Emergency admissions

Call **01223 266 900** and ask for the nurse in charge. The hospital **does not** have an accident and emergency facility.

All Spire Healthcare sites are smoke free. Smoking and e-cigarettes are not permitted in our hospital or on our hospital site.

Spire Cambridge Lea Hospital has world-class facilities, dedicated staff and a commitment to high quality patient care.

Mr Doud Chou, Consultant Orthopaedic, Hip, Knee and Pelvic Surgeon at Spire Cambridge Lea Hospital

About Spire Cambridge Lea Hospital

At Spire Healthcare we are committed to delivering excellent individual care and customer service to all our patients, from the time they first get in touch with us until after their treatment is complete. Our dedicated and highly trained people aim to consistently achieve excellent results, in a safe and secure environment. For us it's more than just treating patients, it's about looking after people, and the safety of our patients and colleagues is our number one priority.

It's our people that really set us apart

We know that you insist on the highest standards of care for the patients who put their trust in you, and you can be sure that our team will continue that care. For us it's more than just treating patients, it's about giving patients, their family and friends the most positive experience we possibly can in our hospital.

Our consultants

Every consultant working at Spire Cambridge Lea Hospital is on the specialist register of the General Medical Council and has met our practising privileges criteria. We know continuity of care is important. Once a patient has chosen their consultant, we will make sure that they are looked after by the same consultant, from the first appointment and throughout all treatment and follow-up care.

Our nursing staff

All our nurses are highly qualified and dedicated to caring for patients in a professional manner. For ultimate reassurance, we have a fully trained clinical team equipped to deal with medical emergencies 24 hours a day.

All the facilities you'd expect and more

- 37 private rooms with freeview, free wifi access and personal nurse call system
- 18 consulting rooms
- da Vinci® robotic-assisted surgery system (general surgery, gynaecology and urology)
- MAKO robotic-assisted surgery system (orthopaedic hip and knee surgery)
- Seven operating theatres
- Dedicated ophthalmic theatre
- A JAG accredited endoscopy suite
- Multiple outpatient testing and treatment rooms
- On-site CSSD – decontamination and sterilisation department
- Free parking, including electric car charging bays
- Pharmacy (open 9am – 5pm)
- Quality assurance
- CPA accredited pathology service
- CQC registered

In 2025 we expanded our facilities with the opening of a new community-based clinic, Spire King's Lynn Clinic, providing faster access to healthcare services and greater treatment choice to people across West Norfolk.

Spire King's Lynn Clinic

- Five consulting rooms
- One treatment room
- Consultant outpatient facilities
- CQC registered
- Free parking

How to refer your patients

At Spire Cambridge Lea we are committed to delivering excellent individual care and customer service to all our patients, from the time they first get in touch with us until after their treatment is complete. Our dedicated and highly trained people aim to consistently deliver excellent patient care, in a safe and secure environment. We work to ensure every patient is treated as if they were our own vulnerable relative.

Self-funding patients

Self-funding patients are able to be seen by a consultant without a referral, although a letter is often preferred. We can provide a tailored fixed price inclusive care package* with no hidden extras on a range of diagnostic tests, treatments and surgical procedures. For more information, please call our Private Patient Advisers on **01223 266 929**.

- 1 Use Spire Connect to upload the referral letter. Call **07702 894 701** if you have any queries.
- 2 Our team will contact your patient to discuss consultants, dates, times and pricing.
- 3 We'll update you on your patients' progress.

Patients with private medical insurance

A referral letter is generally required from you before any insured patient can be seen by a consultant. Patients can call our bookings team on **01223 266 990** to arrange a convenient appointment.

- 1 Use Spire Connect to refer your patient. All patients using private insurance will need a referral letter.
- 2 Our team will contact your patient to discuss consultants, times and dates.
- 3 Your patient needs to contact their insurer to make sure they are covered for their appointment to see their chosen consultant.
- 4 We'll update you on your patients' progress.

NHS referrals

Spire Cambridge Lea Hospital provides a range of elective surgical services on behalf of the NHS, including orthopaedic, neuro-spinal orthopaedics and general surgery. Referrals must be made via the NHS eReferral system. For more information, contact our NHS team via spire.cambridgelea@nhs.net or call **01223 266 973**.

Private referrals

Referral letters can be:

- Submitted online at <https://spireconnect.spirehealthcare.com/>

Self-pay patient information

For help in arranging self-funded consultations and treatment, including guide prices for investigations and surgery, please ask patients to contact our Private Patient Advisers on:

Phone: **01223 266 929**

Email: **cambridgehospselpay@spirehealthcare.com**

Our fixed price packages* offer the following benefits:

- No waiting lists
- Fast access to leading consultants
- Treatment dates to suit the patient
- Personalised support and care

Typical treatments that can be self-funded:

- Back pain treatment
- Cataract surgery
- Cosmetic surgery
- CT, MRI and ultrasound scans
- Endoscopy procedures
- ENT procedures
- Gynaecological treatment
- Hernia repair
- Knee, hip, or shoulder surgery
- Urology procedures
- Varicose vein treatment

Finance payment options are available for patients who wish to spread the cost of their treatment.

*Please see a copy of Spire Healthcare's patient terms and conditions for full details. Prices vary per treatment and are dependent on each patient's individual circumstances and needs.

No referral criteria thresholds

Referral into the NHS isn't always possible. At Spire Cambridge Lea Hospital we don't have referral thresholds – so your patient can quickly access consultant appointments and diagnostic facilities including MRI and CT scans.

Free, instant and secure online referral portal

Spire Connect enables practice staff to log in and send secure, instant online referrals to Spire Healthcare hospitals/clinics for self-funding and PMI patients. The system is designed to be as simple and efficient as possible, while protecting all confidential information within secure servers. It's our people that really set us apart.

Visit <https://spireconnect.spirehealthcare.com> or click on Spire Connect from the healthcare professionals and resources tab on our website.

GP registration

When you access Spire Connect for the first time you will be required to register a few personal details to allow you access to the site and grant you permission to make referrals.

The healthcare professionals and resources area will also contain information from Spire Healthcare including news on our forthcoming CPD events.

Making a referral

To make a referral click on the 'Make an online referral' link and complete all relevant details.

Imaging and other referral types

You can make referrals for radiological investigations such as MRI, CT and ultrasound by selecting 'Imaging referral' under 'Type of referral'. Make a referral for physiotherapy under 'Allied Health Professionals' in the specialty list.

Attaching patient notes

It is possible to attach patient notes to the form, however the ease of this will depend on your own patient record software. Take a look at the options available in your software to see if records can be 'exported' or 'saved as' to your desktop. Then from there you can attach them to this form. You will need to save the notes in a common format such as a text or word document (.rtf, .pdf, .doc, .txt), a spreadsheet (.xls or .csv) or an image format (eg .bmp, .jpg). Then click the 'send referral' button at the bottom of the page to submit the referral.

For more information on Spire Connect, contact Luke Wilson on **07702 894 701** or at gpeducation.cambridge@spirehealthcare.com

Continued Professional Development (CPD)

We provide free regular face to face and virtual teaching sessions, conducted via Teams with our specialist consultants.

How to find out about our events

Call our Primary Care Relationship Specialist on **07702 894 701**

Email us at gpeducation.cambridge@spirehealthcare.com

Here are some examples of topics we can offer

Please note, this is not an exhaustive list.

If there is a topic that you would like to learn more about, please contact Luke Wilson, Primary Care Relationship Specialist.

- Breast health update for medical professionals
- ECG interpretations in general practice: perils and pitfalls
- Skin cancers – diagnosis and management in primary care
- Novel therapies for nasal and sinus disease
- Is it IBS or IBD, how do I manage and treat?
- A guide to common anorectal problems
- Pelvic floor dysfunction and childbirth
- Primary care management of common eye problems
- Most shoulder complaints don't require surgery, only a surgical assessment
- Pre-operative templating for a successful hip replacement
- Knee update: from sports injuries to modern knee replacement
- Sports medicine
- What's new in inflammatory arthritis?
- Common head pain and management
- Slipped disks, diagnosis, treatment and management
- Renal colic: why, when and how to treat / prevent?

Primary Care support

Spire Cambridge Lea Hospital's onsite teams offer prompt and friendly assistance for GPs and primary care professionals to help you in looking after your patients.

Primary Care Relationship Specialist

Our Primary Care Relationship Specialist is responsible for liaising with GP practices and all primary care professionals. Their role is to familiarise you with our services and consultants and to make it as easy as possible for your patients to be seen and treated at Spire Cambridge Lea Hospital.

Our Primary Care Relationship Specialist can be contacted on:

Phone: **07702 894 701**

Email: gpeducation.cambridge@spirehealthcare.com

Self-pay Team

Our self-pay team are here to help with arranging self-pay consultations and treatment, including guide prices for investigations and surgery.

One-off private treatment at a fixed price*

- Available for in-patient and day-case procedures, subject to patient pre-assessment
- Normally includes all consultant and hospital fees, out-patient physiotherapy and one follow up appointment
- Treatment of complications*

Patients can contact the team on:

Phone: **01223 266 929**

Email: cambridgehospselfpay@spirehealthcare.com

*Spire Healthcare patient terms and conditions apply.

Clinics and services

The Cambridge Gastrointestinal Centre

The Cambridge Gastrointestinal Centre at Spire Cambridge Lea Hospital enables patient's fast access to a team of highly trained and experienced consultants supported by a dedicated specialist team.

The Gastrointestinal Centre offers:

Conditions:

- Abdominal pain
- Anal fistula and fissures
- Anorectal disorders
- Barrett's oesophagus
- Bowel cancer
- Change in bowel habit
- Chronic constipation
- Crohn's disease
- Clinical nutrition
- Coeliac disease
- Colorectal cancer
- Diverticular disease
- Dyspepsia
- Gastro-oesophageal reflux disease
- Haemorrhoids
- Inflammatory bowel disease
- Irritable bowel syndrome
- Oesophageal and gastric cancer
- Pancreatic disorders
- Pancreatitis
- Pilonidal sinus
- Rectal bleeding
- Ulcerative colitis
- Upper gastrointestinal disease

Procedures:

- Colonoscopy
- Flexible sigmoidoscopy
- Gastroscopy
- Haemorrhoid treatments
- Pill cam
- Therapeutic endoscopy

Appointments: **01223 266 929**

Imaging

Department opening times

Monday to Friday **8.30am – 8pm**

(CT / MRI / Ultrasound / X-ray modalities will differ depending on demand and activity).

Imaging services include:

- Abdominal / pelvic imaging
- Arthrography
- Barium studies (upper gastrointestinal)
- Breast imaging
- CT cancer imaging
- CT guided nerve root injections
- CT / MRI venogram
- Cystography
- Doppler ultrasound
- ENT
- Fluoroscopy
- General radiography
- Mammography
- MR cholangiography
- MR enterography
- MRI breast imaging
- MRI MSK imaging
- MRI prostate imaging
- MRI women's health
- Musculoskeletal ultrasound / injections
- Neurological imaging
- Orthopantomography
- Ultrasound (general)
- Ultrasound guided aspiration
- Ultrasound guided biopsy
- Urethrography
- Vascular

Appointments: **01223 266 955**

The Cambridge Eye Centre

At Spire Cambridge Lea Hospital we have specialist Consultant Ophthalmologists offering a wide range of treatments for common eye conditions in our dedicated Eye Centre.

Cataract surgery:

- A range of intraocular lenses including monofocal, multifocal, toric and multifocal toric
- Biometry for intra ocular lenses (IOL)
- Pentacam topography for astigmatism and toric IOL's
- Phaco plus (MIGS)
- YAG laser for posterior capsular opacification

Cornea surgery:

- Cornea cross linking for keratoconus
- Corneal transplantation (DSAEK and PK)

Glaucoma treatment:

- Computerised visual fields
- Central corneal thickness measurements (pachymeter)
- IOP pressure measurements
- Laser clinics for treatment of glaucoma (SLT / PI)
- MIGS (stents and implants)
- OCT scanning
- Ocular neurology assessments
- Preserflo microshunt

Common eye conditions:

- Blepharitis
- Dry eye disease
- Thyroid eye disease
- Watery eyes and blocked tear duct

Oculoplastics:

- Chalazions
- Cosmetic procedures including blepharoplasty
- Droopy eyelid correction
- Eyelid malposition (ectropion, entropion, ptosis)
- Management of benign and malignant eyelid lesions, including eyelid reconstruction
- Management of orbital pathology (orbital inflammation, orbital tumours, eye socket surgery, orbital fractures)
- Removal of cysts / lesions

Refractive surgery:

- Refractive lens exchange and multifocal IOL

Retinal treatment:

- Age related macular degeneration
- Diabetic eye disease
- Intravitreal injections by consultant
- Medical retina treatments
- OCT macular scanning
- Vitreoretinal surgery

Paediatric and ocular motility service including orthoptics:

- Adult and paediatric strabismus
- Amblyopia and visual development abnormalities
- Infant and childhood ocular, eyelid and orbital conditions
- Inherited eye disease

Directory listings

A

Allergy

Dr Andrew Clark

Comprehensive children's allergy service, including allergy testing and management of food allergies, eczema, hay fever and asthma in infants and older children (egg, milk, nuts etc). Immunotherapy, emergency medication provision, emergency plans and training. All allergic conditions managed including anaphylaxis, food allergy, eczema, asthma and acute or recurrent hives in children. Weaning advice for concerned parents with a family history of allergy.

B

Breast surgery

Mr Amit Agrawal

Advanced oncoplastic lumpectomy (mammoplasty, mastopexy, fat modelling, partial breast reconstruction with perforator flap), reconstruction whole breast (with implant, LD flap, TDAP flap), nipple reconstruction, other procedures such as augmentation, reduction, lymph node surgery.

Mr Parto Forouhi

Breast disease, breast surgery, diagnosis and treatment of benign breast disease and breast cancer, breast pain, breast lumps, breast cysts, diagnosis and treatment of male breast problems. Paediatric assessment of breast problems. Breast cancer surgery techniques for breast aesthetics. Breast ultrasound, including intraoperative breast ultrasound (non-palpable abnormalities). General surgery: diagnosis and treatment of cutaneous and subcutaneous lumps.

C

Cardiology

Dr Rajinder Bilku

General cardiology, cardiac devices, heart failure, heart disease, arrhythmia, imaging including echocardiography, chest pain, dizziness, heart murmurs, valve disease, palpitations, hypertension, shortness of breath.

Dr Sarah Clarke

Risk factors for heart disease and their management, high blood pressure, cholesterol, family history heart disease, general cardiac concerns, family history, coronary artery disease (chest discomfort, angina, shortness of breath), cardiac rhythm abnormalities (palpitations, tachycardias, SVT, atrial fibrillation / flutter, ectopic beats, slow heart rhythm, bradycardias, heart block), heart muscle disorders (ankle swelling, heart failure, cardiomyopathy), heart valve disease (heart murmur), dizziness and blackout of unknown cause.

Dr Michael O'Sullivan

General cardiology, dizziness, chest pain, heart murmurs, heart palpitations, hypertension, shortness of breath, cardiac risk assessment, echocardiogram, angina, heart failure, coronary angiography, coronary stenting, aortic valve intervention (transcatheter aortic valve intervention, TAVI).

Dr Leonard Shapiro

General cardiology, chest pain, palpitations, murmurs, dizziness, hypertension, shortness of breath and expertise in the heart of athletes. Performs echocardiography in clinic personally and can place 24–48-hour ECG recorders whilst in the clinic.

Clinics also available at Spire King's Lynn Clinic

Dr Yogen Singh

Paediatric cardiology, congenital heart conditions (CHDs), echocardiography (echo), palpitations and cardiac arrhythmias, screening for heart problems in young adults and children.

Chest physicians

Dr Robert Buttery

General respiratory medicine, EBUS and medical thoracoscopy, lung cancer, lung diagnostics, lung oncology, mesothelioma, asthma, chest medicine, pneumonia, bronchiectasis, pulmonary fibrosis.

Dr Ravi Mahadeva

Outpatient assessment of respiratory symptoms such as breathlessness, cough, wheeze, chest pain, shortness of breath and second opinions on wide range of respiratory disease such as asthma, COPD, bronchiectasis.

D

Dermatology

Dr Anton Alexandroff

General dermatology (adult and paediatric), skin lesions including suspected skin cancer, sun damage / actinic keratoses, dermoscopy for suspected skin cancer, mole, cyst, wart and skin tag removal, cryotherapy, photodynamic therapy for sun damage and skin cancers, inflammatory skin conditions (acne, eczema, dermatitis, rosacea, urticaria, psoriasis, vitiligo), including advanced biologics and small molecules treatments, diagnosis and management of hair loss (alopecia).

Dr Douglas Maslin

General adult dermatology; mole checks and dermoscopy for skin lesions (including suspected skin cancer), inflammatory skin diseases (including psoriasis, eczema, hidradenitis suppurativa, hand dermatitis, rosacea and vitiligo), male and female pattern hair loss, skin infections (viral, fungal and bacterial), cryotherapy for warts and precancerous lesions, dermatology surgery of skin lesions.

Dr Paul Norris

General adult dermatology, skin lesions including suspected skin cancer, sun damage, dermoscopy for suspected skin cancer, local steroid injection for alopecia areata, mole, cyst and skin tag removal, cryotherapy, photodynamic therapy.

Dr Natasha Stemberge

Skin conditions (children and adults) affecting the skin, nails and hair, including; birthmarks, acne, rosacea, atopic dermatitis / eczema, psoriasis, urticaria, hidradenitis suppurativa, vitiligo, alopecia, itch, skin tags, seborrhoeic keratoses, warts and skin infections (fungal, viral or bacterial). Vulval skin conditions, bullous pemphigoid and patch testing. Mole and skin lesion checks, full skin examinations. Treatment of benign lesions, sun damaged lesions (actinic keratoses and Bowen's disease), skin cancers (basal cell carcinomas, squamous cell carcinomas and melanomas). Topical cosmetic skin care regimes to help rejuvenate skin. Cryotherapy for warts and for pre-cancerous skin lesions and dermatological surgery including punch, incisional and shave biopsy samples and removal of moles, cysts, warts, skin tags, other skin lesions and malignant skin cancers.

Dr Pamela Todd

General dermatology (adult and paediatric), vulval disorders, melanoma, pigmented lesions, patch testing for contact allergy, general skin complaints, fungal infections (skin and nail).

Dr Vanessa Van De Velde

Mole checks, benign skin lesion removal, inflammatory skin conditions (eczema and psoriasis), cryotherapy.

E

Endocrinology

Dr Samer Alsabbagh

General endocrinology, thyroid disease, parathyroid glands, adrenal and pituitary disease, hypogonadism, gonads disease, polycystic ovary syndrome, menopause, pituitary and adrenal, diabetes and prediabetes, diabetic neuropathy, diabetic nephropathy, weight management, hyponatraemia.

Dr Jeannie Todd

General endocrinology, adrenal, PCOS, hirsutism, prolactin disorders, pituitary diseases, calcium / bone / parathyroid metabolism as well as diabetes, thyroid, alopecia and neuroendocrine tumours.

ENT

Mr Furrat Amen

Adult and paediatric ENT, head and neck cancer, thyroid, glue ear, parathyroidectomy, voice disorders, allergies, nosebleeds, hearing, airway disease, nasal polyps, poor sense of smell, sinusitis, irritation of the throat, rhinoplasty.

Mr Patrick Axon

Adult and paediatric ear disease including wax removal. All forms of hearing loss and balance disorders. Glue ear, cholesteatoma and childhood ear infection. Deafness requiring stapedectomy, ossiculoplasty, hearing aids or hearing implantation. Management of skull base pathology including vestibular schwannoma. Tinnitus management including pulsatile tinnitus.

Professor Manohar Bance

Ear surgery, hearing reconstruction surgery, cochlear implants, bone conduction hearing implants, mastoidectomy, eustachian tube surgery, tympanoplasty, stapedotomy, vertigo imbalance, otology, neurotology, skull base surgery, Ménière's disease and endolymphatic sac surgery and middle ear myoclonus.

Mr Daniele Borsetto

General ENT, combined approach tympanoplasty, mastoidectomy, tympanoplasty, ossiculoplasty, stapedectomy, adenoidectomy, grommet insertion, tonsillectomy, FESS / functional endoscopic sinus surgery, flexible nasoendoscopy / laryngoscopy, vestibular assessment, hearing test, eustachian tube dysfunction, facial palsy, balance disorders / vertigo, head and neck pathology, vestibular schwannoma, paraganglioma, Meniere's disease, otology, paediatric otolaryngology, MRI.

Mr Neil Donnelly

Adult and paediatric ENT, sinus surgery, grommets insertion, laryngoscopy investigation, tonsillectomy, hearing loss, dizziness, vertigo, balance disorder, ear infections, ear wax, cochlear implants, middle ear implants, skull base tumours, vestibular schwannoma, pituitary tumour.

Mr Brian Fish

Adult and paediatric ENT, investigation and treatment of throat and neck abnormalities. Neck lumps, salivary gland disorders, thyroid and parathyroid surgery, laryngoscopy/stroboscopy investigation for voice conditions, swallowing disorders, nasal and sinus surgery, tonsillectomy, grommets insertion, snoring, investigation and treatment of head and neck cancers, Sistrunk procedure.

Miss Ekpemi Irun

General ENT, cancer tests, neck lumps, thyroid surgery, salivary gland disorders, throat problems, voice problems, nose reshaping (rhinoplasty), tonsillectomy, septoplasty surgery, scar revision, cancer of the head and neck (diagnosis and surgery), snoring issues, swallowing problems, ear microscopy, nasal obstruction, sinus problems, ear infection, hearing loss, ear ache, flexible nasal laryngoscopy and stroboscopy, rigid nasal endoscopy, trans-nasal oesophagoscopy (tno), anti-wrinkle treatment with Botox and fillers, robotic surgery.

Mr Piyush Jani

General adult and paediatric ENT, neck lumps, thyroids, salivary glands, nasal conditions, sleep disorders, laryngology, thyroid surgery, parathyroid surgery, rhinology.

Mr Nico Jonas

Specialist paediatric and general adult ENT: tonsil and adenoid related problems, snoring, croup, sleep apnoea, airway problems, tonsillectomy, adenoidectomy, hearing problems, ear infections, glue ear, grommets insertion. Laryngoscopy investigation, septoplasty surgery, sinus surgery, nosebleeds, investigation and treatment of neck lumps, tongue tie.

Mr David Mckiernan

Adult and paediatric ENT, sinus surgery, nasal polyps, allergy testing, recurrent sinusitis, rhinology, balloon sinuplasty, primary and revision rhinoplasty, septal surgery, correction of prominent ears, facial lesions and local flaps, cosmetic and functional rhinoplasty, tonsillitis, tonsillectomy, glue ear, hearing problems, throat problems.

Mr Saleh Okhovat

Sinusitis, nasal blockage, deviated septum, nasal valve collapse, nasal tip pathology, nasal allergy, loss of smell, nasal polyps, septoplasty, functional and cosmetic rhinoplasty, revision rhinoplasty, nasal reconstruction, septal perforation repair, complex sinus and skull base surgery, sinonasal tumours, endoscopic pituitary surgery, watery eye (epiphora) surgery.

Mr Rishi Sharma

Adult and paediatric ENT, allergy testing, balloon sinuplasty for chronic sinusitis, grommets insertion, laryngoscopy investigation, septoplasty surgery, sinus surgery, thyroid test, complex revision sinus surgery, sino-nasal tumours, endoscopic pituitary and skull base surgery, nasal polyps, loss of smell, tonsillitis.

Mr Ibrahim Srouji

Cosmetic and functional rhinoplasty, septoplasty, ear pinning, adult and children's ENT, sinus surgery, grommets insertion, tonsillectomy, voice disorders, ear problems and dizziness.

Professor James Tysome

Adult and paediatric ENT, hearing loss, eustachian tube balloon dilatation, glue ear, grommet insertion, ear infections, tinnitus, dizziness and balance, sinusitis, sinus surgery, nasal polyps, septoplasty, tonsillitis, tonsillectomy, laryngoscopy investigation, snoring, cochlear implants, skull base tumours.

G

Gastroenterology

Dr Gareth Corbett

Acid reflux and indigestion, abdominal pain, irritable bowel syndrome, pancreatitis, inflammatory bowel diseases including Crohn's disease and ulcerative colitis, coeliac disease, diarrhoea, constipation, bowel cancer screening, bowel polyps, anaemia, unexplained symptoms, colonoscopy, gastroscopy, flexible sigmoidoscopy, capsule endoscopy and advanced therapeutic endoscopic procedures.

Professor Miles Parkes

Colonoscopy, flexible sigmoidoscopy, gastroscopy for investigation of abdominal symptoms including change in bowel pattern (diarrhoea, constipation), rectal bleeding and abdominal pain, colon polyps, inflammatory bowel disease, Crohn's disease, ulcerative colitis, stomach and bowel cancer, anaemia.

Dr Philip Roberts

Colonoscopy, flexible sigmoidoscopy, gastroscopy, inflammatory bowel disease, gastro-oesophageal reflux, dyspepsia, irritable bowel syndrome. Change in bowel habits (diarrhoea, constipation) and abdominal pain.

Dr Syed Shaukat

Bowel cancer screening, colonoscopy, flexible sigmoidoscopy, gastroscopy, liver disease, pancreatology, anorectal disorders, Barrett's oesophagus, irritable bowel disease, inflammatory bowel syndrome, therapeutic endoscopy, dyspepsia, colorectal cancer, diverticular disease, gastro-oesophageal reflux disease, oesophageal and gastric cancer, ulcerative colitis, upper gastrointestinal disease.

Clinics also available at Spire King's Lynn Clinic.

Dr Sree Subramanian

Colonoscopy, flexible sigmoidoscopy, gastroscopy, inflammatory bowel disease, change in bowel pattern (diarrhoea, constipation), acid reflux, coeliac disease, Crohn's disease, ulcerative colitis, irritable bowel syndrome, bowel cancer screening, abdominal pain, polypectomy.

Dr Siby Varghese

Diagnostic and therapeutic endoscopic procedures including polypectomy, colonoscopy, flexible sigmoidoscopy, gastroscopy, endoscopic ultrasound (diagnostic and therapeutic EUS), pancreatitis and pancreatic disorders, inflammatory bowel disease, irritable bowel syndrome, gastro-oesophageal reflux disease and Barrett's oesophagus, coeliac disease, glucose and lactose hydrogen breath test, change in bowel habit (diarrhoea and constipation), rectal bleeding and abdominal pain.

Dr Jeremy Woodward

Colonoscopy, flexible sigmoidoscopy, gastroscopy, management of abdominal pain, upper gastrointestinal disease, inflammatory bowel conditions (including Coeliac disease), pancreatic disorders and nutritional aspects of gastrointestinal diseases, irritable bowel disease, diagnostic and therapeutic upper and lower endoscopy including Pill Cam.

General surgery

Mr Amit Agrawal

Breast lump investigation, breast lump removal, breast reconstruction following mastectomy, mastectomy, sentinel lymph node biopsy and lymph node removal, benign breast problems, breast cancer, breast care, breast disease, general breast surgery, breast implant removal, breast uplift (mastopexy).

Miss Dilraj Bilku

Gastrointestinal surgery, open / laparoscopic surgery, oncological surgery, colorectal cancer, inflammatory bowel disease, bowel cancer screening, change in bowel habit, ulcerative colitis, Crohn's disease, diverticular disease, colostomy and ileostomy surgery, appendicectomy, colonoscopy, polypectomy, trans-anal minimally invasive surgery for rectal polyps (TAMIS), flexible sigmoidoscopy, proctoscopy, rectal prolapse repair, rectal bleeding, pilonidal sinus, haemorrhoids, anal fistula, anal fissure, anal skin tag, benign skin lumps and bumps (lypomas / sebaceous cysts etc).

Mr Justin Davies

All aspects of colorectal surgery including, general surgery, open / laparoscopic surgery, open hernia surgery, colonoscopy, flexible sigmoidoscopy, rigid sigmoidoscopy, proctoscopy, modern management of haemorrhoids (HALO / THD), piles (rubber band ligation, haemorrhoidectomy), laparoscopic surgery for bowel cancer, inflammatory bowel disease, Crohn's disease, ulcerative colitis, diverticular disease, inguinal / groin hernia, umbilical hernia, anal pain, rectal bleeding, change in bowel habit, anal fissure, anal abscess, anal fistula, anal skin tags, bowel cancer screening.

Mr Parto Forouhi

Breast disease, breast surgery, diagnosis and treatment of benign breast disease and breast cancer, breast pain, breast lumps, breast cysts, diagnosis and treatment of male breast problems. Paediatric assessment of breast problems. Breast cancer surgery techniques for breast aesthetics. Breast ultrasound, including intraoperative breast ultrasound (non-palpable abnormalities). General surgery: diagnosis and treatment of cutaneous and subcutaneous lumps.

Mr Michael Gaunt

Minimally invasive varicose vein surgery, endovenous laser therapy (EVLT) and VNUS Closure™ for varicose veins, ultrasound-guided varicose vein foam sclerotherapy, micro-sclerotherapy for thread veins, VeinWave thermocoagulation for facial and skin veins, hernia repair, hyperhidrosis (injection therapy), arterial disease, monitoring of carotid artery disease, monitoring of aortic aneurysms, lymphoedema, leg swelling, spider veins, red veins, facial veins, venous eczema, venous ulceration, deep vein thrombosis, phlebitis, venous and arterial disorders, peripheral vascular disease, lumps and bumps.

Mr Manj Gohel

Vascular surgery, endovenous interventions for varicose veins, endovascular surgery, deep venous disease, thread veins, leg ulcers, radiofrequency ablation, cyanoacrylate glue closure, post-thrombotic syndrome, aortic aneurysm, peripheral vascular disease.

Mr Emmanuel Huguet

General surgery, laparoscopic cholecystectomy (gallbladder removal), surgery for conditions of the liver, bile duct and pancreas (HPB surgery), liver, bile duct and pancreas tumours.

Mr Asif Jah

Laparoscopic gallbladder surgery, liver, pancreas and biliary (HPB) surgery.

Mr Heman Joshi

General and colorectal surgery, colorectal cancer, inflammatory bowel disease, pelvic floor disorders, rectal prolapse, diverticular disease, inguinal / femoral hernia repair (laparoscopic), umbilical hernia repair, haemorrhoid removal, pilonidal sinus, anal fistula, anal fissure, gastroscopy, colonoscopy, flexible sigmoidoscopy, robotic surgery, bowel cancer screening, bowel surgery, colostomy and ileostomy, skin lumps / lipomas.

Mr Siong-Seng Liau

Robotic-assisted surgery using a da Vinci® system and laparoscopic gallbladder surgery, gallbladder removal (cholecystectomy), gallstones disease management, gallbladder polyps, gallbladder cancer, bile duct stones, bile duct strictures, bile duct cancer, liver cancer, secondary liver cancer, pancreatic cancer, biliary disease, robotic-assisted surgery, benign liver tumours, liver cysts, pancreatic cancer, pancreatic cysts, pancreatic neuroendocrine tumours, pancreatology, acute and chronic pancreatitis, umbilical / paraumbilical hernia.

Miss Bushra Zahid Saeed

Menstrual disturbance, pelvic pain, ovarian cyst, uterine polyp, polycystic ovarian syndrome, PMS, amenorrhoea, menopause, contraception, laparoscopic and open surgery, hysteroscopic surgery, endometrial ablation, vulval cyst, female sterilisation, cervical smear (screening), cervical polyp, removal and placement of a mirena coil.

Mr Peter Safranek

Laparoscopic surgery, gallbladder / gallstone removal (cholecystectomy), hernia surgery (inguinal, femoral and paraumbilical), upper gastrointestinal endoscopy (gastroscopy).

Prof Irshad Shaikh

Robotic-assisted surgery using a da Vinci® system, general and colorectal surgery, endoscopy, flexible sigmoidoscopy, colonoscopy, polypectomy, family history bowel cancer, haemorrhoids, anal fistula, fissure and appendicectomy, hernia repair - inguinal, umbilical, femoral and incisional, (laparoscopic and open techniques), ileostomy formation and reversal, inflammatory bowel disease, ulcerative colitis, Crohn's disease, indeterminate colitis, intestinal / rectal endometriosis, laparoscopic colorectal cancer surgery, lumps / bumps, minimal access surgery, pelvic floor, pilonidal sinus, rectal prolapse surgery, reversal stoma.

Clinics also available at Spire King's Lynn Clinic

Mr Constantinos Simillis

Robotic-assisted surgery using a da Vinci® system, colorectal surgery, general surgery, gastrointestinal surgery, open / laparoscopic / robotic surgery, oncological surgery, colorectal cancer, advanced or recurrent colorectal cancer, inflammatory bowel disease (ulcerative colitis, Crohn's disease), diverticular disease, colostomy and ileostomy surgery, appendicectomy, colonoscopy, flexible sigmoidoscopy, proctoscopy, hernia surgery (groin, inguinal, femoral, abdominal, incisional, paraumbilical hernia), pilonidal sinus, haemorrhoids, anal fistula, anal fissure, skin tag, benign skin lumps.

Mr Vijay Sujendran

Hernia and gallbladder, laparoscopic hernia and laparoscopic cholecystectomy and general surgical conditions including abdominal wall hernias, gallbladder, gallstones.

Gynaecology

Dr Rosie Atterton

Menopause care: diagnosis and management of all aspects of menopause including hormone replacement therapy, testosterone and non-hormonal therapies. Mirena intrauterine system insertion and removal and Nexplanon contraceptive implant insertion and removal.

Mr Peter Baldwin

Robotic-assisted surgery using a da Vinci® system, colposcopy, menstrual irregularities including menorrhagia, peri and postmenopausal bleeding, pelvic masses and cysts, cancer and pre-cancer, menopausal problems, vulvar disease, hysteroscopy, laparoscopic surgery, endometrial ablation, hysterectomy.

Mr Krishnayan Haldar

Robotic-assisted surgery using a da Vinci® system, laparoscopic and open surgery for benign and malignant gynaecological conditions, menstrual irregularities, post menopausal bleeding, hysteroscopy, cervical smear abnormalities, colposcopy, management of pre-cancer and cancer of cervix, uterus, ovary and vulva.

Professor Mohamed Mabrouk

Robotic-assisted surgery using a da Vinci® system, endometriosis, bowel endometriosis, pelvic pain, heavy menstrual bleeding, menorrhagia, laparoscopic hysterectomy and myomectomy, hysteroscopy, endometrial ablation surgery, ovarian cyst removal, fibroids, uterine polyps, complex laparoscopic and hysteroscopic surgeries, adenomyosis, uterine bleeding, reproductive surgery.

Miss Erika Manzo

Menstrual disturbance, adolescent gynaecology (16+yrs), endometriosis, adenomyosis, uterine fibroids, ovarian cysts, laparoscopic surgery, hysterectomy surgery, hysteroscopic surgery, endometrial ablation, menopause, PMS, PMDD, gynaecological endocrinology (i.e polycystic ovarian syndrome), investigations for female sub fertility (i.e tubal testing, HyCoSy,) periods disturbance, amenorrhoea, contraception, female sterilisation, ultrasound scans.

Miss Ivilina Pandeva

Urogynaecology subspecialist: investigations and treatments, primary and recurrent pelvic organ prolapse, vaginal prolapse, uterine prolapse, vaginal and minimal access (laparoscopic or key-hole) operations for prolapse, urodynamics test, hysteroscopy procedures, female urinary incontinence (SUI), native tissue continence procedures, laparoscopic continence operations, pelvic floor dysfunction.

Mr Pubudu, N J, Pathiraja

Robotic-assisted surgery using a da Vinci® system, heavy bleeding and menstrual problems, post-menopausal bleeding, HRT related symptoms, uterine fibroids, pelvic pain and endometriosis, ovarian cysts, menopause symptoms, cervical smear abnormalities, colposcopy, hysterectomy surgery, sentinel lymph node biopsy and lymph node removal, prophylactic surgical procedure for high risk ovarian cancer or family history of breast cancer, endometrial cancer surgery, ovarian cancer surgery and cervical cancer surgery, vulvo-vaginal melanoma, fertility preservation ovarian and cervical cancer surgery, robotic surgery, laparoscopic surgery and open surgery as necessary.

Clinics also available at Spire King's Lynn Clinic

Spire

Cambridge Lea Hospital

World-class experts in diagnostics

At Spire Cambridge Lea Hospital you can see leading diagnostic experts in as little as **48 hours** – so you can get better, faster.

Our experienced and highly qualified staff produce quick, accurate results in the comfort of a private hospital.

Fast, flexible access to diagnosis and treatment

You can access our services when you need them, with appointment times available Monday to Friday to suit you.*

Advanced technology

We use the latest, most advanced technology and equipment to help you take the first step towards reclaiming your health.

Comprehensive range of diagnostic services

- CT scanning
- MRI scanning
- Fluoroscopy
- Ultrasound
- Mammography
- X-ray services

Book to see an expert today

*Timings given are indicative, actual timings may vary based on consultant and tests required.
*A referral from your GP or Consultant is required prior to arranging an appointment

Looking after you.

Dr Lukasz Polanski

Reproductive medicine subspecialist, infertility investigations and ovulation induction, recurrent miscarriage, gynaecological and reproductive endocrinology, primary and secondary amenorrhoea, PCOS, paediatric and adolescent gynaecology, endometriosis, gynaecological and early pregnancy ultrasound including 3D ultrasound, endometriosis scanning, hystero-contrast sonography, saline sonography (HyCoSy), heavy menstrual bleeding and menstrual dysfunction, menstrual problems, contraceptive advice and coil fitting, post-menopausal bleeding, menopause symptoms, hysteroscopic surgery for endometrial polyps, fibroids, adhesions, congenital uterine anomalies, laparoscopic and open surgery for uterine fibroids, endometriosis (stage 1 and 2), ovarian cysts, laparoscopy and dye test, prophylactic surgical procedure for high risk ovarian cancer or family history of breast cancer, including hysterectomy.

Clinics also available at Spire King's Lynn Clinic

Mrs Chhaya Prasanna-Nair

Subfertility, assisted conception, menstrual disorders, early pregnancy problems, contraception, hysteroscopy, coil insertions and removal, menopause, psychosexual problems, cervical smear (screening).

Miss Nadia Rahman

Pelvic organ prolapse, non mesh prolapse surgery, reoccurring urinary tract infections, urodynamic studies and bladder investigations (cystoscopy), anterior / posterior colporrhaphy, SUI procedure (urethral bulking), overactive bladder management (botox), vaginal hysterectomy, general gynae repair operation for vaginal / vulval cysts, polyp removal, mirena coil change, repair of labial defects following childbirth.

Miss Bushra Zahid Saeed

Menstrual disturbance, pelvic pain, ovarian cyst, uterine polyp, polycystic ovarian syndrome, PMS, amenorrhoea, menopause, contraception, laparoscopic and open surgery, hysteroscopic surgery, endometrial ablation, vulval cyst, female sterilisation, cervical smear (screening), cervical polyp, removal and placement of a mirena coil.

Mr Aslam Shiraz

Robotic-assisted surgery using a da Vinci® system, heavy bleeding, menstrual problems, post-menopausal bleeding, HRT related symptoms, uterine fibroids, pelvic pain, endometriosis (Stage 1/2), ovarian cysts, menopause symptoms, cervical smear abnormalities, colposcopy, hysterectomy, sentinel lymph node biopsy and lymph node removal, prophylactic surgical procedure for high risk ovarian cancer or family history of breast cancer, endometrial cancer surgery, ovarian cancer surgery, cervical cancer surgery, vulvo-vaginal melanoma, fertility preservation ovarian and cervical cancer surgery, laparoscopic surgery, open surgery.

Clinics also available at Spire King's Lynn Clinic

H

Haematology

Dr Dipti Chitnavis

General haematology, abnormal blood counts, anaemia, anticoagulation, bleeding disorders, clotting disorders, deep vein thrombosis, pulmonary embolism, thrombophilia, antiphospholipid syndrome, iron overload disorders (ie Haemochromatosis), immune thrombocytopenic purpura (ITP), monoclonal gammopathy of undetermined significance (MGUS), myelodysplasia (MDS), myeloma, myeloproliferative disorders (ie polycythaemia vera, essential thrombocythaemia, myelofibrosis).

Professor George Follows

Blood disorders, abnormal blood counts, anaemia, blood cancers (leukaemia, lymphoma, Hodgkin's disease), myeloma, myelodysplasia, haematological oncology.

Hand surgery

Mr Ian Grant

All aspects of hand surgery, WALANT surgery (local anaesthetic wide awake) for Dupuytren's and cubital tunnel surgery. Surgery of the hand and wrist, carpal tunnel syndrome surgery, Dupuytren's contracture, DeQuervain's tendonitis, ganglion removal surgery, trigger finger release, thumb base arthritis treatment, cubital tunnel release, ligament repair and reconstruction, joint fusion, management of lumps and skin lesions in the hand, joint replacement surgery of the hand.

Mr James Hopkinson-Woolley

All aspects of hand and wrist surgery, trigger finger release, carpal tunnel syndrome surgery, Dupuytren's contracture, ganglion removal surgery, hand, wrist and scaphoid fracture surgery, ulnar nerve compression (cubital tunnel syndrome); de Quervain's disease, arthritis of the hand and wrist, lumps and bumps in the fingers, hand and wrist, repetitive strain injury.

Mr Arpit Patel

Carpal tunnel syndrome, trigger finger release, de Quervain's contracture and Dupuytren's surgery including WALANT surgery (wide awake surgery under local anaesthetic).

Clinics also available at Spire King's Lynn Clinic

Mr Alex Reid

Wide awake surgery (under local anaesthetic) specialist, carpal tunnel syndrome, trigger finger, Dupuytren's contracture, arthritis of the fingers and thumb (including joint replacement), problems with tendons (stuck, cut or ruptured tendons), ganglion removal surgery, other peripheral nerve entrapment (cubital tunnel, lacertus tunnel, Guyon's canal syndrome), lumps and bumps in hand, hand trauma, reconstruction after trauma.

N

Nephrology

Dr Christopher Lawrence

Kidney disease, glomerulonephritis, diabetic nephropathy, renovascular disease, proteinuria, nephrotic syndrome, chronic kidney disease, acute kidney injury, UTI, renal stones, transplantation, lupus, Ig A nephropathy, FSGS, membranous, minimal change disease, haematuria, kidney biopsy, immunosuppression.

Neurology

Dr Charlotte Brierley

General neurology, headache treatment, multiple sclerosis, stroke, Parkinson's disease, peripheral nerve disorders and muscle disease, muscular dystrophy.

Dr Thomas Cope

Neurology, neuropsychiatry, dementia, epilepsy, seizures, cognitive disorders, speech disorders, Parkinson's disease, movement disorders, head injury, headache, hallucinations, tic disorders, memory problems, Alzheimer's disease, frontotemporal dementia.

Dr Nushan Gunawardana

General neurology, peripheral nerve disorders, movement disorders, memory disorders, Alzheimer's disease, TIA, functional neurological disorders, Motor neuron disease, neurogenetics, neuro-immunology, neuro-ophthalmology, pain management, sleep disorders, neuromuscular disorders, muscle disorders, headache, epilepsy, stroke, Parkinson's disease, multiple sclerosis.

Dr Anke Hensiek

General and hereditary neurological disorders, including ataxia, neurofibromatosis, movement disorders and spastic paraparesis, headache, multiple sclerosis, dizziness, epilepsy, memory disorders, hereditary neurological diseases, Parkinson's disease.

Dr Susan Ozer

Attention deficit hyperactivity disorder (ADHD), autism spectrum disorders, developmental delay.

Dr Paul Worth

General neurology, diagnosis and treatment of Parkinson's disease, movement disorders, ataxia, dystonia, headache, dizziness, neuralgia (nerve pain) treatment, progressive supranuclear palsy, multiple systems atrophy.

Dr Stephen Wroe

Head, brain and spinal cord disease and injury, neurological consequences of trauma, cerebral haemorrhage and stroke, peripheral nerve injuries, chronic fatigue syndrome, dizziness and loss of consciousness, memory impairment, dementia, epilepsy, head injury, headache and migraine, speech and language disorders, muscular dystrophy, multiple sclerosis, whiplash injuries.

Neurophysiology

Dr Andrew Michell

Nerve conduction and EMG for tingly or numb fingers, carpal tunnel syndrome, ulnar neuropathies, peripheral neuropathies, myopathies, fasciculations, weakness and other problems suspected to be caused by peripheral nerve or muscle disease.

Neurosurgery

Mr Dan Brown

Spinal neurosurgery, back pain, spinal stenosis, sciatica, neck pain, cervical disc problems, brain aneurysms, AVMs and cavernoma, spinal surgery, degenerative spinal disease, disc prolapse, degenerative compressive myelopathy, lumbar and cervical disc prolapse, neurosurgery including vascular abnormalities such as aneurysms, lumbar spine disorders, vascular and /or skull base disorders, discectomy.

Clinics also available at Spire King's Lynn Clinic

Mr Jibin Francis

Spinal and general neurosurgery, lumbar and cervical disc, minimally invasive and endoscopic spinal surgery, spinal tumour, injuries and infection, chiari malformation and syringomyelia, spontaneous intracranial hypotension, back pain, sciatica, spinal stenosis, lumbar disc problems, neck pain, cervical disc disease, myelopathy, degenerative spine, lumbar spine disorders, complex spinal conditions.

Clinics also available at Spire King's Lynn Clinic

Mr Robert Morris

Spinal neurosurgery, back surgery, neck pain, back pain, brain tumours, degenerative spine, lumbar spine disorders, degenerate spine and disc problems, surgery for brain tumours, Parkinson's disease, epilepsy, carpal tunnel syndrome surgery, lumbar and cervical disc prolapse lumbar canal stenosis, functional and neuro-oncology surgery.

Mr Rikin Trivedi

Spinal neurosurgery, disc prolapse, spinal stenosis, general neurosurgery, cerebrovascular and skull base surgery, keyhole spine surgery, spinal tumours, spondylolithesis, pars defect, spinal fusion, spinal navigation, neck pain and cervical disc problems, syringomyelia, cervical disc replacement, complex spine surgery.

O

Ophthalmology

Mr Philip Alexander

Cataract removal surgery, laser eye treatment (YAG laser capsulotomy), epiretinal membrane, floaters, macular hole, macular surgery, retinal detachment, vitreomacular traction, vitreous haemorrhage, surgery for repair of complications of previous cataract surgery, diabetic eye disease, posterior capsular opacification following cataract surgery.

Miss Louise Allen

General adult ophthalmology; all specialist paediatric ophthalmology, including: ocular genetics, congenital cataract surgery, lid lesions, paediatric squint management, surgery and amblyopia (lazy eye), genetic eye disease, paediatric cataract surgery.

Professor Rupert Bourne

Cataract removal surgery, advanced glaucoma diagnostics and treatment, glaucoma filtration surgery (trabeculectomy), aqueous stent insertion (Preserflo microshunt and Baerveldt tubes) and minimally invasive glaucoma surgery for reduction of eye pressure in glaucoma, laser eye treatment (YAG laser capsulotomy, YAG laser peripheral iridotomy, SLT laser), and lens refractive surgery, glaucoma surgery, glaucoma implant devices, minimally invasive glaucoma surgery, PreserFlo™, trabeculectomy, refractive lens exchange surgery, corneal and external eye disease.

Dr Erika Damato

General ophthalmology, medical retinal disease, age related macular degeneration, retinal vein occlusion, diabetic retinopathy, uveitis, scleritis, inflammatory eye disease, thyroid eye disease, management of ocular inflammatory diseases, dry eye, blepharitis, immunosuppression, medical management of ocular and orbital inflammation, corneal and external eye disease.

Mr Stylianos Georgoulas

Cataract removal surgery, dry eye syndrome, eyelid cyst surgery, glaucoma treatment, glaucoma filtration surgery, insertion of aqueous stent in the anterior chamber (Baerveldt or Ahmed), laser eye treatment (YAG laser capsulotomy), lens refractive surgery, refractive lens exchange surgery, SLT laser, trabeculectomy, YAG laser peripheral iridotomy.

Miss Brinda Muthusamy

Cataract surgery, paediatric ophthalmology, squint surgery, eyelid cyst surgery, laser eye treatment (YAG laser capsulotomy), adult strabismus (squint) surgery, adjustable squint surgery, temporal artery biopsy, neuro-ophthalmology.

Mr Douglas Newman

Cataract removal surgery, laser eye treatment (YAG laser capsulotomy), intravitreal injections, medical retina conditions (including age-related macular degeneration, retinal vein occlusion), vitreoretinal surgery (including macular hole, macular epiretinal membrane, vitreomacular traction, retinal tear, retinal detachment).

Mr Jong Ong

Cataract removal surgery, age-related macular degeneration treatment, laser eye treatment (YAG laser capsulotomy), mole, cyst, wart and skin tag removal, refractive lens exchange surgery, vitreo-retinal surgery, corneal and external eye disease, diabetic eye disease, glaucoma treatment, lacrimal disorders, macular degeneration, refractive surgery, retinal disease, small incision cataract surgery, medical retinal disorders, diabetic retinopathy and vascular disorders, retinal detachment, macula surgery.

Mr Madhavan Rajan

Cataract removal surgery, multifocal and toric intraocular lens implantation, refractive lens exchange surgery, premium cataract surgery (microincision) and multifocal / toric intraocular lenses, laser eye treatment (YAG laser capsulotomy), dry eye management, blepharitis, keratoconus management with corneal crosslinking surgery, corneal disorders, pterygium surgery, lid chalazion removal surgery.

Mr Cornelius René

Ophthalmic plastic surgery, benign eyelid lesions (cysts, warts, styes etc), malignant eyelid lesions (eyelid cancers and eyelid reconstruction), cosmetic eyelid surgery (blepharoplasty, brow lift), ptosis (droopy eyelids), lacrimal surgery (watery eyes, blocked tear ducts), management of orbital pathology (orbital inflammation, orbital tumours, thyroid eye disease, orbital fractures), blepharitis, dry eyes, in-growing eyelashes, blepharospasm, ectropion, entropion, eye socket related problems.

Mr Francesco Sabatino

Vitreoretinal surgery, floaters, macular hole, epiretinal membrane, retinal detachment, vitreous haemorrhage, management of aphakia, advanced diabetic eye disease, ocular trauma, cataract surgery (complex and routine) with standard, toric and multifocal intraocular lenses, management of complications of cataract surgery, YAG laser posterior capsulotomy.

Miss Humma Shahid

Cataract removal surgery including complex cataracts and use of premium intraocular lenses (including toric and multifocal lenses); advanced glaucoma diagnostics and treatment to include glaucoma filtration surgery (trabeculectomy), aqueous stent insertion (Preserflo microshunt and Baerveldt tubes) and minimally invasive glaucoma surgery for reduction of eye pressure in glaucoma, laser eye treatment (YAG laser capsulotomy, YAG laser peripheral iridotomy, SLT laser), and lens refractive surgery; management of dry eyes and blepharitis and eyelid cyst surgery.

Mr John Sharp

Patient education for cataract surgical choices, premium microincision cataract surgery including treatment of astigmatism with toric lenses, extended depth of focus lenses, manual small incision cataract surgery for the most difficult cataracts, corneal cross-linking for keratoconus, dry eye, blepharitis, laser eye treatment (YAG laser capsulotomy), corneal transplant surgery (DMEK, DSAEK, PK, DALK), keratitis, pterygium removal surgery, band keratopathy treatment.

Mr Martin Snead

Vitreous and retinal surgery, ocular trauma, diabetic retinopathy, stickler syndrome, cataract surgery, macular surgery, macular hole repair, epiretinal membrane surgery for repair of complications of previous cataract surgery, diabetic eye disease, macular degeneration, retinal disease, age-related macular degeneration treatment.

Mr Christopher Stephenson

Premium microincision cataract surgery, multifocal / toric / phakic intraocular lens implants, corneal transplantation, keratoconus management, dry eye management, blepharitis, keratitis, refractive lens exchange surgery, laser eye treatment (YAG laser capsulotomy).

Mr Liam Sullivan

Diabetic eye disease, retinal disease, age-related macular degeneration treatment, laser eye treatment (YAG laser capsulotomy), intravitreal injections, retinal vein occlusions, laser eye surgery for retinal conditions, cataract surgery, YAG laser capsulotomy after cataract surgery, management of retinal and macular diseases.

Mr Simon Woodruff

Oculoplastic surgery, cosmetic eyelid surgery, blepharoplasty, periocular / eyelid skin cancers, ptosis, ectropion, entropion, reconstructive surgery, thyroid eye disease management, dry eyes and blepharitis, socket surgery, orbital surgery, watery eyes and lacrimal surgery (external, endoscopic tear duct surgery), Botulinum toxin, medicolegal ophthalmology.

Oral and maxillofacial

Mr Malcolm Cameron

Oral and maxillofacial surgery, mouth cancer, facial trauma, orofacial cancer, salivary gland surgery, jaw cysts, retained and difficult teeth and tooth roots, scar revision, wisdom teeth removal, facial surgery, head and neck oncology, head and neck pathology, head and neck surgery, oral surgery.

Orthopaedics

Mr Ali Bajwa

Robotic-assisted surgery using a Mako system, hip arthroscopy, hip replacement surgery, knee arthroscopy surgery, knee ligament surgery, knee replacement, sports injury – ligaments and tendons, stemcells.

Clinics also available at Spire King's Lynn Clinic

Mr Michael Barrett

Achilles tendon disorders, ankle arthritis, injury of the ankle ligaments, bunion surgery, lesser toe deformities, heel pain, plantar fasciitis, venous thromboembolism, arthritis of the big toe, ingrowing toenail, joint pain treatment, joint manipulation treatment, osteoarthritis, ankle replacement.

Clinics also available at Spire King's Lynn Clinic

Mr Mahendar Bhat

Rotator cuff repair, shoulder stabilisation, shoulder arthroscopy, shoulder replacement surgery, distal biceps repair, elbow surgery, hand surgery, wrist surgery, tennis elbow release, golfer's elbow release, ulnar nerve release at the elbow or wrist, carpal tunnel release, Dupuytren's contracture release, trigger finger release, ganglion excision.

Clinics also available at Spire King's Lynn Clinic

Mr Jose Blanco

Robotic-assisted surgery using a Mako system and robotic assisted hip and knee surgery (CORI), hip and knee surgery, hip replacement surgery, direct anterior approach hip surgery (DAA), knee arthroscopy surgery, knee ligament reconstruction, sports injury, sports and exercise medicine (including joint injections), knee replacement surgery, paediatric orthopaedic surgery, children's bone and joint treatment, keyhole surgery including ACL and ligament repair

Clinics also available at Spire King's Lynn Clinic

Mr Andrew Carrothers

Robotic-assisted surgery using a Mako system, knee arthroscopy, hip replacement surgery, hip revision surgery, bespoke symbios custom hip implants, knee replacement, partial knee replacements, joint manipulation treatment, joint pain treatment (joint injections), regenerative therapies – PRP and N-stride injections, pelvis and acetabulum fractures, lower limb metastasis, lower limb sports injuries, lower limb disorders and reconstruction, iTOTAL conformis knee implants.

Mr Jai Chitnavis

Knee surgery, osteoarthritis, soft tissue injuries, sports injury, sports medicine, knee arthroscopy, knee replacement, knee ligament surgery, ligament reconstruction, open wedge tibial osteotomy.

Mr Daud Chou

Robotic-assisted surgery using a Mako system, knee arthroscopy, hip surgery, hip revision replacement surgery, knee surgery, osteoarthritis, hip mega prosthesis surgery, pelvic and acetabular surgery, joint manipulation treatment, joint pain treatment (joint injections), lower limb fracture surgery.

Clinics also available at Spire King's Lynn Clinic

Mr John Crawford

Back surgery (spinal surgery), degenerative disease of lumbar spine and cervical spine, scoliosis, spinal deformity, spinal infection and spinal fusion, tumours, spinal surgery, degenerative conditions of neck and lumbar spine, spinal trauma, spinal fractures, spinal disc problems, sciatic type pains in legs.

Mr Amitabh Dwyer

Shoulder, hand and elbow surgery, anatomic and reverse total shoulder replacement, shoulder arthroscopy, frozen shoulder treatment with injection therapy / capsular release, rotator cuff shoulder tendon repair, proximal long head of biceps tenodesis, shoulder stabilisation procedure / labral repair for instability, ACJ reconstruction, arthroscopic SLAP repair, carpal tunnel syndrome treatment, Dupuytren's contracture, trigger finger, tennis and golfer's elbow, elbow surgery, Outerbridge-Kashiwagi (OK) procedure for arthritis of elbow, sports injuries.

Mr James Gill

Robotic-assisted surgery using a Mako system, knee surgery, total and partial knee replacement surgery, arthroscopic knee surgery, meniscal repair and debridement, anterior cruciate ligament (ACL) reconstruction, osteotomy and patella stabilisation surgery.

Mr Chris Gooding

Robotic-assisted surgery using a Mako system, hip replacement surgery, knee replacement surgery, knee arthroscopy surgery, joint manipulation treatment, joint pain treatment (joint injections), metastases to the lower limbs, revision hip arthroplasty surgery, arthroscopy, hip revision surgery, osteoarthritis, soft tissue injuries, sports injury.

Mr James Hopkinson-Woolley

Trigger finger release, carpal tunnel syndrome surgery, Dupuytren's contracture, ganglion removal surgery, ulnar nerve compression (cubital tunnel syndrome); de Quervain's disease, arthritis of the hand and wrist, lumps and bumps in the fingers, hand and wrist, repetitive strain injury.

Mr Edmund Ieong

All foot and ankle conditions, bunions and foot / toe deformity, foot arthritis, fusion and replacement, heel pain, plantar fasciitis and Achilles tendonitis, ankle arthritis, fusion and ankle replacement, sports injury and ligament reconstruction, Achilles tendon repair and reconstruction, keyhole surgery, minimally invasive foot correction and arthroscopy, foot and ankle arthritis, deformity correction / reconstruction, joint injections, trauma / fractures and dislocation reconstruction.

Mr Niel Kang

Shoulder replacement surgery, elbow surgery, shoulder arthroscopy, rotator cuff repair, surgery for fractures and dislocations of shoulder, humerus and elbow, frozen shoulder treatment including injection therapy, shoulder arthritis.

Mr Graham Keene

Robotic-assisted surgery using a Mako system, hip disorders, hip pain, hip manipulation and injection, hip replacement surgery, hip revision replacement surgery, hip resurfacing surgery, femoroacetabular impingement FAI and labral tear assessment, adductor pain, hip clicking, tendon clicking, bursitis, knee disorders, knee pain, arthroscopic knee surgery, meniscal tears, anterior knee pain, knee replacement surgery, joint injection, arthroscopy of knee, osteoarthritis, rheumatoid arthritis, psoriatic arthritis, Gaucher syndrome, Stickler syndrome, inflammatory arthritis.

Professor Vikas Khanduja

Hip arthroscopy, young adult hip, hip replacement, knee arthroscopy, knee replacement, ACL or PCL reconstruction, hamstring injuries (acute and chronic), sports injuries, trauma surgery.

Mr Matija Krkovic

Non-union surgery, deformity corrections / limb lengthening, osteotomies, bone infection surgery, knee replacement surgery, knee arthroscopy, revision knee replacement and periprosthetic infections, lower limb sports injuries, lower limb disorders and reconstruction.

Clinics also available at Spire King's Lynn Clinic

Professor Stephen McDonnell

Robotic-assisted surgery using a Mako system, hip replacement surgery, knee arthroscopy surgery, knee ligament surgery, knee replacement, ACL reconstruction, meniscal repair surgery, sports injuries.

Mr Joel Melton

Robotic-assisted surgery using a Mako system, non-operative management of knee problems. knee arthritis, ACL and PCL injury, ACL reconstruction, multiligament injuries, sports injury, meniscal repair surgery, cartilage repair, autologous cartilage transplantation (ACI), meniscal allograft transplantation, osteotomy, realignment surgery, patellofemoral stabilisation, MPFL reconstruction, partial and total knee replacement surgery and revision / re-do knee replacement surgery, multi-ligament reconstruction, biological knee surgery, re-alignment surgery, knee cartilage repair and reconstructive surgery, uni-compartmental and revision, meniscal allograft transplantation.

Spire

Cambridge Lea Hospital

A new level of precision for joint replacement

Consultant Orthopaedic Surgeons at Spire Cambridge Lea Hospital use robotic technology to provide personalised surgical plans for joint replacement surgery.

Compared to traditional surgery MAKO has been proven to:

- Reduce pain after surgery
- Faster recovery
- 2 – 3 times more accuracy during surgery

Our physiotherapists deliver bespoke care plans to get you back to the life you love.

To find out more

Search 'Spire Cambridge
Lea Hospital'

Call 01223 266 900

Looking after you.

Mr Arman Memarzadeh

Robotic-assisted surgery using a Mako system, personalised (kinematic) knee replacement, sports injuries, arthroplasty / joint replacement, partial knee replacement, total knee replacement, realignment or osteotomy for early arthritis, arthroscopy, ACL and PCL reconstruction, ligament reconstruction, meniscectomy or meniscal repair for meniscus tear, patella stabilisation, trauma surgery, osteoarthritis, soft tissue injuries, sports injury, sports medicine, cartilage regeneration surgery, arthrosamid injections.

Mr P Julian Owen

Hip surgery including hip replacement, knee surgery including replacement and arthroscopy.

Clinics also available at Spire King's Lynn Clinic

Mr Arpit Patel

Robotic-assisted surgery using a Mako system, hip replacement surgery, knee replacement surgery, knee arthroscopy, sports injuries, sports medicine, biological treatments for tendon injuries, stem cells, regenerative medicine and PRP, viscosupplement joint injections and injections of Lipogems for pain management, carpal tunnel syndrome, trigger finger release, de Quervain's contracture, and Dupuytren's surgery including WALANT surgery (wide awake surgery under local anaesthetic).

Clinics also available at Spire King's Lynn Clinic

Mr Am Rai

All aspects of spinal surgery: spinal stenosis especially in the ageing population, minimal access keyhole day case surgery, back pain, degenerative disc disease, lumbar and cervical spine, cervical disc herniation, spondylolisthesis and treatment for spinal stenosis, cervical disc prolapse and myelopathy, cervical disc replacement and cervical fusion for cervical disc prolapse and myelopathy, cement augmentation osteoporotic spine, kyphoplasty and vertebroplasty, spinal trauma, deformity in adults and children including kyphosis and scoliosis, neck and back pain, pain management and injections.

Clinics also available at Spire King's Lynn Clinic

Mr Jaikirty (Jai) Rawal

Robotic-assisted surgery using a Mako system, hip replacement surgery, knee replacement, lower limb disorders and reconstruction.

Mr Andrew (Fred) Robinson

All disorders of the foot and ankle including Achilles tendon disorder, ankle arthritis, ankle arthroscopy, ankle ligaments, ankle pain, ankle replacement, arthritis of the big toe, flat foot, foot surgery, forefoot reconstruction, hallux valgus, heel pain, ingrown toenails, lesser toe deformities, minimal access / invasive surgery, Morton's Neuroma, plantar fasciitis, sporting injuries of the ankle and foot, tendon disease, tendon reconstruction, tendonitis, tibialis posterior reconstruction.

Mr Majeed Shakokani

Robotic-assisted surgery using a Mako system, hip and knee replacement surgery, revision hip arthroplasty surgery, knee arthroscopy surgery, joint manipulation treatment, lower limb joint pain treatment (joint injections), lower limb sports injuries, metastases to the lower limbs.

Mr Amresh Singh

Robotic-assisted surgery using a Mako system, hip arthroplasty, primary hip replacement surgery and revision hip replacement surgery.

Clinics also available at Spire King's Lynn Clinic

Mr Sarvpreet Singh

Robotic-assisted surgery using a Mako system, total hip replacement surgery, total knee replacement surgery, unicompartmental knee replacement surgery, ACL reconstruction, knee ligament surgery, knee arthroscopy, meniscal repair, meniscectomy, chondroplasty, injections – steroid, viscosupplementation, PRP, N-Stride and Arthrosamid, osteoarthritis, soft tissue injuries, sports injury, sports medicine.

Mr Aloke Singhania

Hip or knee pain, injury or arthritis, lower limb sports injuries, knee cartilage damage, meniscus tear, hip surgery, knee surgery, hip replacement surgery, knee replacement surgery, knee arthroscopic surgery, meniscal repair, meniscectomy, chondroplasty, cartilage defect surgery, micro-fracture, joint pain treatment (joint injection), joint manipulation treatment.

Mr Sivaraman Subramanian

Robotic knee replacement, robotic partial knee replacement, primary hip replacement, knee replacements, uni knee replacements, revision knee replacements, anterior cruciate ligament reconstruction, meniscal surgeries, patellofemoral instability.

Clinics also available at Spire King's Lynn Clinic

Mr Girish Swamy

Spinal deformities including scoliosis and kyphosis, revision spinal surgeries, back pain investigation, pain management injections for back or facet joint, metastatic tumours of the spine, spinal trauma, disc prolapse, spondylosis, spinal stenosis, spinal infections and cervical spine, cervical spine spondylosis, myelopathy.

Clinics also available at Spire King's Lynn Clinic

Mr Graham Tytherleigh-Strong

Shoulder and elbow arthroscopy, shoulder replacement, shoulder instability, shoulder arthritis, rotator cuff repair, sports injury, sternoclavicular joint arthritis and instability, ACJ reconstruction / surgery, CAM procedure, capsular release, scapulothoracic surgery, arthroscopic SLAP repair, clavicle fracture fixation, clavicle osteotomy, humeral shaft fracture fixation, long head of biceps surgery, pectoralis major repairs, proximal humerus fracture fixation, revision arthroscopic and open shoulder stabilisation (including bone block procedures), revision arthroscopic rotator cuff repair (+/- graft), tennis elbow surgery, golfers elbow surgery.

Mr Lee Van Rensburg

Shoulder and elbow joint replacement, shoulder and elbow arthroscopy, arthroscopic rotator cuff repair, fractures and dislocations of the upper limb, arthroscopic sub-acromial decompression, labral repair, release of elbow epicondylitis, capsular release.

Mr Alastair Vince

Robotic-assisted surgery using a Mako system, total hip replacement surgery, total knee replacement surgery, unicompartmental knee replacement surgery, hip replacement surgery, knee replacement surgery, joint pain treatment (joint injections), knee arthroscopy, lower limb sports injuries, disorders and reconstruction.

Mr Andrzej (Andrew) Wojcik

Treatment of degenerative conditions of the spine brachialgia and sciatica including mini-invasive techniques in surgery of the lumbar disc, mini-invasive fusions, treatment of post-traumatic conditions and deformities.

P

Paediatric

Dr Rajiv Goonetilleke

Abdominal pain, asthma, cough, constipation, urine tract infections, children with growth problems, short stature, pubertal problems, early puberty, delayed puberty, thyroid problems, diabetes, endocrinology.

Dr Ankit Mathur

Investigation and management of neurodevelopmental disorders, developmental delay, autism, ADHD.

Dr Susan Ozer

ADHD, autism spectrum disorders, developmental delay.

Pain management

Dr Mark Abrahams

Chronic pain management including low back, thoracic and neck pain, headache (including migraine), abdominal pain, pelvic pain, musculoskeletal pain conditions, neuralgia (nerve pain), facial pain, fibromyalgia, CRPS, joint pain. Treatments include facet joint medial branch nerve injections and radiofrequency ablation, epidurals / nerve root injections, pulsed radiofrequency, Botulinum Toxin injections for migraine and muscular pain, trigger point injections, spinal cord stimulation, spinal pain.

Dr Paul Rolfe

Management of chronic pain including spinal pain (low back pain, thoracic and cervical), sciatica, sacroiliac joint pain, joint pain (shoulder, hip, knee), CRPS, pelvic pain (women and men), persistent post-surgical pain, neuropathic pain, orofacial pain, cervicogenic headache, abdominal pain and fibromyalgia. Interventional treatments include facet joint medial branch blocks, radiofrequency denervation of facet and sacroiliac joints, nerve root blocks, dorsal root ganglion blocks, transforaminal epidurals, interlaminar epidural injection, pulsed radiofrequency treatment, occipital nerve blocks, suprascapular nerve blocks, genicular nerve blocks, cooled radiofrequency procedures, sympathetic nerve blocks and trigger point injections.

Dr Bharti Seth

Management of chronic pain conditions including low back pain, neck pain, whiplash injury, facial pain, headache including injection management for neuralgias associated with headaches, botulinum toxin injections for migraine, complex regional pain syndrome, neuropathic pain, radiofrequency and pulsed radiofrequency treatment, SI joint pain, trigger point injections, pelvic pain, fibromyalgia.

Dr Rokas Tamosauskas

Botulinum toxin injection for back pain, chronic pain management, epidural injections, facet joint injections, headache treatment, injection treatment for chronic migraines, neuropathic nerve pain, neuralgia treatment, pain management, rhizolysis, spinal cord stimulation for neuropathic pain syndromes, chronic spinal pain, low back pain, chronic sciatica, chronic neck / shoulder / arm / spinal pain, pain in thoracic spine, chronic pain in the joints, discogenic pain, peripheral neuropathic pain, CRPS1 (reflex sympathetic dystrophy).

Dr Evan Weeks

Chronic pain management, the treatment of spine pain (cervical, thoracic, lumbar and sacrum) using epidural injections, facet joint injections (medial branch blocks), pulsed radiofrequency (PRF), radiofrequency denervation, the treatment of headache or chronic migraines, neuropathic pain, neuralgia (nerve pain) treatment, musculoskeletal pain, abdominal pain, pelvic pain (men and women), joint pain (shoulder, hip, knee), CRPS, fibromyalgia and persistent post-surgical pain (PPSP), pain management, Botulinum toxin injection for back pain, headache treatment, injection treatment for chronic migraines, joint pain treatment (joint injections), rhizolysis.

Plastic surgery

Mr Tariq Ahmad

Upper blepharoplasty, lower blepharoplasty, face lift, neck lift, thigh lift, pinnaplasty, labiaplasty, rhinoplasty, cyst / mole / lesion removals, earlobe repairs / reductions, botox, filler, chemical peels, abdominoplasty, liposuction, brachioplasty, breast implant, breast uplift, breast reduction, fat transfer, gynaecomastia.

Mr Amer Durrani

Removal of basal cell carcinoma, squamous cell carcinoma, malignant melanoma with multidisciplinary team management. Reconstruction following Moh's surgery. Original; mole, cyst, skin tag removal, sentinel lymph node biopsy and lymph node removal, treatment for malignant skin cancer, reconstructive microsurgery following trauma or cancer.

Mr Ian Grant

Skin cancer surgery, basal cell carcinoma, squamous cell carcinoma and melanoma removal, moles, benign skin lesions, lipoma, and skin tags, scar revision, breast reduction, breast uplift, breast augmentation, tummy tuck, prominent ear correction and labial reduction surgery. Hand surgery, carpal tunnel release, cubital tunnel release, treatment of Dupuytren's disease, thumb base arthritis, trigger finger and ligament injuries.

Mr Per Hall

Dermatological surgery, facial surgery, paediatric surgery, reconstructive surgery, skin cancer, cosmetic breast surgery, abdominoplasty, management of facial deformity including cleft lip and palate, thigh lift, face lift.

Mr Michael Irwin

Cosmetic breast surgery including augmentation, reduction, mastopexy / breast lift, lipofilling / fat transfer, breast reconstruction (DIEP, latissimus dorsi, implant and ADM) developmental breast problems including Poland's syndrome, asymmetrical breast deformities and gynaecomastia, upper and lower eyelid surgery, face / neck lift, prominent ears, tummy tuck, liposuction, labia reduction surgery, mole and skin lesion excision including skin cancers (basal cell carcinoma / squamous cell carcinomas / malignant melanomas) and skin grafts.

Clinics also available at Spire King's Lynn Clinic

Mr Charles Loh

Skin lesion / lump removal and reconstruction, lymphoedema / lymphedema surgery, lymphovenous anastomosis, liposuction, vascularised lymph node transfer to upper and lower limbs, complex reconstruction of soft tissue defects / microsurgery, scar revision / keloid, treatment of bone infection / chronic non-healing wounds.

Mr Richard Price

Bells palsy, facial palsy, dermatological surgery: skin cancer, moles, lipomas, cysts, skin tags. Cosmetic surgery: facial, eyes, breasts, brachioplasty, abdominoplasty, labial reduction, prominent ear correction, scar revision surgery, non-surgical procedures: anti-wrinkle treatments and fillers, Ramsay Hunt syndrome, facial reconstruction.

Mr Alex Reid

Skin surgery, skin cancer surgery, mole, cyst, wart and skin tag removal, scar revision, lipoma removal, carpal tunnel syndrome, trigger finger, Dupuytren's contracture, cubital tunnel syndrome, arthritis of the fingers and thumb (including joint replacement), problems with tendons (stuck, cut or ruptured tendons), ganglion removal surgery, other peripheral nerve entrapment (cubital tunnel, lacertus tunnel, Guyon's canal syndrome), lumps and bumps in hand, hand trauma, reconstruction after trauma, excessive sweating (hyperhidrosis).

R

Radiology

Dr Sanjay Agrawal

Radiologist.

Dr Judith Babar

Radiologist.

Dr Tristan Barrett

Radiologist.

Dr Reem Bedir

Radiologist.

Dr Nathan Chan

Radiologist.

Dr Justin Cross

Radiologist (Neuroradiologist).

Dr Tilak Das

Radiologist.

Dr Susan Freeman

Radiologist.

Dr Emma Gerety

Radiologist.

Dr Deepa Gopalan

Radiologist.

Dr Andrew Grainger

Radiologist.

Dr Nick Higgins

Radiologist.

Dr Melanie Hopper

Musculoskeletal Radiologist, diagnostic US, X-ray, CT and MRI, guided joint and soft tissue injections of steroid, autologous blood, PRP and hyaluronic acid, lumbar spinal and SIJ injections for back pain and sciatica.

Dr Catherine Hubbard

Paediatric and general diagnostic radiology.

Dr Jonathan Jones

Radiologist.

Dr Yogish Joshi

Radiologist.

Dr Tomasz Matys

Radiologist (Neuroradiologist).

Dr Scott McDonald

Radiologist.

Dr Thais Minett

Radiologist.

Dr Penelope Moyle

Radiologist.

Dr Poe Zar Phyu

Radiologist.

Dr Daniel Scoffings

Radiologist (Neuroradiologist).

Dr Francis (Josh) Scott

Radiologist.

Dr Nicholas Screaton

Radiologist.

Dr Nadeem Shaida

Radiologist.

Dr Jan Smith

Radiologist.

Dr James Tanner

Radiologist.

Dr Andrew Winterbottom

Radiologist.

Rheumatology

Dr Anoop Kuttikat

Ankylosing spondylitis / axial spondyloarthritis, arthritis, crystal arthritis – gout, connective tissue disease-lupus (SLE), early inflammatory, pseudogout, polymyalgia rheumatica (PMR), rheumatoid arthritis, psoriatic arthritis, Sjogren's, scleroderma, temporal arteritis (giant cell arteritis), joint pain, back pain, inflammatory arthritis, osteoarthritis, osteoporosis, auto-immune connective tissue diseases.

Dr Anshuman Malaviya

Connective tissue disease, inflammatory rheumatic disorders, rheumatoid arthritis, joint pain treatment (joint injections), soft tissue rheumatism, metabolic bone diseases, back pain, lumbar spine disorders, osteoporosis, axial spondyloarthritis, gut-joint axis.

Dr Jonathan Rees

Sports medicine, sports injury, tendinopathy, stress fractures, sports rehabilitation, ankylosing spondylitis, gout, back pain, osteoarthritis, bone health, osteoporosis, psoriatic arthritis, rheumatoid arthritis.

Dr Nicholas Shenker

Inflammatory and degenerative arthritis, neck and back pain, soft tissue problems, complex regional pain syndromes (CRPS / reflex sympathetic dystrophy), fibromyalgia, connective tissue diseases, lupus.

S

Sport medicine

Dr Clodagh Dugdale

Musculoskeletal medicine – particularly the shoulder, rehabilitation of chronic and overuse injuries, autologous blood and PRP, joint and soft tissue injections, diagnostic ultrasound, ultrasound guided steroid, long term tendinopathies.

Dr Jonathan Rees

Sports and exercise medicine, sports injury, ankylosing spondylitis, gout, osteoarthritis, bone health, osteoporosis, psoriatic arthritis, rheumatoid arthritis, back pain.

U

Urology

Mr Tevita Aho

General urology, male lower urinary tract symptoms, laser prostate surgery for benign prostate hyperplasia, HoLEP, Urolift, Rezum, benign prostate diseases, urinary tract infections, raised PSA, haematuria investigation, aquablation, circumcision, hydrocele and epididymal cyst removal.

Mr James Armitage

Robotic-assisted surgery using a da Vinci® system, general urology, haematuria, laser prostate surgery, laparoscopic renal surgery, nephrectomy, pyeloplasty, urological pathology, benign prostate diseases, circumcision, urinary tract infection, bladder / kidney stone disease, nephrology, prostate cancer, urological cancers, kidney cancers, testis cancer, scrotal swelling / pathology, vasectomy.

Miss Suzanne Biers

General and functional urology, circumcision, scrotal surgery, hydrocele repair, epididymal cyst removal, cystoscopy (bladder investigation), bladder biopsies, urethral strictures, urethral dilatation, optical urethrotomy, urethroplasty, prostate surgery, Urolift, ITIND prostate surgery, TURP, urinary incontinence in men and women, vasectomy, benign prostate diseases (BPH), male urinary symptoms, bladder cancer diagnosis and initial treatment, bladder stone disease, Peyronie's disease, reconstructive urology, urinary tract infections, cystitis, urethral diverticulum, urodynamics.

Mr Evangelos Kkougkousis

Prostate surgery and laser prostate surgery (HOLEP and Green Light Laser / PVP), ejaculation sparing prostate laser surgery, treatment of kidney and bladder stones, benign prostate diseases, treatment of urinary symptoms in men and women, blood in urine investigations, erectile dysfunction, circumcision, hydrocele repair, removal of epididymal cysts, surgery of scrotum, testicular and scrotal pain, urinary tract infections, urodynamic and video-urodynamic studies, vasectomy.

Clinics also available at Spire King's Lynn Clinic

Dr Christopher Lawrence

Nephrology, kidney disease, glomerulonephritis, diabetic nephropathy, renovascular disease, proteinuria, nephrotic syndrome, chronic kidney disease, acute kidney injury, UTI, renal stones, transplantation, lupus, Ig A nephropathy, FSGS, membranous, minimal change disease, haematuria, kidney biopsy, immunosuppression.

Mr Saiful Miah

General urology, elevated PSA, prostate cancer (radical robotic prostatectomy and active surveillance), benign prostatic enlargement, circumcision, scrotal swellings, urinary tract infections.

Mr Adam Nelson

General urology, benign prostatic hyperplasia, renal cancer, prostate cancer, haematuria, benign prostate diseases, bladder cancer, bladder / kidney stone disease, female urology, incontinence, urinary tract infections, urological cancers, urological pathology.

Mr Antony Riddick

Robotic-assisted surgery using a da Vinci® system, general urology, robotic renal surgery, kidney cancer surgery, benign prostatic hyperplasia, laser prostate surgery (GreenLight), renal cancer, kidney tests, vasectomy, prostate cancer, haematuria, testicular pain, abnormalities and swellings, disorders of the penis and scrotum.

Clinics also available at Spire King's Lynn Clinic

Mr Nikesh Thiruchelvam

General urology, female and male incontinence, bladder and ureteric reconstruction, male urethral reconstruction for stricture disease, urodynamics, urolift, bladder investigations (cystoscopy), circumcision, epididymal cyst excision, hydrocele surgery, prostate surgery and laser prostate surgery, stress urinary incontinence (SUI) for women, testicular implants, vasectomy, vasectomy reversal.

V

Vascular surgery

Mr Mohammed Chowdhury

Vascular surgery, endovenous and open surgery for varicose veins, endovascular surgery.

Mr Michael Gaunt

Minimally invasive varicose vein surgery, endovenous laser therapy (EVLT) and VNUS Closure™ for varicose veins, ultrasound-guided varicose vein foam sclerotherapy, micro-sclerotherapy for thread veins, VeinWave thermocoagulation for facial and skin veins, hernia repair, hyperhidrosis (injection therapy), arterial disease, monitoring of carotid artery disease, monitoring of aortic aneurysms, lymphoedema, leg swelling, lumps and bumps, spider veins, red veins, facial veins, venous eczema, venous ulceration, deep vein thrombosis, phlebitis, venous and arterial disorders, peripheral vascular disease.

Mr Manj Gohel

Vascular, endovenous interventions for varicose veins, endovascular surgery, deep venous disease, thread veins, leg ulcers, radiofrequency ablation, cyanoacrylate glue closure, post-thrombotic syndrome, aortic aneurysm, peripheral vascular disease.

Are your patients with medical insurance using it?

Nearly 1 in 8 of the British population has a private medical insurance policy – but not everyone uses it*. If everyone who was eligible got treated using their cover, just imagine the impact this would have on NHS waiting lists.

We always encourage patients to tell their GP if they have PMI. Why not ask them too?

*Healthcare Cover UK Market Report (Fifteenth Edition), Laing Buisson

Looking after you.

How to find us – Spire Cambridge Lea Hospital

Follow the B1049 towards Histon and Cottenham. Proceed through the traffic lights, past the Holiday Inn on your right and over the bridge. Immediately after the next set of traffic lights (pedestrian crossing), turn right into New Road, following the sign for ‘Hospital, Village College and Milton’. The hospital is after the turn, on the right.

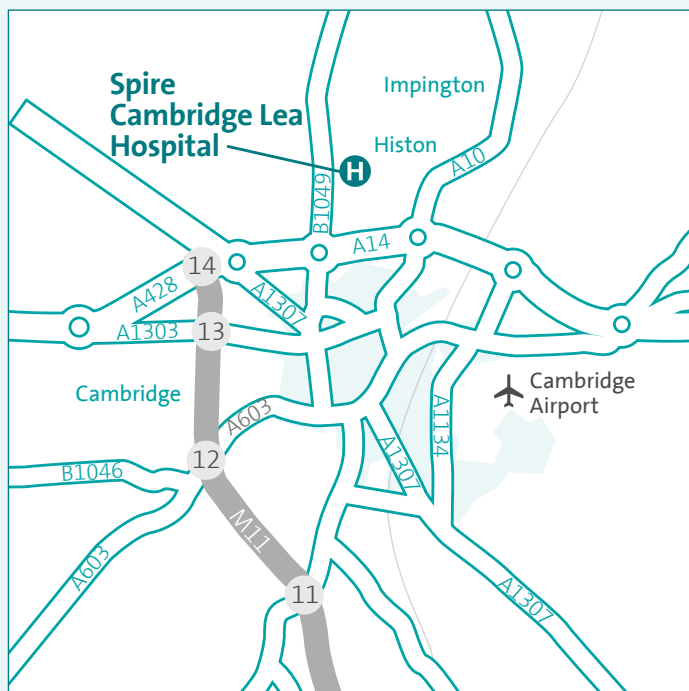

How to find us – Spire King’s Lynn Clinic

From the A148, depart the A148 at Knights Hill roundabout, taking the exit onto Grimston Road. Continue onto Low Road/A1078 for half a mile before turning right into Spire King’s Lynn Clinic. From King’s Lynn town centre, drive along the A148/London Road leading onto John Kennedy Road/A148. Continue along Edward Benefer Way for 0.2 miles. Spire King’s Lynn Clinic will be on your left-hand side.
