve disorders, coronary artery disease and transcatheter aortic valve implantation (TAVI).

#### Mr Sanjay Bhandari

Chest pain, shortness of breath, palpitations, heart scans MRI, heart valve disease, high blood pressure and cholesterol management.

#### Dr Rajesh Chelliah

Heart failure, hypertension, lipid management, implantable devices, weight management, device therapy, arrhythmias, pacing (cardiology), invasive cardiology and cardiac electrophysiology.

#### Dr Kamal Chitkara

Angina, coronary angiogram, angioplasty (Stent), heart attack, atrial fibrillation (AF), cardioversion, chest pain, arrhythmia, palpitations, PoTS, heart failure, hypertension, syncope, cardiomyopathy, shortness of breath, pericarditis/myocarditis, coronary artery disease, valvular heart disease and murmur.

#### Dr Saravanan Durairaj

Paediatric cardiology.

#### Dr Mohamed Elamin

General and interventional cardiology, with specific interest in complex percutaneous coronary intervention and TAVI.

#### Dr Iftikhar Fazal

Palpitations and arrhythmia, heart failure, implantable devices (loop recorder implant, pacemaker implant and defibrillator implant (ICD)), device therapy, pacing and invasive cardiology, heart rhythm problems, atrial fibrillation, blackouts, chest pain, shortness of breath, heart failure, angina, heart valve disease, ECG, 24-hour ECG, 24-hour BP monitor, echocardiogram, exercise stress test, Zio patch monitor and cardioversion.

### **Dr Ashan Gunarathne**

Palpitations, chest pain, shortness of breath, loss of consciousness, angina, AF, irregular heart beat, valve disease, aortic stenosis, angiogram, stenting, heart attacks, atrial fibrillation, heart failure, ischemic heart disease, left atrial appendage occlusion and PCI.

### **Dr Shazia Hussain**

General cardiology, coronary artery disease, coronary angiography and angioplasty, chest pain assessment, blood-pressure assessment and control, management of valvular disease, investigation of palpitations and interpretation of ECG's and monitoring, women's cardiovascular health.

### **Dr Mokhtar Ibrahim**

Syncope and atrial fibrillation, pacemaker and device implants, ablation procedures, sports cardiology and electrophysiology.

### **Dr Shahnaz Jamil-Copley**

All arrhythmias including atrial fibrillation and ventricular tachycardia, atrial fibrillation, atrial tachycardias, cardiac electrophysiology, device therapy, invasive electrophysiology and supraventricular tachycardias. Performs ablation for all above conditions. Implants devices for the management of heart rhythm disorders.

### **Dr Nicholas Kelland**

General cardiology and electrophysiology.

### **Dr Jeffrey Khoo**

General cardiology (including ECG, rhythm monitoring/Holter, exercise test, CAA cardiology reviews), and advanced cardiac imaging (including echo, TOE, stress echo and cardiac MRI).

### **Professor Jan Kovac**

Cardiac catheterisation, radial and femoral coronary angioplasty, stenting, mitral valvuloplasty, LAA closure, PFO closure, septal defect closures, TAVI and balloon aortic valvuloplasty and TEER (transcatheter repair of mitral and tricuspid valves, valve in valve procedures).

### **Dr Andreas Kyriacou**

General cardiology and electrophysiology.

### **Dr Nigel Lewis**

Heart failure, inherited cardiac conditions and pacing/complex devices.

### **Dr Thomas Mathew**

Cardiovascular imaging, general cardiology, cardiac magnetic resonance imaging, heart failure management, heart rhythm disorders and inherited cardiac conditions.

### **Dr Amar Mistry**

All types of cardiovascular disorders, palpitations and arrhythmia, breathlessness, leg swelling, dizzy spells, blackouts, heart failure management, high blood pressure. Implantable devices (including pacemakers, defibrillators and biventricular pacing, implantable loop recorders) electrocardiogram, cardiomemo recording and cardioversions.

### **Dr Bhavik Modi**

All aspects of adult cardiology, including cardiac risk factor modification, high blood pressure, high cholesterol, chest pain, blackouts, palpitations, atrial fibrillation, valvular heart disease, shortness of breath and post heart attack care. Investigation and management of chest pain, breathlessness, angina and heart attacks, including angiography, cardiac catheterisation, angioplasty and stenting.

### **Professor Ghulam Andre Ng**

Specialises in arrhythmia management (SVT, atrial fibrillation, ectopics) especially investigations of palpitation, syncope and blackouts, providing cardiac electrophysiology treatment including cardioversion and catheter ablation. Provides investigations and management of other areas of cardiology e.g. sudden death risk assessment and inherited cardiac conditions.

### **Dr Ravi Pathmanathan**

General cardiology, arrhythmia and management of ischaemic heart disease.

### **Dr Raj Rajendra**

Cardiology and coronary intervention and TAVI. Breathlessness, chest pain, blackout, leg swelling, cardiac catheterisation, coronary angioplasty, mitral valvuloplasty, balloon aortic valvuloplasty, clinical cardiology, hypertension, heart failure, PCI coronary, structural interventions aortic (TAVI). General cardiology and pacemakers.

### **Dr Jonathan Sahu**

Interventional cardiology, cardiac electrophysiology and ablation.

### **Professor Nilesh Samani**

All aspects of cardiology in adults including high blood pressure (hypertension), coronary artery disease, angina, heart attacks, heart failure, heart arrhythmias, heart valve disease, cardiomyopathy, family history and prevention of heart disease. Symptoms including: chest pain, palpitations, blackouts heart flutter, shortness of breath, breathlessness, syncope, heart murmurs, irregular heart beat, high blood pressure and swollen legs.

### **Dr Riyaz Somani**

Sees adults and children. Investigations and management of all areas of cardiology including palpitations, chest pain, blackouts and hypertension. Specialises in arrhythmias such as atrial fibrillation, SVT, atrial flutter providing cardiac imaging, cardioversion, catheter ablation and pacemaker/defibrillator insertion as well as caring for patients with cardiomyopathies and inherited cardiac conditions.

### **Dr Akhlaque Uddin**

Chest pain, breathlessness, palpitations, heart failure, leg swelling, blackouts, angina, syncope, Ischaemia heart disease, Aortic stenosis, Hypertension, high blood pressure, cardiac risk, atrial fibrillation (AF), coronary angioplasty, heart stents, TAVI, PFO Closure, angiogram, PCI, percutaneous coronary intervention, treadmill testing, referral for: cardiac CT, cardiac MRI, echocardiograms and TOEs.

### **Dr Andrew Vanezis**

Sees adult patients with any cardiac conditions or symptoms including chest pain, breathlessness, high blood pressure, palpitations, dizzy spells, blackouts, swollen legs and fatigue. Also undertakes general heart health screens including occupational health screens and carries out coronary angioplasty and angiography, implantable loop recorder insertion and cardioversion procedures. Specialises in complex coronary angioplasty, including opening chronically blocked arteries.

# World-class experts in diagnostics

At Spire Nottingham Hospital you can see leading diagnostic experts in as little as **48 hours** – so you can get better, faster.

Our experienced and highly qualified staff produce quick, accurate results in the comfort of a private hospital.

## Fast, flexible access to diagnosis and treatment

You can access our services when you need them, with appointment times available Monday to Friday to suit you.\*

## Advanced technology

We use the latest, most advanced technology and equipment to help you take the first step towards reclaiming your health.

## Comprehensive range of diagnostic services

- CT scanning
- Mammography
- MRI scanning
- Ultrasound
- X-ray services

## Book to see an expert today

Search 'Spire Nottingham Hospital'

\*Timings given are indicative, actual timings may vary based on consultant and tests required.  
\*A referral from your GP or Consultant is required prior to arranging an appointment

*Looking after you.*

## Cardiac surgery

### Mr Giovanni Mariscalco

Coronary artery bypass surgery, aortic valve repair/replacement and mitral valve repair/replacement, aortic root repair/replacement and complex aortic surgery through conventional approaches and mini-invasive (key hole surgery).

### Mr Shantanu Sinha

Mitral valve repair surgery, tricuspid valve repair surgery, endoscopic mitral valve surgery, AF ablation surgery, coronary artery bypass grafting and aortic valve replacement.

### Mr Adam Szafranek

Heart rhythm surgery, mitral and tricuspid valve surgery (including valve repair), aortic root and ascending aorta and aneurysm surgery, minimal invasive approaches to cardiac surgery.

## Colorectal

### Mr Austin Acheson

Benign anorectal disease, colonoscopy, colorectal cancer, hernias, inflammatory bowel disease, laparoscopic surgery and lumps and bumps.

### Mr Balamurali Bharathan

Anal fissure, haemorrhoids surgery, keyhole bowel surgery including bowel cancer and inflammatory bowel disease, colostomy and ileostomy, bowel cancer tests, colonoscopy, flexible sigmoidoscopy, polypectomy and keyhole groin hernia surgery including complex abdominal wall hernia.

## Cosmetic and plastic surgery

### Mr Mark Henley

Arm reduction and arm lift, breast enlargement, breast implant removal, breast reduction, breast uplift (mastopexy), eyelid surgery or eyebag removal (blepharoplasty), facelift, liposuction, male breast reduction surgery (gynaecomastia), nose reshaping (rhinoplasty), thigh and buttock lift and tummy tuck (abdominoplasty).

### Mr Ciaran O'Boyle

Abdominoplasty, breast enlargement, breast reduction, breast uplift (mastopexy), chest reduction (gynaecomastia), prominent ear correction (pinnaplasty), earlobe repair, liposuction, benign lesions and skin cancers, mole, cysts, lipoma and skin tag removal, labiaplasty, scar revision and cryosurgery (keloid scar freezing).

### Mr Graham Offer

Breast enlargement, breast reduction, breast uplift and revision surgery, male breast reduction, prominent ear correction, fat grafting (lipofilling), facelift, browlift, abdominoplasty, liposuction, rhinoplasty and blepharoplasty.

### Mr Nakul Patel

Sees adults and children. Abdominoplasty (tummy tuck), breast enlargement, breast reduction, mastopexy (breast uplift), breast revision surgery, breast reconstruction, nipple correction, gynaecomastia (male breast reduction surgery), lipofilling (fat grafting), liposuction, pinnaplasty (prominent ear correction), ear lobe surgery, upper blepharoplasty (eyelid surgery), skin cancer, moles, cysts, lipomas, non-surgical procedures including Botox and fillers, scar revisions including keloid scars.

### Mr Jonathan Pollock

Sees adults and children. Skin cancer treatment; removal of benign skin lesions, moles, cysts, skin tags, and lipomas; scar revision; facial / nasal reconstruction; upper blepharoplasty (eyelid surgery), non-surgical procedures including botox and fillers and earlobe repair.

### Professor Anshul Sama

Rhinoplasty surgery- cosmetic, function or for combined reasons.

### Mr Matt Smith

Sees adults and children from 3 years. Bilateral breast augmentation, removal and replacement of implants, brachioplasty, face lift, upper and lower lid blepharoplasty, unilateral and bilateral pinnaplasty, upper lid blepharoplasty, thigh reduction/uplift, abdominoplasty, unilateral and bilateral gynaecomastia, breast reduction, breast uplift/mastopexy, liposuction, labiaplasty, neck lift, excision of lesions, excision of lipoma, shave excisions excision keloid scar, operation on nipples, ear lobe repair, full thickness skin graft, split thickness skin graft and scar revision.

### Mr Jonathan Syme-Grant

See adults and children from 1 year. Abdominoplasty, breast enlargement, breast reduction, breast uplift, cleft surgery and paediatric plastic surgery, facial aesthetic surgery including; patients who have had a cleft lip and/or palate, liposuction, pinnaplasty and rhinoplasty. Blepharoplasty, anti-wrinkle treatment by injection, arm reduction and arm lift, cosmetic fat transfer, face and skin treatments for men, lip augmentation, liposuction, mole, cyst, wart and skin tag removal, scar revision, repair of piercings and skin lesions.

### Mr Sarmad Tamimy

Breast enlargement, breast reduction, breast uplift, brow lift, chest reduction, dermabrasion, ear correction, eyelid surgery, face lift, liposuction, nose reshaping and tummy tuck. Plastic and reconstructive surgery, cosmetic surgery, sarcoma surgery, breast reconstruction, head and neck reconstruction and perineal reconstruction.

**D****Dermatology****Dr Anand Patel**

Sees adults and children. Acne, benign lesion assessment and removal, cryotherapy, eczema, mole removal, psoriasis, patch testing, skin cancer and skin surgery, including Mohs micrographic surgery.

**Dr Ashish Sharma**

Mohs micrographic surgery, skin cancer and pre-malignancy, eczema, psoriasis and acne.

**Mr Kyle Tang**

Paediatric Dermatology

**Dietician****Ms Sonal Patel**

Sees adults and children. See adults for dietary support managing the following, regain weight following ill-health or medical condition, weight loss, undergoing bariatric surgery, food allergy and intolerance, digestive conditions e.g. IBS, Coeliac disease, diagnosed with a medical condition such as diabetes, high blood pressure, raised blood lipids or cardiovascular disease.

**E****Ear, nose and throat****Miss Priya Achar**

Sees adults and children. ENT conditions, dizziness and vertigo, Ménière's disease, hearing loss including sudden hearing loss, tinnitus, ear wax removal, grommets, ear infections, repair of ear drum- myringoplasty, cholesteatoma surgery, all types of hearing implant surgery, vestibular schwannoma(acoustic neuroma), lateral skull base tumours, facial palsy, tonsillectomy, adenoidectomy, sub mucus diathermy, allergic rhinitis, nose bleed and foreign body removal from ear, nose and throat.

**Mr Neil Fergie**

Sees adults and children. Balance disorders, general ENT, otology and paediatric ENT.

**Professor Douglas Hartley**

Sees adults and children. Ear, nose and throat conditions including balance problems and dizziness, bone-anchored hearing aids and cochlear implants, chronic ear disease and cholesteatoma, ear surgery including grommets, hearing loss, mastoectomy, nose and sinus problems, tonsil and adenoid problems, ear infections, micro-suction/ wax removal to the ear, Ménière's disease, vestibular migraines, benign paroxysmal positional vertigo (BPPV), perforated ear drum, otosclerosis, glue ear, tinnitus, hearing loss and hyperacusis, tonsil and adenoid problems.

**Mr Anand Kasbekar**

Sees adults and children. All general ENT problems especially tonsil/adenoids problems, snoring in children, all ear conditions (hearing loss, grommets, hearing implants, cholesteatoma, mastoectomy, tinnitus), nasal and sinus problems including sinus surgery.

**Mr Yujay Ramakrishnan**

Nasal blockage and deviated septum, recurrent sinus infections and nasal polyps, allergy-related nasal problems, snoring and sleep-disordered breathing, loss of sense of smell, persistent sore throat or hoarseness, ear wax build-up and ear infections, hearing loss and balance problems, balloon sinuplasty, endoscopic sinus surgery including advanced sinus and skull base procedures, functional and cosmetic rhinoplasty/sept rhinoplasty, septoplasty, micro suction ear wax removal, nasal allergy testing and treatment, snoring assessment and management and voice and throat assessments.

**Professor Anshul Sama**

ENT surgery, nasal and sinus surgery, rhinology, rhinoplasty, skull base surgery and snoring treatments.

**Professor Lorna Sneddon**

ENT diagnosis and management including hoarseness, sore throats, neck lumps, nasal congestion, nasal polyps, hearing changes, ear infections, feeling of something in throat, silent reflux, eustachian tube dysfunction, voice problems, throat irritation, thyroid swelling and thyroid lump management.

**G****Gastroenterology****Dr Timothy Bowling**

General gastroenterology, including acid reflux, indigestion, irritable bowel syndrome, altered bowel habit, inflammatory bowel disease, anaemia and malabsorption, gastroscopy and colonoscopy.

**Dr Aditya Mandal**

Investigation of bowel symptoms (change in bowel habit, rectal bleeding, diarrhoea and/or constipation), investigation and treatment of reflux symptoms, abdominal pain, nausea/vomiting, weight loss, management of inflammatory bowel disease and irritable bowel syndrome, investigation of abnormal liver function, endoscopic procedures (gastroscopy, colonoscopy, removal of polyps from bowel) and bowel cancer screening colonoscopist.

**Professor Gordon Moran**

Abdominal pain, reflux, constipation, diarrhoea, irritable bowel syndrome, inflammatory bowel disease, endoscopy, colonoscopy and gastrointestinal cancer.

**Dr Frank Phillips**

Gastrointestinal disorders including acid reflux and diarrhoea,

**Dr Sunil Samuel**

All aspects of general gastroenterology (excluding liver issues) including bowel issues, IBS, indigestion, inflammatory bowel conditions like colitis and Crohn's disease and endoscopic procedures.

**General surgery****Mr Ian Beckingham**

Gallbladder disease and abdominal wall hernia surgery. Laparoscopic (Keyhole) surgery for gallstones and hernias (Inguinal hernia, umbilical/paraumbilical hernia, femoral hernia).

## **Mr Balamurali Bharathan**

Anal fissure, haemorrhoids surgery, keyhole bowel surgery including bowel cancer and inflammatory bowel disease, colostomy and ileostomy, bowel cancer tests, colonoscopy, flexible sigmoidoscopy, polypectomy and keyhole groin hernia surgery including complex abdominal wall hernia.

## **Mr Adam Brooks**

Gallbladder and biliary disease, hernia surgery, laparoscopic hernia repair, liver and pancreas cancer, liver and pancreas surgery.

## **Mr Iain Cameron**

Hernias including keyhole and open surgery, gallstones and gallbladder surgery and minor surgery for skin lumps.

## **Mr Ionnis Christakas**

Adrenalectomy, bilateral neck exploration, parathyroidectomy, combined complex parathyroid, thyroid operations, hernia repairs and laparoscopic cholecystectomies, minimally invasive parathyroidectomy, oncologic/complex parathyroidectomy for parathyroid cancer, neck lumps and Cowden's syndrome.

## **Professor Dhanwant Gomez**

Gallbladder surgery, gallstones, laparoscopic inguinal hernia surgery, paraumbilical and umbilical hernia surgery, key hole surgery, complex liver and pancreas surgery, pancreatitis, liver cancer, pancreas cancer, cholangiocarcinoma and neuroendocrine tumours.

## **Miss Rosemary Lamb**

Groin and abdominal wall hernias, gallbladder surgery and removal of smaller benign skin lesions (cysts, lipomas and/or skin tags).

## **Mr Ravinder Vohra**

Keyhole gallbladder operations, reflux and hiatus hernias and abdominal wall hernia.

## **Miss Daniela Zanotti**

Anti-reflux surgery (gastro-oesophageal reflux), hiatus hernia repair, achalasia, diagnostic and therapeutic gastroscopy (endoscopy), gallbladder and gallstones related surgery, abdominal wall hernia repair (incl. inguinal hernia), incisional hernia repair, laparoscopic surgery and lumps and bumps.

## **GP service**

### **Dr Amine Boughellam**

General practice issues with a special interest in seeing patients with type two diabetes, mental health issues, vertigo and skin problems.

### **Dr Ben Coyle**

General practice, adults and children, all aspects covered.

### **Dr Jing Mao**

Sees both adults and children. General practice with a special interest in women's health and skin problem.

### **Dr Sally Nicholson**

Sees adults and children. General practice issues with a special interest in seeing patients with musculoskeletal issues including multiple joint pain, fibromyalgia and chronic fatigue. Sports problems including concussion management, mental health, ENT, gastroenterology including IBS, and dermatology.

## **Gynaecology**

### **Dr Shilpa Deb**

Colposcopy, endometrial ablation, hysterectomy, laparoscopic surgery for endometriosis, ovarian cyst removal and sterilisation.

### **Mr Kettan Gajjar**

Uterine or endometrial cancer, cervical cancer, vulval cancer, ovarian cancer, colposcopy, general gynaecology, ovarian cysts/masses, endometriosis, laparoscopic surgery, laparotomy (open surgery), hysteroscopy, menstrual disorders and complex gynaecological surgery.

### **Miss Zeina Haoula**

Colposcopy, menopause, menstrual disorders, minimal access gynaecological surgery and PCOS,

### **Mr Paul Hooper**

General gynaecology – menstrual disorders, pelvic pain, post birth problems, urogynaecology – urinary incontinence and vaginal prolapse.

### **Dr Aemn Ismail**

General gynaecology, all gynaecological cancers (diagnosis/treatment), complex gynaecological surgeries, minimal access surgery (laparoscopic and robotic) and minor procedures, including hysteroscopy and colposcopy.

H

## **Hand therapy**

### **Miss Emma Bamford**

Hand therapy, including rehabilitation and splinting for common hand conditions and upper limb trauma. Special interest in fractures and tendon repairs.

### **Miss Katie Horton**

Acute injuries such as tendon repairs, fractures, nerve repairs, ligament injuries and soft tissue lacerations.

### **Miss Gemma Johnson**

Acute hand and wrist injuries, with an interest in post operative care of both acute trauma, elective surgery and scar management.

M

## **Menopause Specialist**

### **Dr Louise Glasgow**

Menopause, post menopausal problems, psychosexual medicine, sexual dysfunction, sexual health, sleep disorders, urinary tract infections and urogynaecology.

### **Dr Joanne Hobson**

Women's health specialist for hormonal and non-hormonal treatment and alternative treatments, bone health, premature ovarian insufficiency, PMDD, PCOS, endometriosis, adenomyosis and psychosexual problems in men and women of all ages.

# N

## Neurology

### Dr Nin Bajaj

General neurology, headache treatments, tremor, neuropathy, neuralgia, dementia, memory and Parkinson's disease.

### Dr Saam Sedeihzadeh

Headache treatments, tremor, dementia, neuralgia (nerve pain) treatment, muscle diseases, neuromuscular disorders, memory, peripheral neuropathy and Parkinson's disease.

## Neurophysiology

### Dr Thabit Sabbubeh

Sees adults and children. Nerve conduction studies and electromyography for different types of neuromuscular disorders.

### Dr Ahmed Vanker

Sees adults and children. Psychological/neuropsychological assessments of neurodevelopment disorders and mental health problems across all age ranges. Treatments include CBT and clinical biofeedback. Specialised assessments of neurological disorders including memory problems, head injuries and dementia screening and aspergers syndrome/autism.

## Neurosurgery

### Mr Alex Leggate

Back pain, leg pain/sciatica, neck and arm pain investigations and surgery, minimally invasive spinal surgery including endoscopic spinal and cranial surgery, spinal tumours, chiari, hydrocephalus, pain management injections, brain tumours, head injury and concussion and trigeminal neuralgia.

# O

## Oncology

### Dr Santhanam Sundar

Prostate cancer, bladder cancer, kidney cancer, ovarian cancer, chemotherapy (curative, adjuvant and palliative), radiotherapy (intensity modulated and image guided), hormone therapy, immunotherapy, antibody -conjugate therapy and molecular targeted therapy.

## Ophthalmology

### Mr Amar Alwitry

Cataract and refractive lens exchange specialist (premium/ enhanced intraocular lenses), glaucoma, medical retina and minor eye procedures.

### Professor Harminder Dua

Dry eye syndrome treatment, cataract removal, refractive lens surgery, cornea diseases and ocular surface reconstruction.

### Professor Anthony King

Glaucoma treatment.

### Professor Dalia Said

Cataract removal surgery, dry eye syndrome treatment, blepharoplasty, refractive lens surgery, corneal transplant, limbal stem cell transplant and pterygium surgery.

### Mr Srinivasan Subramaniam

Cataract surgery, complex cataract surgery and refractive lens exchange (premium lenses/Toric lenses/enhanced monofocal lenses and multifocal lenses), YAG laser treatment, Glaucoma treatments (including laser treatment), simple lid procedures.

### Mrs Katya Tambe

Sees adults and children. Functional and cosmetic eyelid surgery (blepharoplasty and ptosis), watery eye and dry eye treatment, cataract surgery, minor eye conditions.

### Mr Shery Thomas

Sees adults and children. Cataracts, double vision, nystagmus and squint.

### Mr Anwar Zaman

Cataract surgery and retinal disease surgery.

## Oral and maxillofacial

### Mr Rory O'Connor

Sees adults and children. Facial trauma (including post traumatic facial deformity), facial deformity, facial and jaw joint pain, temporomandibular joint dysfunction, hypoglossus and enophthalmos (malpositioning of the eye) correction, cheek implants, chin implants, genioplasty (chin position correction), dental implants, eyelid surgery or eyebag removal (blepharoplasty), anti-wrinkle treatment by injection, jaw cyst removal, skin lesion (mole, cyst, wart and skin tag) removal from the head and neck, tongue tie treatment, closure of oral fistulas and teeth and wisdom teeth removal.

### Mr Andrew Sidebottom

See adults and children. Adult and children's surgery, tongue tie release, impacted and infected teeth removal including wisdom teeth, dental implants, jaw cyst removal, oral and facial lumps, bumps and white patches, oral medicine, TMJ and facial pain management and botox for facial pain, TMJ surgery and TMJ replacement, facial deformity and orthognathic surgery.

**Spire**

Nottingham Hospital

Scan for more information

# We'll get to the heart of the matter

Did you know that we offer specialist invasive cardiology and cardiac surgery?

Nottingham Hospital is rated 'outstanding' by the CQC and has leading cardiologists, cardiac surgeons and a critical care unit to treat the simplest to the most complex heart conditions.

- Coronary Angioplasty
- Echocardiogram, CT and MRI
- Implantable devices including pacemakers
- Extended ECG monitoring and exercise test
- Heart failure treatment and follow up
- Percutaneous structural treatments including TAVI
- Ablation of arrhythmia including AF
- Coronary Artery Bypass Grafting
- Aortic root surgery
- Mitral valve repair or replacement
- Aortic valve repair or replacement

*Looking after you.*

## Orthopaedics – ankle and foot

### Mr Martin Raglan

Minimal invasive surgery on foot and ankle, lesser toe deformities, bunions, arthritis, deformity, sports injuries, tendon pain, ligament sprains, key hole surgery and total ankle replacement.

### Mr Hatem Salem-Saqar

Sees adults and children. Ankle arthroscopy, ankle replacement, bunion removal and treatment and ganglion removal surgery, ingrowing toe nails, flat foot deformity, achilles tendon pathology and planta fascitis.

## Orthopaedics – hand and wrist

### Mr Dan Armstrong

Nerve compression (carpal tunnel, cubital tunnel, guyons canal compression), dupuytrens disease (fasciectomy, dermofasciectomy, needle aponeurotomy), tendon problems (trigger finger, de quervains disease, intersection syndrome, flexor tendon injuries, extensor hood injuries), trauma (scaphoid fractures, scaphoid non-unions, hand and wrist fractures, late problems of distal radius fractures, wrist instability, DRUJ instability), base of thumb arthritis (CMCJ replacement, CMCJ fusion, trapeziectomy), wrist arthritis (partial wrist fusions, denervation, wrist fusion, wrist joint replacement, DRUJ replacement (Schecker replacement), lumps and bumps in the hand and wrist (ganglions, GCT, lipoma, fibromas, garrods pads, inclusion dermoids, foreign bodies, gloms tumours), sports injuries of the hand and wrist and musicians hand problems.

### Miss Kate Brown

Carpal tunnel syndrome surgery, Dupuytren's contracture, ganglion removal surgery, joint pain treatment (joint injections), neuralgia (nerve pain) treatment and trigger finger release, cubital tunnel syndrome, basal thumb arthritis, small joint arthritis and ganglions.

### Mr Avi Das

Carpal tunnel syndrome, cubital tunnel syndrome, trigger finger release, dupuytrens contracture, hand and wrist pain, wrist, thumb and finger joint arthritis and hand and wrist injections, ganglions and lumps and problems following injury.

### Mr Nick Johnson

Carpal tunnel syndrome surgery, cubital tunnel syndrome surgery, Dupuytren's contracture, nerve compressions, tendon injuries, ganglion removal surgery, joint pain treatment (joint injections), neuralgia (nerve pain) treatment, trigger finger release, arthritis of finger joints, thumb basal joint arthritis, wrist arthritis, lumps and bumps in the hand and wrist, small joint replacement, De Quervains disease, hand and wrist fractures (including treating complications) and scaphoid surgery.

### Mr Attila Kovacs

Carpal tunnel syndrome surgery, cubital tunnel syndrome surgery, nerve compressions, tendon injuries, flexor tendon pulley injuries, dupuytren disease, lumps and bumps in the hand, wrist and fingers, finger mucoid cysts, arthritis of finger joints, thumb basal joint arthritis, wrist arthritis, malunion of wrist, hand or finger fractures, triggering fingers, hand deformities related to rheumatoid arthritis, foreign body removal from hand, joint replacements for finger joints or thumb basal joint, excisional biopsy of non-sinister hand tumours and cortisone injections into hand and wrist joints.

## Orthopaedics – hip and knee

### Mr Mehool (Mez) Acharya

Hip arthroscopy, hip replacement surgery, knee arthroscopy surgery, knee replacement, pelvic and acetabular trauma, pain management injections, SI joint, abductor dysfunction, hip revision, general trauma, hip and knee pain, tendon surgery, proximal hamstring reconstruction and hip and knee arthritis.

### Mr Jabar Al-Shukri

Hip and Knee replacement surgery.

### Mr Reshid Berber

Hip and knee joint replacement surgeon with a special interest in revision and complex knee surgery. Hip replacement surgery, joint pain treatment (joint injections), knee arthroscopy surgery, knee replacement, unicompartmental (partial) knee replacement and robotic assisted knee replacements.

### Mr Navjot Bhangoo

Sees adults and children. ACL knee ligament reconstruction, partial knee replacement, total knee replacement, meniscal repair, arthroscopy, cartilage surgery (knee), chondral grafting, total knee replacement, knee arthroscopy, knee ligament repair, knee preservation surgery, partial knee replacement, patella realignment, patellofemoral joint replacement, PCL reconstruction and tibial tubercle transfer.

### Mr Benjamin Bloch

Hip and knee replacement, hip and knee surgery, knee arthroscopy, knee osteotomy, revision hip and knee replacements, unicompartmental knee replacement. Robotic total knee replacement and robotic partial knee replacement.

### Mr David Hahn

Sees adults and children. ACL reconstruction, arthroscopy, hip replacements, knee injuries, knee replacements, knee surgery knee ligament injuries, sports injuries.

### Mr Mark Higgins

Hip and knee arthroplasty, minimally invasive anterior hip replacement, robotic assisted total knee replacement and revision hip replacement.

### Mr Tom Kurien

Knee arthroscopy surgery, ligament surgery, total knee replacement and unicompartmental knee replacement, robotic assisted knee replacements, pain management, ACL reconstruction, cartilage regeneration procedures, meniscal repair, multi-ligament knee surgery, patella stabilisation surgery, tendon surgery and platelet rich plasma.

### Mr Andrew Manktelow

Assessment and management of hip problems, primary hip replacement surgery, complex and young hip replacement surgery, minimally invasive hip replacement surgery, hip resurfacing surgery, including ceramic on ceramic ReCerf hip resurfacing surgery, revision hip replacement surgery and management of the painful hip and hip arthritis.

### Mr Jimmy Ng

Knee ligament, meniscus, cartilage, alignment and knee replacement surgery.

### **Mr Khosrow Sehat**

Hip and knee primary, complex and revision surgery including computer-guided knee replacement surgery, high performance implants and 'Conformis' custom made knee replacement, general disorders of the hip, including bursitis and tendon problems, knee arthroscopy and treatment of cartilage tears, multidisciplinary treatment of weight-related problems including weight loss injections.

### **Mr Paul Szypryt**

Orthopaedic physician, hip and knee conditions, sports injuries and steroid injections.

### **Mr Tony Westbrook**

Hip replacement surgery, knee arthroscopy surgery, knee replacement, revision lower limb arthroplasty and sports injuries.

## Orthopaedics – shoulder and elbow

### **Mr John Geoghegan**

Sees adults and children. Rotator cuff repair, shoulder arthroscopy, shoulder replacement surgery, shoulder stabilisation, soft tissue injuries of the shoulder and elbow. golfer's and tennis elbow, cubital tunnel syndrome, degenerative and osteoarthritic conditions of the elbow.

### **Mr Ben Gooding**

Degenerative and osteoarthritic conditions of the shoulder, elbow degenerative conditions, elbow replacement, elbow sports injuries, elbow tendon and overuse injuries including keyhole tennis and golfer's elbow surgery, joint pain treatment (joint injections), rotator cuff repair, shoulder arthroscopy, shoulder dislocation, shoulder replacement surgery, shoulder stabilisation and soft tissue injuries.

### **Mr Malin Wijeratna**

Frozen shoulder, hydrodilatation, joint pain treatment (joint injections), reverse shoulder replacement, anatomic total shoulder replacement, rotator cuff repair, shoulder arthroscopy, shoulder impingement, degenerative shoulder conditions and osteoarthritis, computer navigated shoulder replacement surgery, shoulder dislocation, shoulder stabilisation, cubital tunnel syndrome and tennis elbow.

## Orthopaedics – spine

### **Mr Alex Leggate**

Back pain, leg pain/sciatica, neck and arm pain investigations and surgery, minimally invasive spinal surgery including endoscopic spinal and cranial surgery, spinal tumours, chiari, hydrocephalus, pain management injections, brain tumours, head injury and concussion and trigeminal neuralgia.

### **Mr Mohammed Shakil Patel**

See adults and children. All aspects of spinal surgery from the cervical spine to the sacrum with a specialist interest in deformity. Treatments undertaken include spinal and facet joint injections, discectomies, decompressions, spinal fusions and spinal deformity corrections.

### **Mr Nas Quraishi**

Degenerative spine (cervical/lumbar) disease, spinal deformity surgery, spinal oncology, trauma and infection and vertebroplasty/kyphoplasty.

### **Mr Khalid Salem-Saqer**

All aspects of adult spinal pathology and complaints in the neck, thoracic and lumbar spine. Degenerative disc disease, lower back pain, sciatica, nerve pain down the arm facet joint pain, sacro-iliac joint pain, spinal cord compression and dysfunction, minimally invasive spinal surgery, spinal navigation, spinal decompression, discectomy surgery, complex spinal reconstruction and spinal injections, osteoprotic fractures and cement augmentation (vertebro-plasty).

### **Mr Masood Shafay**

Sees adults and children. Back pain, deformity and paediatric deformity, neck pain, sciatica and spinal surgery, osteoporotic fractures, spinal stenosis and disc prolapse.

### **Mr Magnum Tsegaye**

Spinal surgery (NHS only).

### **Mr Wai Yoon**

Spinal deformity, degenerative spine, infection, lower back pain and tumours. Spinal procedures: microdiscectomy, decompression, cervical microdiscectomy and spinal fusion. Pain management injections for back and facet joints.

P

## Paediatrics

**See pages 23 – 25 for consultants who see paediatric patients**

## Pain management

### **Dr Piotr Buczkowski**

Chronic pain management, epidural injections, facet joint injection, neuralgia, back and facet joint injections. Nucleoplasty, epiduroplasty, radiofrequency treatment of nerves conducting pain, sympathetic nerve blocks, neuromodulation techniques and medications.

### **Dr Bala Veemarajan**

Epidural injections, facet joint injections, chronic pain management, Rhizolysis Neuralgia (nerve pain) treatment, pain management, pain management injections for back and facet joints, caudal epidural, coccyx, piriformis injections, diagnostic medial branch blocks, genicular nerve blocks for knee pain, nerve blocks for shoulder pain, nerve root block, occipital nerve blocks for headaches, post surgical pain, radiofrequency rhizolysis, sacroiliac joint injection and transformational epidural.

# Expert care every step of the way

The specialists at Spire Nottingham Hospital are leading medical experts, who always put your safety first. When you make an appointment with us, you can be sure that you will receive expert care in a secure environment.

## Services include:

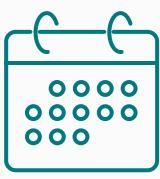

- Arthroscopy
- Grommet insertion
- Hysterectomy
- Joint replacement
- Pain management
- Tonsillectomy
- Varicose vein treatments

We offer **hundreds of tests and treatments**, some of which you can only have privately.

We offer **rapid access** to MRI scans, X-rays and further tests, if you need them.

You can be treated by a specialist of your choice **when it's right for you**.

## Radiology

### Dr Smeer Aggarwal

Musculoskeletal radiology.

### Dr Rosemin Ahmad

Gynaecological ultrasound, multiparametric MRI prostate, hepatobiliary and urology imaging.

### Dr Miaad Al-Attar

Breast radiology.

### Dr Mauro Albrizio

Musculoskeletal radiology.

### Dr Yuriy Arlachov

Musculoskeletal imaging, spinal and sarcoma imaging, US/Fluro/CT guided MSK interventions including spinal injections, biopsies and vertebroplasties.

### Dr Juday Bannur C

Gastrointestinal radiology.

### Dr Boris Berko

Musculoskeletal radiology, musculoskeletal and sports imaging, soft tissue sarcoma and spinal imaging.

### Dr Rajesh Bhatt

Musculoskeletal, spine and sports medicine imaging.

### Dr Christopher Clarke

Gastrointestinal, hepatopancreaticobiliary, and oncologic imaging including CT, MRI, fluoroscopy and ultrasound. Bowel transit studies and CT colonography.

### Dr Aparna Deshpande

Cardiothoracic radiology including cardiac MRI and CT.

### Dr Stephen Goode

Arterial and venous occlusive diseases including acute and chronic DVT, cardiac imaging, cardiac MR, coronary CT angiography, interventional radiology, vascular intervention and vascular malformation sclerotherapy.

### Dr Said Habib

Cardiac imaging (CT & MRI) vascular CTA, CTV, MRA& MRV, peripheral arterial and venous angioplasties and embolisation.

### Mohamad Hajaj

Breast and one-stop breast clinic.

### Dr Ariegh Hassan

Musculoskeletal and sports imaging, musculoskeletal radiology, soft tissue sarcoma and spinal imaging.

### Dr Moin Hoosein

Breast imaging.

### Dr Sumit Jagani

Paediatric radiology including US and barium.

### Dr Ketan Jethwa

Breast, gynaecological, oncological and emergency imaging.

### Dr Kanagaratnam Jeyapalan

Orthopaedics, MRI, CT, MSK ultrasound and MR arthrogram.

### Dr Neghal Kandiyil

Arterial and venous occlusive diseases including acute and chronic DVT, cardiac imaging, cardiac MR, coronary CT angiography, interventional radiology, vascular intervention and vascular malformation sclerotherapy.

### Dr Amanjot Karuppiah

Breast radiology.

### Dr James Kirk

Interventional Radiologist.

### Dr Khalid Latief

Musculoskeletal and gastrointestinal imaging.

### Dr Jonothan Lloyd

Diagnostic uroradiology including imaging of prostate cancer (multiparametric MRI), kidneys stones, haematuria and urinary symptoms.

### Dr Sujit Nair

Neuro radiologist

### Dr Sophie O'Dowd

Nuclear Medicine, PET-CT, GU MRI and oncology CT body imaging.

### Dr Praveen Rao

Cardiac radiology including cardiac CT, specialist TAVI CT / structural heart disease imaging, CMR, chest radiology including interstitial lung disease and lung cancer reporting, plain film reporting and ultrasound, CT scanning and magnetic resonance imaging.

### Dr Mark Regi

Imaging for arterial and venous occlusive diseases including acute and chronic DVT, angiography, interventional radiology, vascular and venous intervention. Embolisation for varicocelle and pelvic venous congestion.

### Professor Winston Rennie

Musculoskeletal radiology – ultrasound, MRI and CT.

### Dr Ali Shah

Musculoskeletal radiology, diagnostic and intervention including trauma, sports, rheumatology and spine.

### Dr Jagrit Shah

Neuroradiology and head and neck radiology.

### Dr William Topping

CT including CT for cancer, cardiac CT including cardiac screening and general MRI, including neurology.

### Dr Ram Vaidhyanath

Head and neck imaging.

## Respiratory

### Dr Arun Khanna

Diagnosis and treatment of sleep disorders (sleep apnoea, parasomnias and insomnia), respiratory outpatient services (asthma/COPD, ILD, PE, bronchiectasis), unexplained breathlessness and cough, full diagnostics including bronchoscopy, lung function testing, CPEX and imaging including CT.

### Dr Abhilash Parameswaran Nair

Lung cancer, airways disease – asthma, COPD, bronchiectasis, respiratory infections, pleural diseases, interventional procedures, sleep medicine and chronic cough.

### Professor Michael Steiner

General respiratory outpatient services, diagnostics including CT imaging and lung physiology, treatment of respiratory disorders including asthma, COPD, interstitial lung diseases, bronchiectasis, assessment and treatment of sleep and ventilation disorders, including obstructive sleep apnoea.

## Rheumatology

### Dr Alison Kinder

Sees adults and children. Rheumatological conditions including inflammatory arthritis (rheumatoid, psoriasis, reactive and enteropathic) systemic lupus erythematosus, connective tissue disease (myositis, Sjogren's syndrome, scleroderma, vasculitis), hypermobility, lower back pain, sciatica, neck, shoulder, wrist pain, crystal arthritis (gout, calcium pyrophosphate), osteoporosis, fibromyalgia, soft tissue rheumatology, aspiration and injections of joints and bursa.

### Dr Arumugam Moorthy

Ankylosing spondylitis, back pain, chronic pain, fibromyalgia, intraarticular joint injection, joint injection, lupus, musculoskeletal ultrasound, osteoporosis, pain management, pregnancy and rheumatic disease, Raynaud's phenomenon, reactive arthritis, rheumatoid arthritis and soft tissue rheumatism.

## S

## Sports and exercise medicine

### Professor Nicholas Peirce

Sees adults and children. Diagnosis and treatment of musculoskeletal and sports injuries/illness related to physical activity, sport and workplace. Management of joint, tendon, muscle, ligament and nerve pain (early osteoarthritis relating to neck, shoulder, arm, elbow, forearm, wrist, chest wall abdominal wall, back, buttock, hip, groin, thigh, knee, patella, lower leg, calf, ankle, heel, foot, rotator cuff, subacromial, tennis/golfers elbow, meniscus, achilles tendon, sports hernia, quadriceps and hamstring) In clinic ultrasound assessment, injections, PRP, hyaluronic acid and MDT approach to return to activity including sport and workplace.

### Dr Patrick O'Halloran

Sees adults and children. Carpal tunnel joint pain treatment (joint injections), pain management, platelet rich plasma therapy (PRP) and sportsman's hernia or groin treatment.

## U

## Urology

### Mr Dhaval Bodiwala

Benign prostatic disease, endoscopic surgery, general urology, prevention, diagnosis and management of stone disease.

### Mr David Bratt

Bladder cancer, renal cancer, prostate cancer, male fertility, laparoscopic/minimally-invasive/robotic and open surgery, benign urological and prostate conditions and general urological conditions for male and female.

### Mr Philip Goodall

General urology in men and women. Bladder lesion removal, bladder cancer investigation and management, investigation of blood in urine, prostate cancer investigation, renal cancer investigation and management, PSA testing, circumcision, hydrocele surgery, epididymal cyst excision, vasectomy, urethral surgery, penoscrotal surgery, cystoscopy, benign prostate surgery, TURP, aquablation of prostate, cystectomy, ileal conduit formation and urethrectomy.

### Mr Gurminder Mann

General urology, penile disorders, scrotal disorders, vasectomy, vasectomy reversal, prostate disease, testicular disease, benign kidney disease, bladder cancer, laparoscopic renal surgery and renal cancer.

### Mr Stephen Miller

Benign prostate disease, general urology and urinary tract stone disease.

### Mr Benedict Sherwood

Prostate cancer, bladder cancer, renal cancer, testicular cancer, lower urinary tract symptoms, bladder outflow obstruction, benign disease of prostate (PBU), overactive bladder, urinary tract infections, kidney stones, bladder stones, erectile dysfunction, vasectomy, Da Vinci robotic surgery, penile and scrotal lumps/lesions, adult circumcision, laparoscopic surgery, laparoscopic nephrectomy, trans perineal prostate biopsies, haematuria (blood in urine), chronic or acute prostatitis, prostate cancer risk assessment and screening, TURP (Trans urethral resection of prostate) TURBT (trans urethral resection of bladder tumour), hydrocele surgery, epididymal cyst, scrotal dysfunction, orchidopexy, varicocele, testicular implants, catheter removal and problems and endourology.

### Mr Hari Ratan

Endourology and management of urinary tract stone disease, metabolic stone disease and general urological conditions.

### Mr Tom Walton

Prostate cancer diagnosis and management, (transperineal template prostate biopsy, perirectal hydrogel spacer insertion and DaVinci robotic prostatectomy), kidney cancer diagnosis and management, including laparoscopic and robotic renal surgery, urinary symptoms/benign prostate enlargement, including bipolar TURP and all aspects of general urology.

**Mr Bruce Braithwaite**

Varicose vein treatments and advice about arterial conditions and leg ulcers.

**Mr Robert Davies**

Varicose vein surgery, radio frequency ablation, EndoVenous laser therapy (EVLT), foam sclerotherapy, thoracic outlet syndrome, cervical rib, paget-schroetter, subclavian vein thrombosis, popliteal aneurysm, popliteal entrapment syndrome, cystic adventitial disease, leg ulcers, leg pain, tired legs, leg cramps, claudication, diabetes foot ulceration, leg bypass surgery, limb salvage, aortic aneurysm and stroke prevention.

**Mr Greg McMahon**

Arterial surgery, claudication, endovascular aneurysm repair, keyhole varicose vein surgery, laser treatment, local anaesthetic vein treatments, varicose veins, venous ulcers, VNUS closure procedure (endovenous ablation) and VNUS EVLT foam sclerotherapy.

**Mr Akin Oluwole**

Varicose veins and thread veins specialist, keyhole endovenous ablation and foam sclerotherapy for varicose veins, microsclerotherapy for thread veins, Arterial disease, claudication, blocked arteries, painful and swollen legs, leg ulcers, aneurysm treatment, open and endovascular surgery and carotid surgery for stroke prevention.

**Mr Harjeet Rayt**

Aortic aneurysms, carotid artery disease, claudication, peripheral arterial disease, vascular malformation and varicose veins.

**Mr Murtaza Salem**

Aneurysm surgery, carotid artery disease, intermittent claudication, leg and foot pain, non healing leg ulcers. Vascular surgery, varicose vein, vein surgery, carotid artery disease, peripheral arterial disease and non-healing ulcers.

**Mr David Sidloff**

Procedures: radiofrequency ablation, foam sclerotherapy, phlebectomy, all arterial procedures.

**Mr Richard Simpson**

Abdominal aortic aneurysms diseased blood vessels taking blood to the brain (carotid surgery) for the prevention of stroke, excessive sweating and or facial flushing, leg ulcers, poor blood supply to the legs, varicose veins and other venous problems.

**Mr Tryfon Vainas**

Arterial surgery, claudication, deep venous reconstruction, deep venous surgery, endovascular aneurysm repair, keyhole varicose vein surgery, laser treatment, local anaesthetic vein treatments, varicose veins, venous ulcers, VNUS closure procedure (endovenous ablation) and VNUS EVLT foam sclerotherapy, carotid surgery for stroke prevention, open and endovascular treatment for aortic aneurysms and dissections.

# Are your patients with medical insurance using it?

Nearly 1 in 8 of the British population has a private medical insurance policy – but not everyone uses it\*. If everyone who was eligible got treated using their cover, just imagine the impact this would have on NHS waiting lists.

We always encourage patients to tell their GP if they have PMI. Why not ask them too?

\*Healthcare Cover UK Market Report (Fifteenth Edition), Laing Buisson

*Looking after you.*

Spire

Nottingham Hospital

# Specialist children's services

When a child is unwell, everyone wants them to get better quickly.

That's why we work with expert paediatric consultants to run a surgery service for children aged two and over, plus outpatient appointments from birth.

Whether a child needs tests or treatment, we can offer quick and convenient appointments.

## Services include:

- Allergy investigations
- Audiology
- Cardiology
- Dermatology
- Ear, nose and throat (ENT)
- General paediatrics
- Maxillofacial
- Orthopaedics
- Orthotics
- Paediatric general surgery
- Pain
- Plastics and cosmetic surgery
- Urology

**Book to see an expert today**

# Paediatrics

## Cardiology

### Dr Riyaz Somani

Sees children from 16 years. Investigations and management of all areas of cardiology including palpitations, chest pain, blackouts and hypertension. Specialises in arrhythmias such as atrial fibrillation, SVT, atrial flutter providing cardiac imaging, cardioversion, catheter ablation and pacemaker/defibrillator insertion as well as caring for patients with cardiomyopathies and inherited cardiac conditions.

### Dr Saravanan Durairaj

Sees children from birth. Paediatric cardiology

## Cosmetic surgery

### Mr Nakul Patel

Sees children from birth. Pinnaplasty (prominent ear correction), ear lobe surgery, moles, cysts, lipomas, scar revisions including keloid scars.

### Mr Jonathan Pollock

Sees children from 12 years. Removal of skin lesions, moles and scar revision.

### Mr Matt Smith

Sees children from 3 years. Unilateral and bilateral pinnaplasty, excision of lesions in minor ops and theatres. Excision of lipoma, shave excisions excision keloid scar, ear lobe repair and scar revision.

### Mr Jonathan Syme-Grant

Sees children from 1 year. Cleft surgery and paediatric plastic surgery, facial aesthetic surgery including; patients who have had a cleft lip and/or palate, pinnaplasty. Mole, cyst, wart and skin tag removal and scar revision.

## Dermatology

### Dr Anand Patel

Sees children from birth. Acne, benign lesion assessment and removal, cryotherapy, eczema, mole removal, psoriasis, patch testing, skin cancer and skin surgery, including Mohs Micrographic surgery.

### Dr Kyle Tang

Sees children from birth. Dermatology, allergy testing, blood disorder tests and skin excision of malignant lesion.

## Dietician

### Ms Sonal Patel

Sees children from 3 months. Support with fussy eating; ARFID; failure to thrive; food allergy/intolerance, weight management and digestive conditions e.g. IBD, Coeliac

## Ear, nose and throat

### Miss Priya Achar

Sees children from birth. Dizziness and vertigo, Ménière's disease, hearing loss including sudden hearing loss, tinnitus, ear wax removal, grommets, ear infections, repair of ear drum- myringoplasty, cholesteatoma surgery, all types of hearing implant surgery, vestibular schwannoma(acoustic neuroma), lateral skull base tumours, facial palsy, tonsillectomy, adenoidectomy, sub mucus diathermy, allergic rhinitis, nose bleed, foreign body removal from ear, nose and throat.

### Mr Neil Fergie

Sees children from 1 year. Balance disorders, general ENT, otology and paediatric ENT.

### Professor Douglas Hartley

Sees children from birth. Balance problems and dizziness, bone-anchored hearing aids and cochlear implants, chronic ear disease and cholesteatoma, ear surgery including grommets, hearing loss, mastoidectomy, nose and sinus problems, ear, nose and throat conditions and tonsil and adenoid problems.

### Mr Anand Kasbekar

Sees children from birth. All general ENT problems especially tonsil/adenoids problems, snoring in children, all ear conditions (hearing loss, grommets, hearing implants, cholesteatoma, mastoidectomy, tinnitus) and nasal and sinus problems including sinus surgery.

## Gastroenterology

### Dr Sabarinathan Loganathan

Sees children from birth. Colonoscopy, gastroscopy, allergic bowel disease, coeliac disease, constipation, dyspepsia, feeding difficulties, functional bowel disorders, gastroesophageal reflux, helicobacter infection, inflammatory bowel disease, liver disease and polyposis conditions.

## General Surgeon

### Mr Sandeep Motiwale

Sees children from birth. Abdominal pain, any lumps or swellings in children, epigastric hernia, circumcision, constipation, hernia, hernia surgery, hydrocele, hydrocele surgery, ingrowing toe nails, laparoscopic surgery, orchidopexy, pretestoplasty, tongue tie treatments, umbilical hernia and undescended testes.

## GP service

### Dr Jing Mao

Sees children from 1 year. General practice, sees both adult and children with a special interest in women's health and skin problem.

### Dr Sally Nicholson

Sees children from 1 year. General practice issues with a special interest in seeing patients with musculoskeletal issues including multiple joint pain, fibromyalgia and chronic fatigue. Additionally, sports problems including concussion management, mental health, ENT, gastroenterology including IBS, and dermatology.

## Neurophysiology

### Dr Thabit Sabbubeh

Sees children from 1 year. Nerve conduction studies and electromyography for different types of neuromuscular disorders.

### Dr Ahmed Vanker

Sees children from 6 years. Psychological/neuropsychological assessments of neurodevelopment disorders and mental health problems across all age ranges. Treatments include CBT and clinical biofeedback. Specialised assessments of neurological disorders including memory problems, head injuries and dementia screening and Aspergers syndrome/autism.

## Ophthalmology

### Mrs Katya Tambe

Sees children from birth. Functional and cosmetic eyelid surgery (blepharoplasty and ptosis), watery eye and dry eye treatment, cataract surgery, minor eye conditions.

### Mr Shery Thomas

Sees children from birth. Double vision, nystagmus and squint.

## Oral and maxillofacial surgery

### Mr Rory O'Connor

Sees children from birth. Facial trauma (including post traumatic facial deformity), facial deformity, facial and jaw joint pain, temporomandibular joint dysfunction, hypoglossus and enophthalmos (malpositioning of the eye) correction, cheek implants, chin implants, genioplasty (chin position correction), dental implants, eyelid surgery or eyebag removal (blepharoplasty), anti-wrinkle treatment by injection, jaw cyst removal, skin lesion (mole, cyst, wart and skin tag) removal from the head and neck, tongue tie treatment, closure of oral fistulas and teeth and wisdom teeth removal.

### Mr Andrew Sidebottom

Sees children from birth. Tongue tie release, impacted and infected teeth removal including wisdom teeth in adults and children, dental implants, jaw cyst removal, oral and facial lumps, bumps and white patches, oral medicine, TMJ and facial pain management and botox for facial pain, TMJ Surgery and TMJ replacement, facial deformity and orthognathic surgery.

## Orthopaedic Surgeon

### Mr David Bryson

Sees children from birth. Paediatric orthopaedics; offering clinical consultations for: shoulder, elbow and wrist pain, hip, thigh, knee, leg and ankle pain, sports-related injuries, Perthes Disease (hip), developmental dysplasia of the hips (DDH), knock-knees, in-toeing (rotational profile disorders), pes planus (flat feet), adolescent bunion and bunionette, accessory navicular pathology, curly toes, infant trigger thumb. Orthopaedics – hip and knee

## Orthopaedics – ankle and foot

### Mr Hatem Salem-Saqer

Sees children from 3 years. Ankle arthroscopy, ankle replacement, bunion removal and treatment and ganglion removal surgery.

## Orthopaedics – hip and knee

### Mr Navjot Bhangoo

Sees children from 8 years. ACL knee ligament reconstruction, partial knee replacement, total knee replacement, meniscal repair, arthroscopy, cartilage surgery (knee), chondral grafting, total knee replacement, knee arthroscopy, knee ligament repair, knee preservation surgery, partial knee replacement, patella realignment, patellofemoral joint replacement, PCL reconstruction and tibial tubercle transfer.

### Mr David Hahn

Sees children from 13 years. ACL reconstruction, arthroscopy, hip replacements, knee injuries, knee replacements and knee surgery.

### Mr Jimmy Ng

Sees children from 3 years. Knee ligament, cartilage and knee replacement surgery. robotic assisted knee replacements.

## Orthopaedics – shoulder and elbow

### Mr John Geoghegan

Sees children from 16 years. Rotator cuff repair, shoulder arthroscopy, shoulder replacement surgery, shoulder stabilisation, soft tissue injuries of the shoulder and elbow. golfer's and tennis elbow, cubital tunnel syndrome, degenerative and osteoarthritic conditions of the elbow.

### Mr Ben Gooding

Sees children from 16 years. Degenerative and osteoarthritic conditions of the shoulder, elbow degenerative conditions, elbow replacement, elbow sports injuries, elbow tendon and overuse injuries including keyhole tennis and golfer's elbow surgery, joint pain treatment (joint injections), rotator cuff repair, shoulder arthroscopy, shoulder dislocation, shoulder replacement surgery, shoulder stabilisation and soft tissue injuries, shoulder stabilisation and joint pain and elbow surgery and arthroscopy.

## Orthopaedics – spine

### Mr Massood Shafafy

Sees children from 1 year. Back pain, deformity and paediatric deformity, neck pain, sciatica and spinal surgery, osteoporotic fractures, spinal stenosis and disc prolapse.

### Mr Mohammed Shakil Patel

Sees children from birth. All aspects of spinal surgery from the cervical spine to the sacrum with a specialist interest in deformity. Treatments undertaken include spinal and facet joint injections, discectomies, decompressions, spinal fusions as well as adult and paediatric spinal deformity corrections.

### Mr Wai Yoon

Sees children from birth. Deformity, degenerative spine, infection, lower back pain and tumours.

## Paediatricians

### Dr Kiran Kumar

Sees children from birth. Recurrent infections, feeding difficulties, cow's milk protein allergy, childhood constipation, asthma and wheeze, childhood migraine and headaches, urinary tract infections, childhood eczema and common skin problems. Short stature and assessment of puberty related issues.

### Dr Abraham Neduvamkunnil

New born and baby check, asthma and spirometry, wheeze, allergy, coughs and recurrent infections, allergy including skin prick tests and blood tests, eczema and skin problems, growth, feeding disorders and food intolerance, headaches, fits, epilepsy, development and neurological problems, nutritian, weaning, constipation, diarrhoea, reflux, abdominal pain, sleep problems, urine infections and bedwetting.

## Rheumatology

### Dr Alison Kinder

Sees children from 16. Specialises in a full range of rheumatological conditions including inflammatory arthritis (rheumatoid, psoriasis, reactive and enteropathic) systemic lupus erythematosus, connective tissue disease (myositis, sjogrens syndrome, scleroderma, vasculitis), hypermobility, lower back pain, sciatica, neck, shoulder, wrist pain, crystal arthritis (gout, calcium pyrophosphate), osteoporosis, fibromyalgia, soft tissue rheumatology, aspiration and injections of joints and bursa.

## Sport and exercise medicine

### Dr Patrick O'Halloran

Sees children from 12 years. Carpal tunnel joint pain treatment (joint injections) pain management, platelet rich plasma therapy (PRP), and sportsman's hernia or groin treatment.

### Professor Nicholas Peirce

Sees children from 16 years. Diagnosis, and treatment of musculoskeletal and sports injuries/illness related to physical activity, sport and workplace. Management of joint, tendon, muscle, ligament and nerve pain including early osteoarthritis relating to neck, shoulder, arm, elbow, forearm, wrist, chest wall abdominal wall, back, buttock, hip, groin, thigh, knee, patella, lower leg, calf ankle, heel, foot, rotator cuff, subacromial, tennis/golfers elbow, meniscus, achilles tendon, sports hernia, quadriceps and hamstring. In clinic ultrasound assessment, injections, PRP, hyaluronic acid and MDT approach to return to activity including sport and workplace. Using exercise as a treatment for and prevention of health conditions.

## Urology

### Mr Bharat More

Sees children from birth. All urological and general surgical procedures in children, circumcision, cystoscopy, hernia surgery, hypospadias repair, laparoscopy, undescended testis and urinary incontinence.
