# How to refer your patients

At Spire Murrayfield, Wirral we are committed to delivering excellent individual care and customer service to all our patients, from the time they first get in touch with us until after their treatment is complete. Our dedicated and highly trained people aim to consistently deliver excellent patient care, in a safe and secure environment. We work to ensure every patient is treated as if they were our own vulnerable relative.

## Self-funding patients

Self-funding patients are able to be seen by a consultant without a GP referral, although a letter is often preferred. We can provide a tailored fixed price inclusive care package\* with no hidden extras on a range of diagnostic tests, treatments and surgical procedures. For more information, please call our Self-pay team on **0151 929 5408**.

- 1 Use Spire Connect to upload the referral letter. Call **0151 929 5359** if you have any queries.
- 2 Our team will contact your patient to discuss consultants, dates, times and pricing.
- 3 We'll update you on your patients' progress.

## Patients with private medical insurance

A referral letter is generally required from you before any insured patient can be seen by a consultant. Patients can call our bookings team on **0151 648 7000** to arrange a convenient appointment.

- 1 Use Spire Connect to refer your patient. All patients using private insurance will need a referral letter.
- 2 Our team will contact your patient to discuss consultants, times and dates.
- 3 Your patient needs to contact their insurer to make sure they are covered for their appointment to see their chosen consultant.
- 4 We'll update you on your patients' progress.

## NHS referrals

Spire Murrayfield Hospital, Wirral provides a range of elective surgical services on behalf of the NHS, including general surgery and urology. Full details of the services provided can be found on, and referrals must be made via, the NHS eReferral system.

## Referral letters

Referral letters can be:

- Submitted online at <https://spireconnect.spirehealthcare.com>

# Self-funding patients

For help in arranging self-funded consultations and treatment, including guide prices for investigations and surgery, please ask patients to contact our self-pay team on:

Phone: **0151 929 5408**

Email: **wirralselfpaypsc@spirehealthcare.com**

## **Our fixed price packages\* offer the following benefits:**

- No waiting lists
- Fast access to leading consultants
- Treatment dates to suit the patient
- Personalised support and care

## **Typical treatments that can be self-funded:**

- Back pain treatment
- Cataract surgery
- Cosmetic surgery
- CT, MRI and ultrasound scans
- Endoscopy procedures
- Hernia repair
- Knee, hip, or shoulder surgery
- Varicose vein treatment

\*Please see a copy of Spire Healthcare's patient terms and conditions for full details. Prices vary per treatment and are dependent on each patient's individual circumstances and needs.

## Urgent/unplanned admissions

If you have a specific consultant to refer to and you have their contact details, you can organise this with them directly. Alternatively, you can call us and ask for the 'nurse in charge' of the wards, who will take initial details of the patient and organise the consultant for you.

**The hospital does not have an accident and emergency facility.**

## GP online referral guide

Spire Connect enables practice staff to log in and send secure, instant online referrals to Spire Healthcare hospitals for self-funding and PMI patients. The system is designed to be as simple and efficient as possible, while protecting all confidential information within secure servers. It's our people that really set us apart.

Visit <https://spireconnect.spirehealthcare.com> or click on Spire Connect from the GP information and resources tab on our website.

### GP registration

When you access Spire Connect for the first time you will be required to register a few personal details to allow you access to the site and grant you permission to make referrals.

The GP information and resources area will also contain information from Spire Healthcare specifically for GPs including news on our forthcoming GP events.

### Making a referral

To make a referral click on the 'Make an online referral' link and complete all relevant details. The referrals for each patient will need to come from the GP making the referral.

### Imaging and other referral types

You can make referrals for radiological investigations by selecting 'Radiology' under the specialty list. To make a referral for physiotherapy, podiatry, dietetics, psychology etc, select one of these from under 'Allied Health Professionals' in the specialty list.

### Attaching patient notes

It is possible to attach patient notes to the form, however the ease of this will depend on your own patient record software. Take a look at the options available in your software to see if records can be 'exported' or 'saved as' to your desktop. Then from there you can attach them to this form. You will need to save the notes in a common format such as a text or word document (.rtf, .pdf, .doc, .txt), a spreadsheet (.xls or .csv) or an image format (eg .bmp, .jpg). Then click the 'send referral' button at the bottom of the page to submit the referral.

## One-stop Breast Clinic

We have three Consultant Oncoplastic Breast Surgeons who operate clinics at Spire Wirral, Ms Anne Tansley, Mr Mysore Chandrashekar, Mrs Claudia Harding Mackean. All three consultant will see both insured patient and self-pay patient for the following concerns /symptoms:

- Breast lumps
- Breast pain
- Changes to the shape, colour, texture or contour of the breast
- Condition involving the nipple: discharge, rashes, and inversion
- Lumps in the armpit
- Patient requesting second opinions having received a diagnosis elsewhere
- Patients who wish to have a breast health check as they don't feel able to self-examine confidently

If patients are self-pay all three consultants will see patients without a GP referral. The patient journey through the clinic is also known as triple assessment

### Triple assessment involves:

- **Examination:** a clinical examination is performed by the surgeon and a full clinical history will be taken from the patient to assess them and their current concern
- **Imaging:** will be performed to support the consultant's clinical examination This can be a mammogram or ultrasound and will be determined by the patients age at assessment. We are supported in clinic by a Consultant Breast Radiologist who will assess the mammogram and perform the ultrasound scan.
- **Biopsy:** If a biopsy is indicated from the scans most biopsies (Core biopsy) can be performed on the day. If a more specialist biopsy is need e.g. stereotactic biopsy or vacuum assisted this may need to be performed on another day as this need more planning and staffing. Results from biopsies are normally available within a week. Any patient who has a biopsy will be discussed at the Breast Service MDT. These meeting are held weekly. Present at these meeting will be the Consultant Surgeons, Consultant Radiologist. Consultant Pathologist, Breast Care Nurse and Consultant Oncologist and MDT Coordinator. Other specialists' members of our team such as Clinical Psychologist will attend dependent on the patient being discussed clinical needs.

When patients have a cancer diagnosis, they have access to the Breast Care Nurse throughout their journey. We support both them and their family / carers answering any fears or concerns We act as the patients' key workers liaising with all other specialties involved in their care including primary care to ensure a seamless journey

# Are your patients with medical insurance using it?

Nearly 1 in 8 of the British population has a private medical insurance policy – but not everyone uses it\*. If everyone who was eligible got treated using their cover, just imagine the impact this would have on NHS waiting lists.

We always encourage patients to tell their GP if they have PMI. Why not ask them too?
